1. Summary of Significant Accounting Policies

Basis of Presentation

The Company is a broker-dealer registered with the Securities and Exchange Commission (“SEC”) which does not hold customer securities. The Company clears all stock exchange transactions for customers on a fully disclosed basis with a clearing broker. The Company’s customer base is located primarily in Ohio and Michigan.

Recently Issued Accounting Standards

In November 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-17 *Income Taxes, Balance Sheet Classification of Deferred Taxes (Topic 740)*. This new accounting standard requires that all deferred income taxes be classified as long-term on the balance sheet. In addition, in January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall (Subtopic 825-10), Recognition and Measurement of Financial Assets and Financial Liabilities*. This new accounting standard requires that equity investments be measured at fair value with changes in fair value recognized in net income and eliminate certain financial statement disclosures for investments measured at amortization cost. ASU 2015-17 and 2016-01 are effective for annual financial statements for fiscal years beginning after December 15, 2017. However, early adoption is permitted as long as these financial statements have not been made available for issuance. The Company has not adopted these accounting standards; however, when adopted these accounting standards will not have a material effect on the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Concentration of Credit Risk and Revenue

Substantially all of the Company's revenues are primarily related to transactions involving mutual funds from one mutual fund company.

Investments

Investments are recorded at fair market value based on quoted market prices in the accompanying financial statements. Realized gains and losses on marketable securities are recorded on a specific identification basis. Unrealized gains and losses on marketable securities accounted for as trading investments are reflected in the statement of operations. For classification purposes in the accompanying financial statements, all money market funds are considered to be short-term investments.

Commission Revenue and Expense

Commission revenue and expense is recorded on a trade date basis. Certain fees received from mutual funds are recognized when received.

Income Taxes

The Company has evaluated the guidelines relating to uncertain tax positions and has concluded the Company has no significant financial statement exposure to uncertain tax positions at December 31, 2015. The Company's policy is to record any interest and penalties, as a component of income tax expense. The Company is subject to federal, state and local tax audits, but is no longer under subject to examination for any years prior to 2011. The Company did not have any income tax audits during the year ended December 31, 2015.

Fair Value Information

Accounting principles accepted in the United States establishes a framework for measuring fair value, requires expanded disclosure about the information used to measure fair value, and establishes a three-tier value hierarchy which prioritizes the inputs used in measuring fair value. The following is a list of the different levels in the fair value hierarchy based on the data and/or methods used to determine fair value:

- Level 1: Quoted market prices in active markets for identical assets or liabilities
- Level 2: Observable market-based inputs or unobservable inputs that are corroborated by market data for substantially the full terms of the asset or liability
- Level 3: Unobservable inputs that may be supported by little or no market activity and reflects management's assumptions that are significant to the measure of fair value

The Company has certain assets or liabilities that are required to be recorded at fair value on a recurring basis in accordance with accounting principles generally accepted in the United States of America. The asset's or liability's fair value measurement level is based on the lowest level of any input that is significant to the fair value measurement. The following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded at year end.

The following table sets forth by level, within the fair value hierarchy, the Company's assets valued at fair value on a recurring basis as of December 31, 2015:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM ON INTERNAL CONTROL STRUCTURE

Board of Directors
Treece Financial Services Corp.

In planning and performing our audit of the financial statements of Treece Financial Services Corp. (the "Company") as of and for the year ended December 31, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered the Company's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we do not express an opinion on the effectiveness of the Company's internal control.

Also, as required by rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications and comparisons and the recordation of differences required by rule 17a-13 and complying with the requirements for prompt payment of securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Board of Directors
Treece Financial Services Corp.

Page 2

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the company's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures, as described in the second paragraph of this report, were adequate at December 31, 2015 to meet the SEC's objectives.

The report is intended solely for the information and use of the Board of Directors, management, the Securities Exchange Commission, FINRA, and other regulatory agencies which rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Board of Directors
Treece Financial Services Corp.

We have reviewed management's statements, included in the accompanying Management's Assertions on Exemptions from SEC Rule 15c3-3 report, in which Treece Financial Services Corp. (the "Company") identified the following provisions of 17 C.F.R. § 15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3(k)(1) and the Company stated that it met the identified exemption provisions throughout the most recent fiscal year without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the conditions set forth in paragraph (k)(1) of Rule 15c3-3 under the Securities Exchange Act of 1934.
