**CFD INVESTMENTS, INC.**  
**Notes to Financial Statements**  
**December 31, 2015**

**Note A-Nature of Operations and Summary of Significant Accounting Policies:**

**Nature of Operations**

CFD Investments, Inc. (the Company), was incorporated in 1986 in the state of Indiana. The Company is a registered broker-dealer with the Financial Industry Regulatory Authority (FINRA), the Securities and Exchange Commission (SEC) and various states within the United States.

The Company operates as an introducing broker on a fully disclosed basis, and forwards all transactions to its clearing brokers. Accordingly, the Company operates under the exceptive provision of the SEC Rule 15c3-3(k)(2)(ii). Additionally, the Company operates under the exceptive provision of Rule 15c3-3(k)(2)(i) for the special third party account set up for the exclusive benefit of one customer.

**Revenue Recognition**

The Company recognizes revenue through commissions generated by effecting trades for its customers. Customers' securities transactions are recorded on a settlement date basis. Securities transactions of the Company are recorded on a trade date basis.

The Company recognizes revenue on its variable annuity and mutual funds products when the necessary policy documents have been completed by the customer as well as the premiums associated with the related products have been received by the carrier.

**Method of Accounting**

The Company's financial statements are presented on the accrual basis method of accounting.

**Commissions Receivable**

The Company carries commissions receivable at invoiced amounts less an allowance for doubtful accounts. On a periodic basis, the Company evaluates its commissions receivable and establishes an allowance for doubtful accounts, based on history of past write-offs and collections and current credit conditions. The Company considers commissions receivable to be fully collectible; accordingly, no allowance for doubtful accounts currently is provided. The Company's policy is not to accrue interest on past due receivables.

**CFD INVESTMENTS, INC.**  
**Notes to Financial Statements**  
**December 31, 2015**

**Note A-Nature of Operations and Summary of Significant Accounting Policies (Continued):**

**Investment in Marketable Equity Securities**

The Company has an investment in a marketable equity security that is listed and traded on a national exchange.

The Company's investment in marketable equity securities have been classified as available-for-sale and are stated at fair value. Unrealized holding gains and losses are reported in other comprehensive income.

Dividends on marketable equity securities are recognized in income when declared. Realized gains and losses, including losses from declines in value of specific securities determined by management to be other-than-temporary, are included in income. Realized gains and losses are determined on the basis of average cost of securities sold.

**Long-lived Assets**

Long-lived assets to be held and used are tested and recoverability whenever events or changes in circumstances indicate that the related carrying amount may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the excess of the asset's carrying amount over the fair value of the asset. Certain long-lived assets to be disposed of by sale are reported at the lower of carrying amount or fair value less cost to sell.

**Income Taxes**

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes. Deferred taxes are recognized for the differences between the basis of assets and liabilities for financial statement and income tax purposes. Those differences relate primarily to investments (reported at market value for financial statement purposes and reported at cost for income tax purposes). The deferred tax assets and liabilities represent the future tax consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes are also recognized for any operating loss carryforwards, charitable contribution carryforwards and tax credit carryforwards that are available to offset future income taxes.

**CFD INVESTMENTS, INC**  
**Notes to Financial Statements**  
**December 31, 2015**

**Note A-Nature of Operations and Summary of Significant Accounting Policies (Continued):**

Accounting principles generally accepted in the United States of America require the Company to examine its tax positions for uncertain positions. Management is not aware of any tax positions that are more likely than not to change in the next twelve months or that would not sustain an examination by applicable taxing authorities.

The Company's policy is to recognize penalties and interests incurred in its Statement of Income.

The Company's federal and state income tax returns for 2012 through 2015 are subject to examination by the applicable tax authorities, generally for three years after the later of the original or extended due date.

**Cash Flows**

For purposes of the Statement of Cash Flows, the Company considers all highly liquid instruments purchased within three months or less of an instrument's original maturity date to be cash equivalents. Deposits with clearing organization are restricted balances and not available for operating purposes.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Fair Value Measurements**

Accounting Standards Codification (ASC) 820 defines fair value, establishes a framework for measuring fair value and enhances disclosures about fair value measurements. Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (or exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs.

Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company.

**CFD INVESTMENTS, INC.**  
**Notes to Financial Statements**  
**December 31, 2015**

**Note A-Nature of Operations and Summary of Significant Accounting Policies (Continued):**

Unobservable inputs are inputs that reflect the Company's assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances.

The fair value hierarchy input levels are as follows:

- Level 1 – Quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 – Observable inputs other than quoted market prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets, or quoted market prices for identical or similar assets or liabilities in markets that are not active.
- Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

As of December 31, 2015, the Company held certain financial assets that are required to be measured at fair value:

Description	Level 1: Quoted Prices in Active Markets for Identical Assets	Total Fair Value at December 31, 2015
Marketable Equity Securities Financial services industry	\$ 87,255	\$ 87,255
Total Assets	<u>\$ 87,255</u>	<u>\$ 87,255</u>

**Note F – Line of Credit:**

There were no outstanding borrowings on the line of credit at December 31, 2015. Covenants under the line of credit required the Company to provide annual internal financial statements and tax returns. The line of credit was secured by all business assets of the Company and the personal guarantee of one of the Company's shareholders.

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and commissions receivable. The Company places its cash and cash equivalents with several financial institutions. At times, such amounts may be in excess of the FDIC insured limit. The Company routinely assesses the financial strength of its customers and, as a consequence, believes that its commission's receivable credit risk exposure is limited.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

1. Compared the listed assessment payment in Form SIPC-7 with respective cash disbursement records entries, noting no differences;
2. Compared the amounts reported on the audited Form X-17A-5 for the year ended December 31, 2015, as applicable, with the amounts reported in Form SIPC-7 for the year ended December 31, 2015, noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with the supporting schedules and working papers, noting no differences;
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments, noting no differences; and
5. There was no overpayment applied to the current assessment from the Form SIPC-7T on which it was originally computed, thus no comparison was required.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
