**NOTES TO FINANCIAL STATEMENT**

---

**Note 1 - Organization and Summary of Significant Accounting Policies**

**Nature of Business** - E. K. Riley Investments, LLC (the Company), a wholly owned subsidiary of E. K. Riley & Company, Inc. (the Parent), is a Washington company and a registered broker-dealer in securities under the Securities and Exchange Act of 1934, as amended, and is a member of the Financial Industry Regulatory Authority (FINRA). The Company is a full service brokerage firm and registered investment advisor with offices in Washington, Oregon, Idaho, Montana, California, North Carolina, and South Carolina; however, its customers are throughout the United States. It is exempt from the reserve requirements under Rule 15c3-3(k)(2)(ii) of the Securities and Exchange Commission (SEC), clearing all transactions with or for customers on a fully disclosed basis with a clearing broker or dealer.

**Accounts Receivable** - Accounts receivable, including amounts due from the clearing organization and the Company's employees and customers, are stated at the amount that management expects to collect. No allowance is recorded as no material losses are expected.

**Notes Receivable** - Notes receivable consist of unsecured loans to Company employees. The notes do not earn interest as long as the employee is employed with the Company. The interest rates on the notes are consistent with market rates at the time of issuance. These notes are repaid over a term of three to six years. Repayment is made with the employees' bonus compensation or with cash. As of December 31, 2015, no amounts were past due and no allowance was recorded.

**Property and Equipment** - Property and equipment are carried at cost. Expenditures for maintenance and repairs are expensed as incurred. Depreciation is computed on a straight-line basis using estimated useful lives of three to five years, and leasehold improvements are amortized over the shorter of the useful life of the asset or the life of the lease. Upon disposal of property and equipment, the accounts are relieved of related costs and accumulated depreciation and any gain or loss is reflected in operations.

**Valuation of Securities Owned and Securities Sold, Not Yet Purchased** - In the normal course of business, the Company has sold securities that it does not currently own and will, therefore, be obligated to purchase such securities at a future date. The Company has recorded this obligation in the financial statements at the December 31, 2015, market value of the related securities and will incur a trading loss on the securities if the market price increases and a trading gain if the market price decreases subsequent to December 31, 2015. A portion of the Company's cash and investments are held as collateral against these obligations.

The Company records securities owned and securities sold, not yet purchased in accordance with the Fair Value Measurements' topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date.

**(A wholly owned subsidiary of E. K. Riley & Company, Inc.)**  
**NOTES TO FINANCIAL STATEMENT**

---

**Note 1 - Organization and Summary of Significant Accounting Policies (Continued)**

In determining fair value, the Company uses various valuation approaches. Generally accepted accounting principles (GAAP) establishes a fair value hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumption about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

- Level 1** Valuations consist of unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access. Valuation adjustments and blockage discounts are not applied to Level 1 securities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these securities does not entail a significant degree of judgment.
- Level 2** Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.
- Level 3** Valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

The fair value of government bonds and municipal bonds are generally based on quoted prices in active markets. When quoted prices are not available, fair value is determined based on a valuation model that uses inputs that include observable inputs such as benchmark curves and trade reports. These securities are generally categorized in Level 2 of the fair value hierarchy.

The fair value of corporate bonds and residential mortgage backed securities is estimated using recently executed transactions, market price quotations (where observable), bond spreads or credit default swap spreads. The spread data used are for the same maturity as the bond. If the spread data does not reference the issuer, then data that references a comparable issuer is used. When observable price quotations are not available, fair value is determined based on cash flow models with yield curves, bond, or single-name credit default swap spreads and recovery rates based on collateral values as key inputs. Corporate bonds and residential mortgage backed securities are generally categorized in Level 2 of the fair value hierarchy.

**(A wholly owned subsidiary of E. K. Riley & Company, Inc.)**  
**NOTES TO FINANCIAL STATEMENT**

---

**Note 1 - Organization and Summary of Significant Accounting Policies (Continued)**

**Securities Owned** - The Company is subject to margin requirements with the clearing organization and securities sold, not yet purchased, and the payable to clearing organization are offset by securities owned.

