Report of Independent Registered Public Accounting Firm

The General Partner
AVM, L.P.

We have audited the accompanying consolidated statement of financial condition of AVM, L.P. (the Partnership) as of December 31, 2014. This financial statement is the responsibility of the Partnership's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the consolidated financial position of AVM, L.P. at December 31, 2014, in conformity with U.S. generally accepted accounting principles.

Notes to Consolidated Statement of Financial Condition

1. Summary of Significant Accounting Policies

Organization and Business

AVM, L.P. ("AVM") is an institutional broker-dealer trading in U.S. Government and other fixed income securities and derivatives. AVM's core business is the provision of introducing broker services to sophisticated, institutional customers. AVM also assists its clients with obtaining access to securities financing (e.g., via repurchase arrangements), and performs collateral management, as well as clearing and other operational services, to certain customers. AVM generally offers brokerage services on a non-discretionary, agency basis and generally does not serve in a principal capacity to its customers (although AVM may act in a riskless principal capacity on certain securities transactions). AVM conducts both its securities and futures interest businesses with other broker-dealers on a fully disclosed basis. AVM is registered with the Securities and Exchange Commission ("SEC") and as an introducing broker with the Commodity Futures Trading Commission ("CFTC"). AVM is a member of the Financial Industry Regulatory Authority ("FINRA"), the Mortgage-Backed Securities Clearing Corporation, and the Government Securities Clearing Corporation.

Basis of Preparation

The consolidated statement of financial condition includes the accounts of AVM and AVM Financial Limited ("AVM Financial"), AVM's wholly-owned subsidiary (collectively, the "Partnership"). AVM Financial is a broker dealer located in the United Kingdom and registered with the Financial Conduct Authority ("FCA") that provides AVM with a presence in the European markets and investor relations services to AVM's European customers. All intercompany balances and transactions are eliminated in consolidation. The consolidated statement of financial condition has been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and is stated in U.S. dollars.

Cash

Cash includes cash held at banks. The amount held, at times, may exceed the amount insured by the Federal Deposit Insurance Corporation.

Due from/to Brokers and Clearing Organizations

Due from brokers and clearing organizations consists of cash and deposits held at these organizations as well as receivables for forward settling trades. Due to brokers consists of miscellaneous balances payable to other brokers.

Securities Purchased Under Agreements to Resell and Securities Sold Under Agreements to Repurchase

Transactions involving purchases of securities under agreements to resell ("reverse repurchase agreements") or sales of securities under agreements to repurchase ("repurchase agreements") are treated as collateralized financing transactions and are recorded at their contracted resale or repurchase amounts plus accrued interest. These securities include U.S. Treasury and agency obligations and mortgage-backed securities.

In a reverse repurchase agreement, it is the policy of the Partnership to obtain possession or control of collateral with a market value equal to or in excess of the amounts purchased under agreements to

AVM, L.P.
(an Illinois limited partnership)

Notes to Consolidated Statement of Financial Condition

resell. To ensure the market value of the underlying collateral remains sufficient, this collateral is valued daily with additional collateral obtained or excess collateral returned when appropriate, as required by contractual provisions.

In a repurchase agreement, if the counterparty does not return the securities, the Partnership may incur a loss equal to the amount by which the market value of the securities on the date of nonperformance, plus (less) any margin deposits pledged (held), exceeds the contract amount.

Furniture, Equipment, and Software

Furniture, equipment, and software, which include internally developed software, are stated at cost and depreciated over estimated useful lives of three to seven years using a straight-line method. Leasehold improvements are amortized over the shorter of the economic useful life of the improvements or the term of the lease using a straight-line method.

Income Taxes

No provision for Federal, state and local income taxes has been made in the accompanying consolidated statement of financial condition, as individual partners are responsible for their proportionate share of the Partnership's taxable income. Interest and other income realized by the Partnership from non-U.S. sources and capital gains realized on the sale of securities of non-U.S. issuers may be subject to withholding and other taxes levied by the jurisdiction in which the income or gain is sourced.

Regarding AVM Financial, a provision is made for corporation tax at the current statutory rates on the excess of taxable income over allowable expenses. Deferred taxation is provided on all timing differences that have originated but not reversed by the balance sheet date other than those differences regarded as permanent. An asset is not recognized to the extent that the transfer of economic benefits in the future is uncertain. Any deferred tax assets and liabilities recognized are provided at the average rate of tax expected to apply when the asset and liability crystallizes and are not discounted.

