REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
Syndicated Capital, Inc.
Santa Monica, California

I have audited the accompanying statement of financial condition of Syndicated Capital, Inc. as of December 31, 2015 and the related statements of income, changes in shareholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of Syndicated Capital, Inc.'s management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Syndicated Capital, Inc. as of December 31, 2015 and the results of its operations and cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The supplemental information for the year ended December 31, 2015 (Schedule I, Statement of Net Capital Under Rule 15c3-1, Schedule II, Determination of Determination of Reserve Requirements Under Rule 15c3-3 (exemption), and Schedule III, Information for Possession or Control Requirements Under Rule 15c3-3 (exemption)) has been subjected to audit procedures performed in conjunction with the audit of Syndicated Capital, Inc.'s financial statements. The supplemental information is the responsibility of Syndicated Capital, Inc.'s management. My audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming my opinion on supplemental information, I evaluated whether the supplemental information, including the form and content is presented in conformity with Rule 17a-5 of the Securities Exchange Act of 1934. In my opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

This opinion is intended solely for the information and use of the board of directors, the Securities and Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.

Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Syndicated Capital, Inc (the "Company") was registered as an introducing broker-dealer under the Securities and Exchange Act of 1934, and is a member of the Financial Industry Regulatory Authority ("FINRA"), the Securities Investor Protection Corporation ("SIPC"), and the Municipal Securities Rulemaking Board ("MSRB").

The Company conducts business on a fully disclosed basis whereby the execution and clearance of trades are handled by clearing organizations. The Company does not hold customer funds and/or securities.

The Company primarily earns commissions through the sale of equities, mutual funds, variable annuities, and private placements. The Company has about 2,700 clients located throughout the United States. No one client comprises a significant revenue source.

Summary of significant accounting policies

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

For purposes of statements of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. The company includes money market accounts as cash equivalents.

Securities transactions are recorded on a trade date basis with the related commission revenues and expenses also recorded on a trade date basis, including proprietary investment transactions.

Commissions receivable are stated at face amount with no allowance for doubtful accounts. An allowance for doubtful accounts is not considered necessary because probable uncollectible accounts are immaterial.

Marketable securities owned by the Company are accounted for at market value, with market value based on current published market prices. The resulting difference between cost and market (or fair value) is included in income.

Equipment is stated at cost. Repairs and maintenance to these assets are charged to expense as incurred; major improvements enhancing the function and/or useful life are capitalized. When items are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gains or losses arising from such transactions are recognized. Equipment is depreciated over its estimated useful life of five (5) years by the straight line method.

Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(Continued)

The Company, with the consent of its Stockholder, has elected to be an S Corporation and accordingly, has its income taxed under Sections 1361-1379 of the Internal Revenue Code. Subchapter S of the Code provides that the Stockholder, rather than the Company, is subject to tax on the Company's taxable income. Therefore, no provision or liability for Federal Income Taxes is included in these financial statements. The State of California has similar regulations, although there exists a provision for a minimum Franchise Tax and a tax rate of 1.5% over the minimum franchise fee of \$800.

The Company has elected to report the statement of changes in stockholder's equity without disclosing the accumulated adjustment account and other equity accounts pertinent to S Corporation. There is no financial impact to these financial statements.

Management has reviewed subsequent events through February 16, 2016.

The Company is subject to audit by the taxing agencies for years ending December 31, 2012, 2013 and 2014.

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritized the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820 are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 inputs are inputs (other than quoted prices included within Level 1) that are observable for the asset or liability, either directly or indirectly.

Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

Assets in the amount of \$1,495,328 are considered level 1 and \$449,887 are considered level 2 at December 31, 2015.
