WESTON SECURITIES CORPORATION
(A Wholly Owned Subsidiary of Washington Trust Bancorp, Inc.)

Notes to Financial Statements

December 31, 2015

(1) Operations and Organization

Weston Securities Corporation (WSC or the Company), organized as a Massachusetts corporation on August 14, 1984, was acquired by and therefore became a wholly owned subsidiary of Washington Trust Bancorp, Inc. (WTB) on August 31, 2005, and was previously a wholly owned subsidiary of Weston Financial Group, Inc. (WFG). In the same transaction, WFG also became a wholly owned subsidiary of The Washington Trust Company, of Westerly (WTC).

WSC is a registered broker/dealer under the Securities Exchange Act of 1934 (Exchange Act of 1934) and a member of the Financial Industry Regulatory Authority (FINRA) – formerly, the National Association of Securities Dealers, Inc. (NASD) and Securities Investors Protection Corporation (SIPC), and is involved in the distribution of Mutual Funds, Variable Annuities, Variable Life, and 529 plans. WSC serves primarily as the principal underwriter and distributor of four affiliated mutual funds and distributes these funds predominately to clients of WFG. Certain of the officers and trustees of WSC and the affiliated funds are also officers and directors of WFG, WTB, and WTC.

(2) Summary of Significant Accounting Policies

(a) Cash and Cash Equivalents

Cash represents monies held in a bank account under normal commercial terms. Investments in money market funds are considered to be cash equivalents. Such investments are carried at cost, which approximates fair value.

(b) Goodwill

Goodwill represents the excess of the purchase price over the fair value of net assets acquired. Goodwill is tested for impairment at least annually in accordance with the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 350-20, *Goodwill*. In assessing impairment, the Company has the option to perform a qualitative analysis to determine whether the existence of events or circumstances leads to a determination that it is more-likely-than-not that the fair value of the reporting unit is less than its carrying amount. If, after assessing the totality of such events or circumstances, the Company determines it is not more-likely-than-not that the fair value of a reporting unit is less than its carrying amount, then the Company would not be required to perform a two-step impairment test. Under the first step, the fair value of the reporting unit is compared with its carrying value (including goodwill). If the fair value of the reporting unit is less than its carrying value, an indication of goodwill impairment exists for the reporting unit and the Company must perform step two of the impairment test (measurement). If the fair value of the reporting unit exceeds its carrying value, step two does not need to be performed. Under step two, an impairment loss is recognized for any excess of the carrying amount of the reporting unit's goodwill over the implied fair value of that goodwill. The implied fair value of goodwill is determined by allocating the fair value of the reporting unit in a manner similar to a purchase price allocation, in accordance with FASB ASC 805, *Business Combinations*. The residual fair value of this allocation is the implied fair value of the reporting unit goodwill. Fair value of the reporting unit is determined using a discounted cash flow analysis.

WESTON SECURITIES CORPORATION
(A Wholly Owned Subsidiary of Washington Trust Bancorp, Inc.)

Notes to Financial Statements

December 31, 2015

(c) Revenue

The Company earns revenue from the following sources: Investment Company Act of 1940 Rule 12b-1 Fees received directly from New Century Portfolios (NCP) and mutual funds held by NCP, a Sales Agreement with The Park Insurance Agency, Inc. (Park) (an underlying Related Party), Variable Annuity Trailers, and 529 Plan Trailers. Additionally, the Company receives commissions from the sale of Variable Annuities, 529 Plans, and Variable Life Insurance Policies. Revenue is recorded as it is earned.

(d) Income Taxes

The Company files federal and state income tax returns on a consolidated basis with its parent, WTB. The Company is subject to a written tax-allocation agreement, which allocates the Company's consolidated tax liability for payment purposes. Federal and state income taxes are calculated using the pro rata method, and are settled with the parent on a quarterly basis.

Income taxes are calculated and are recorded in the Company's results of operations based upon the application of FASB ASC 740, *Income Taxes*. The Company follows the asset/liability method of accounting for income taxes. Deferred income taxes are recognized for the future tax consequences of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end, based on enacted tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to an amount, which is more-likely-than-not to be realizable. Income tax expense is the sum of the taxes currently payable and the change during the period in deferred tax assets and liabilities. For the year ended December 31, 2015, the Company had no temporary tax differences and, as a result, had no deferred income taxes.