The Partnership recognizes a tax benefit from an uncertain position only if it is more likely than not that the position is sustainable, based solely on its technical merits and consideration of the relevant taxing authority's widely understood administrative practices and precedents. If this threshold is met, the Partnership measures the tax benefit as the largest amount of benefit that is greater than 50% likely being realized upon ultimate settlement. The Partnership is subject to potential examination by taxing authorities in various jurisdictions. The open tax years under potential examination vary by jurisdiction. As of December 31, 2014, there was no impact to the consolidated statement of financial condition relating to accounting for uncertainty in income taxes.

Capital Withdrawals

Capital withdrawals to be paid within the month following the date of the consolidated statement of financial condition are recorded as capital withdrawals payable.

AVM, L.P.
(an Illinois limited partnership)

Notes to Consolidated Statement of Financial Condition

Estimates

The preparation of a consolidated statement of financial condition in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated statement of financial condition. Actual results could differ from those estimates.

2. Significant Risk Factors

In the normal course of business, the Partnership enters into transactions in various financial instruments. The Partnership's financial instruments are subject to, but are not limited to, the following risks:

Credit Risk

Credit risk represents the potential loss that the Partnership would incur if the counterparties failed to perform pursuant to the terms of their obligations to the Partnership. The Partnership minimizes its exposure to credit risk by conducting transactions with established, reputable financial institutions. Counterparty exposure is monitored on a regular basis.

The Partnership has agreements with J.P. Morgan Chase & Co. and its affiliates to carry the Partnership's account as a customer. The Partnership clears substantially all of its trades under a fully disclosed clearing agreement with Pershing LLC ("Pershing") and has prime brokerage agreements with Citigroup Capital Markets Inc. and Credit Suisse Securities (USA) LLC.

In the normal course of its investment activities, the Partnership may be required to pledge investments as collateral, whereby the counterparties have the right, under the terms of the trading agreements, to repledge or sell the securities if the Partnership is unable to meet its margin requirements.

Liquidity Risk

Liquidity risk represents the possibility that the Partnership may not be able to sell its positions in times of low trading volume, high volatility or financial stress at a reasonable price.

Interest Rate Risk

Interest rate risk represents the effect from a change in interest rates, which could result in an adverse change in the fair value of a financial instrument.

Currency Risk

The Partnership is exposed to risks that the exchange rate of the U.S. dollar relative to other currencies may change in a manner which has an adverse effect on the reported value of the Partnership's assets and liabilities denominated in currencies other than the U.S. dollar.

Political Risk

The Partnership is exposed to political risk to the extent that it trades securities that are listed on various U.S. and foreign exchanges and markets. The governments in any of these jurisdictions

AVM, L.P.
(an Illinois limited partnership)

Notes to Consolidated Statement of Financial Condition

could impose restrictions, regulations or other measures, which may have a material adverse impact on the Partnership's business.

3. Segregated Cash

Cash of \$1,384,000 has been segregated in a special reserve bank account for the exclusive benefit of customers under Rule 15c3-3 of the SEC.

4. Partnership Agreement

At December 31, 2014, the Partnership consists of a general partner, AVM Associates, LLC (Associates), a Florida limited liability company, and Class A limited partnership interests.

5. Furniture, Equipment, and Software, net

Furniture, equipment, and software are as follows:

December 31, 2014

	<i>(in thousands)</i>
Computer hardware and software	\$ 2,861
Furniture and fixtures	611
Leasehold improvements	2,756
Other equipment	12
	<hr/> 6,240
Less accumulated depreciation and amortization	<hr/> (3,040)
Furniture, equipment and software, net	<hr/> \$ 3,200

6. Repurchase and Reverse Repurchase Agreements

The repurchase and reverse repurchase agreements, which are recorded at their contracted resale or repurchase amounts plus accrued interest, approximate their fair values due to the short term nature of the agreements.

The Partnership primarily enters into repurchase and reverse repurchase agreements on a "match-book" basis whereby the terms and underlying securities subject to both the repurchase and reverse repurchase agreements are substantially similar. Additionally, the Partnership enters into reverse repurchase agreements with excess cash. At December 31, 2014, the Partnership obtained securities with a fair value of approximately \$115,592,000 related to its reverse repurchase agreements, of which approximately \$103,592,000 had been pledged in connection with its repurchase agreements.

