REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Shearson Financial Services, LLC
Boca Raton, FL

We have audited the accompanying statement of financial condition of Shearson Financial Services, LLC as of December 31, 2014. This financial statement is the responsibility of Shearson Financial Services, LLC's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Shearson Financial Services, LLC as of December 31, 2014 in conformity with accounting principles generally accepted in the United States.

SHEARSON FINANCIAL SERVICES, LLC
NOTES TO THE STATEMENT OF FINANCIAL CONDITION

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business and Organization

Shearson Financial Services, LLC (the "Company") is a broker-dealer specializing in fixed income and equity securities. The Company acts in a principal capacity, buying and selling for its own account and trading with customers and other dealers, and in an agency capacity, buying and selling securities for its customers and charging a commission.

Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the requirements of these organizations.

Property and Equipment

Property and equipment are recorded at cost. Expenditures for major improvements and additions are charged to the asset accounts while replacements, maintenance and repairs, which do not improve or extend the lives of the respective assets are charged to expense in the period they are incurred.

Depreciation is computed on the straight-line method over seven years for furniture and fixtures and five years for equipment.

Income Taxes

The Company, with the member's consent, has elected to be treated as an S Corporation for federal and state income tax purposes. Under this election, no provision for income taxes is made since such taxes are the personal responsibility of the member.

The Company assesses its tax positions in accordance with "*Accounting for Uncertainties in Income Taxes*" as prescribed by the Accounting Standards Codification, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years (generally a period of three years from the later of each return's due date or the date filed) that remain subject to examination by the Company's major tax jurisdictions. Generally, the Company is no longer subject to income tax examinations by its major taxing authorities for years before 2011.

The Company assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Company records these liabilities to the extent it deems them more likely than not to be incurred. Interest and penalties related to uncertain tax positions, if any, would be classified as a component of income tax expense.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes (continued)

The Company believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statements.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Securities Transactions

Securities transactions and related commissions are reported on a trade date basis. The change in the resulting difference between cost and market is included in net trading profits in the statement of operations.

Valuation of Investments in Securities at Fair Value - Definition and Hierarchy

Fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in a timely transaction with an independent counter-party in the principal market or in the absence of a principal market, the most advantageous market for the investment or liability. There is a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs) and to establish classification of fair value measurements for disclosure purposes. Various inputs are used in determining the value of the Company's investments. The hierarchy is summarized in the three broad levels listed below:

Level 1 - quoted prices in active markets for identical investments

Level 2 - other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)

Level 3 - significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In applying the provisions of fair value accounting, the following valuation techniques were employed:

Exchange Traded Securities

Securities and other investments traded on a national exchange or on the national market system of NASDAQ are valued at their last reported sale price or, if there has been no sale on that date, at the closing "bid" price if long, or closing "ask" price if short. Other securities or investments for which over-the-counter market quotations are available are valued at their last reported sale price or, if there had been no sale on that date, at closing "bid" price if long, or closing "ask" price if short as reported by a reputable source selected by Management. The Company has sole and absolute discretion in valuing any positions for which market quotations are not readily available or in adjusting the valuation of any other positions. Exchange traded securities are generally categorized in Level 1 of the fair value hierarchy.

***Commercial Mortgage-Backed Securities (CMBS)
and Asset-Backed Securities (ABS)***

CMBS and ABS may be valued based on external price/spread data. When position-specific external price data are not observable, the valuation is based on prices of comparable securities. Included in this category are certain interest-only securities, which, in the absence of market prices, are valued as a function of observable whole-bond prices and cash flow values of principal-only bonds using current market assumptions at the measurement date. CMBS and ABS are categorized in Level 2 of the fair value hierarchy when external pricing data is observable and in Level 3 when external pricing data is unobservable.

NOTE 2. RECEIVABLE FROM BROKER

The amount receivable from broker is a combination of operating cash at the broker, required deposits and the differential of amounts due to and from the Company on securities transactions. The Company maintains checking privileges at its broker. These amounts are highly liquid and are considered to be cash equivalents for the statement of cash flows. From time to time, the Company maintains cash balances with financial institutions in excess of federally insured limits.

NOTE 3. FAIR VALUE MEASUREMENT

The following table presents information about the Company's assets measured at fair value as of December 31, 2014:

ASSETS, at fair value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Equity securities	\$ -	\$ -	\$ -	\$ -
Fixed income securities	-	667	-	667
Securities Owned	\$ -	\$ 667	\$ -	\$ 667

NOTE 4. LEASE COMMITMENTS

The Company is obligated under a non-cancelable lease agreement for its office facility in Boca Raton, Florida, which expires in April 2016.

Approximate future minimum payments under the non-cancelable lease for the years subsequent to December 31, 2014 are as follows:

2015	\$ 46,000
2016	\$ 16,000
Total	\$ 62,000

NOTE 5. NET CAPITAL REQUIREMENTS

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule of the Securities and Exchange Commission, which requires that "Net Capital", as defined, shall be at least the greater of \$100,000 or 6 2/3% of "Aggregate Indebtedness", as defined. At December 31, 2014, the Company's "Net Capital" was \$336,248, which exceeded the requirements by \$236,248. The ratio of "Aggregate Indebtedness" to "Net Capital" was 1.08 to 1 at December 31, 2014.

NOTE 6. RISK CONCENTRATIONS

Clearing and Depository Operations

The clearing and depository operations for the Company's securities transactions are provided by a brokerage firm, whose principal office is in New York, New York. The clearing agreement expires in August 2016 and provides for early termination fees up to \$200,000. At December 31, 2014, all securities owned and the amount receivable from broker, as reflected in the accompanying statement of financial condition, are held by and due from this broker.

Other Risk Concentrations

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the Company executes customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event a customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral or to reduce positions when necessary.

NOTE 7. DUE TO OFFICER

The Company has received funds from an officer. The officer utilizes these funds to purchase and sell securities, with the net profits or losses, net of transaction costs, due to the officer. At December 31, 2014, the amount due to the officer is \$4,244 and is due upon demand.