According to the uncertain tax position provisions of FASB ASC 740, *Income Taxes*, the Company is permitted to recognize the tax benefit of uncertain tax positions only when the position is more-likely-than-not to be sustained upon examination by the tax authorities based on the position's technical merit. The amount recognized is that, which represents the amount of tax benefit that has a greater than 50% likelihood of being ultimately realized upon settlement. It further requires that a change in judgment related to the expected ultimate resolution of uncertain tax positions be recognized in earnings in the period of change. As of December 31, 2015, the Company did not have any liabilities for any uncertain tax positions. The prior three tax years remain open to examination by the major jurisdictions in which the Company is subject to tax.

(e) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of income and expenses during the reporting period. Actual results could differ from these estimates.

(A Wholly Owned Subsidiary of Washington Trust Bancorp, Inc.)

Notes to Financial Statements

December 31, 2015

(3) Goodwill

Goodwill represents the amount allocated to the Company following WTB's purchase of WFG in 2005. For the year ended December 31, 2015, the Company opted to perform a qualitative analysis for its annual impairment review of goodwill and concluded that there was no impairment during the year.

(4) Revenue Concentration

The Company's 12b-1 revenue, which comprises 63% of total revenues, is the result of a Distribution Agreement with NCP. Commission revenue, which comprises 22% of total revenues, is earned as the result of placing insurance and other variable contracts for Park, and 529 Plans. The remaining 15% of revenue is earned through a Sales Agreement with Park (see note 5). The Company may be subject to greater risk due to the concentration of revenue from a small number of sources.

(5) Related-Party Transactions

Effective March 1, 1999, the Company entered into a Sales Agreement with Park, a wholly owned subsidiary of WFG, under which Park pays to the Company 70% of total commissions earned on sales of insurance products. For the year ended December 31, 2015, the Company generated revenue of \$208,363 under this Sales Agreement, \$18,584 of which was a receivable at December 31, 2015.

The Company also has an Administration Agreement with WFG, a wholly owned subsidiary of the Company's sister subsidiary, WTC, under which WFG provides the Company with Management, administrative facilities, and services, including the use of WFG personnel. The Administration Agreement with WFG is calculated and settled monthly using the following methodology. For the period January 1, 2015 through December 31, 2015, the Company paid 15% of specified employee-related costs and 8% of specified occupancy-related costs incurred by WFG, and 11.5% of the Intercompany Management Fee between WFG and WTC. For the year ended December 31, 2015, the Company incurred expenses related to this Administration Agreement in the amount of \$875,820, of which \$69,039 is owed to WFG at December 31, 2015.

The Company files federal taxes on a consolidated basis with WTB. During the year, the Company made \$65,000 in payments to WTB for taxes. At year-end, the Company owed \$62,398 to WTB for its tax liability.

(6) Income Taxes

The provision for income taxes is presented below:

(7) Net Capital Requirements

The Company is subject to the U.S. Securities and Exchange Commission (SEC) Uniform Net Capital Rule (SEC Rule 15c3-1), whereby the minimum net capital the Company is required to maintain (as defined) is \$25,000, or the ratio of aggregate indebtedness (as defined) to net capital of 15 to 1 (6 2/3%), whichever is greater. FINRA provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. Net capital and the related ratio of aggregate indebtedness to net capital may fluctuate on a daily basis. At December 31, 2015, the Company had net capital of \$933,957, which was \$908,957 in excess of its required net capital of \$25,000 the Company's ratio of aggregate indebtedness to net capital as of December 31, 2015 was 0.21 to 1. See schedule I.

The Company operates pursuant to the exemption provisions of (k)(1) under Rule 15c3-3 of the Securities Exchange Act of 1934, (reserve requirements for brokers and dealers) in that the Company does not hold funds or securities for customers and promptly transmits all funds and delivers all securities in connection with its activities as a broker or dealer. See schedules II and III.

(9) Commitments and Contingent Liabilities

(a) Off-Balance-Sheet Risk

The Company engages in the business of a broker/dealer in securities as described in note 1. The inherent risk of this business is the ability of the Company to properly execute all customer initiated transactions. As of December 31, 2015, Management of the Company believes that all customer initiated transactions have been fully executed by the Company.

(b) Litigation

From time to time in the normal course of business, the Company may be involved in various claims and lawsuits. The Board of Directors
Weston Securities Corporation:

We have reviewed management's statements, included in the accompanying Exemption Report (the Exemption Report), in which (1) Weston Securities Corporation (the Company) identified the following provisions of 17 C.F.R. § 15c3-3 (k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3 (k)(1) (the exemption provisions); and (2) the Company stated that it met the identified exemption provisions throughout the year ended December 31, 2015 without exception. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions.