The interest rates at which such agreements were executed ranged from approximately 0.18 percent to 0.70 percent. The stated maturity of securities assigned as collateral for such agreements ranged from 5 years to 34 years. The maturity of the repurchase and reverse repurchase agreements ranged from 2 days to 182 days.

AVM, L.P.
(an Illinois limited partnership)

Notes to Consolidated Statement of Financial Condition

The Partnership has master repurchase agreements that allow the Partnership to offset amounts owed to a counterparty with amounts owed from the same counterparty, including any collateral, in the event the counterparty defaults.

7. Related Party Transactions

The Partnership enters into transactions (including the purchase and sale of securities and financing transactions in the form of repurchase and reverse repurchase agreements) with partners of the Partnership and parties and entities affiliated with the Partnership.

The approximate amounts relating to affiliated transactions are as follows:

As of and for the year ended December 31, 2014

	<i>(in thousands)</i>
Receivables from affiliates	\$ 4,760
Securities sold under agreements to repurchase	41,851

8. Financial Instruments with Off-Balance Sheet Risk

In the normal course of business, the Partnership deposits with lending institutions securities it owns and securities owned by others which it holds as collateral for its borrowings.

The Partnership does not currently anticipate nonperformance by customers or counterparties and has implemented procedures to monitor its market exposure and counterparty risks. In addition, the Partnership has a policy of reviewing, as considered necessary, the credit standing of each counterparty and customer with which it conducts business.

At December 31, 2014, the Partnership has cash of approximately \$11,122,000 held at large financial institutions. Certain amounts on deposit exceed federally insured limits.

9. Commitments

The Partnership has obligations under an operating lease for office space with the term in excess of one year. Approximate aggregate annual rentals are listed below:

	<i>(in thousands)</i>
2015	\$ 715
2016	639
2017	700
2018	844
2019	864
Later years	1,883
	<hr/>
	\$ 5,645

The office space rental agreement contains renewal options and escalation clauses.

The Partnership has an arrangement with Pershing which, among other things, provides a line of credit collateralized by securities and bears interest at floating rate. At December 31, 2014, the Partnership has no borrowings under this arrangement.

AVM, L.P.
(an Illinois limited partnership)

Notes to Consolidated Statement of Financial Condition

In the normal course of business, the Partnership enters into contracts that contain a variety of indemnifications. The Partnership's maximum exposure under these arrangements is not known. However, the Partnership has not had prior claims or losses pursuant to these contracts and expects the risk of loss to be remote.

The Partnership has a non-contributory profit sharing plan covering substantially all employees who meet specific age and service requirements. The profit sharing plan provides for annual contributions at the discretion of the partners that may not exceed the greater of \$52,000 or 25 percent of eligible employee compensation.

10. Regulatory Net Capital Requirements

Pursuant to the Uniform Net Capital Rule of the Securities Exchange Act of 1934, and CFTC Rule 1.17, the Partnership is required to maintain minimum net capital, as defined. The Partnership has elected to use the alternative method permitted by the rules in computing minimum net capital. Such method requires that the Partnership maintain minimum net capital equal to the greater of \$250,000 or two percent of aggregate debit balances arising from customer transactions, as defined. The Partnership is required to notify its governing regulatory agencies if net capital falls below \$375,000. Net capital may fluctuate on a daily basis. At December 31, 2014, the Partnership's net capital and net capital requirement are approximately \$16,075,000 and \$250,000, respectively.

11. Consolidated Subsidiary

The following is a summary of certain financial information of the Partnership's consolidated subsidiary:

	AVM Financial Limited
	<i>(in thousands)</i>
Total assets	\$ 544
Shareholder's equity	313

The approximately \$313,000 of shareholder's equity of AVM Financial is not included as capital in the consolidated computation of the Partnership's net capital, because under applicable regulations, an attorney's opinion is required stating that the assets could be distributed to the broker dealer within 30 days. As the subsidiary's net assets would not have a material effect on the Partnership's consolidated computation, it is not cost beneficial at this time to pursue such inclusion.

12. Subsequent Events

The Partnership evaluated all events that occurred through the date the consolidated financial statements were available to be issued. During the period, the Partnership did not have any subsequent events requiring recognition or disclosure in the consolidated statement of financial condition.