**Fair Value of Financial Instruments** - The carrying amounts reflected in the financial statements for cash, receivables, and payables approximate their respective fair values due to the short maturities of these instruments. Changes in the fair value of these securities are reflected currently in the results of operations for the year.

**Income Taxes** - The Company is organized as an LLC. No provision is made for federal income taxes as the Company's net income is reported on the tax returns of its member. The Company files its own state and local tax returns, provisions for which are included in the operating expenses of the Company.

The Company applies FASB ASC 740-10 relating to accounting for uncertain tax positions. ASC 740-10 prescribes a recognition threshold and measurement process for accounting for uncertain tax positions and also provides guidance on various related matters such as derecognition, interest, penalties and disclosures required. The Company does not have any uncertain tax positions. Generally, the Company is subject to examination by U.S. federal (or state and local) income tax authorities for the years ended December 31, 2012, 2013, and 2014.

**(A wholly owned subsidiary of E. K. Riley & Company, Inc.)**  
**NOTES TO FINANCIAL STATEMENT**

---

**Note 1 - Organization and Summary of Significant Accounting Policies (Continued)**

The Parent made the policy decision to measure liabilities incurred under share-based payment arrangements at intrinsic value. The Parent remeasures its liabilities under share-based payment arrangements at each reporting date until the date of settlement.

Increases or decreases to compensation expense are recorded by the Company at an amount equal to the change in the measurement of the liability by the Parent in connection with share-based payments granted to employees of the Company within the scope of the Plan. Any amount not paid by the Company to the Parent in exchange for the award is recorded as a contribution to member's equity in the separate financial statements of the Company.

**Subsequent Events** - Subsequent events are events or transactions that occur after the statement of financial condition date but before financial statements are issued. The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of financial condition, including the estimates inherent in the process of preparing the financial statements. The Company's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of financial condition but arose after the statement of financial condition date and before financial statements are issued.

**Use of Estimates** - In preparing financial statements in conformity with GAAP, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Note 2 - Agreement with Clearing Organization**

The Company introduces all customer transactions in securities traded on securities markets to First Clearing, LLC (clearing organization) on a fully disclosed basis. The agreement between the Company and its clearing organization provides that the Company is obligated to assume any exposure related to nonperformance by customers or counterparties. The Company indemnifies the clearing organization against specified losses in connection with their acting as an agent of, or providing services to, the Company. The Company monitors clearance and settlement of all customer transactions on a daily basis. The exposure to credit risk associated with the nonperformance of customers and counterparties in fulfilling their contractual obligations pursuant to these securities transactions can be directly impacted by volatile trading markets which may impair the customer's or counterparty's ability to satisfy their obligations to the Company. In the event of nonperformance, the Company may be required to purchase or sell financial instruments at unfavorable market prices resulting in a loss.

In addition to the clearing services provided, the clearing organization also lends money to the Company to finance trading accounts. The Company also maintains a cash balance with the clearing organization in order to maintain proper margin on its securities inventory (appropriate equity balances on its inventory account). These balances are classified as a payable to and receivable from clearing organization, respectively.

**Note 3 - Property and Equipment**

Property and equipment consists of the following at December 31, 2015:

Computer software	\$ 216,144
Computers and equipment	669,029

	<u>\$ 4,200,570</u>	<u>\$ 123,346</u>	<u>\$ 4,077,224</u>

**Brokerage Fees** - In accordance with the Clearing Agreement (the Agreement) the Company entered into with First Clearing, LLC, the Company pays brokerage fees based upon the number of trade tickets generated and the type of customer. The Company is required to pay a minimum of \$10,000 per month for brokerage fees. Either party may terminate the Agreement upon 30 days' written notice.

**Commitments and Contingencies** - The Company maintains its cash balance in a financial institution located in Seattle, Washington, which at times may exceed federally insured limits. The Company has not experienced any losses in its account and believes it is not exposed to any significant credit risk.

The Company utilizes a clearing organization in order to process all trading transactions (see Note 2) and regularly has large balances due to or from this organization. For amounts due from the clearing organization, the Company does not request collateral, and therefore, if the counterparty fails to pay the Company could be adversely affected. The Company has not experienced losses from the clearing organization and believes it is not exposed to a significant risk of loss.

From time to time the Company is involved in various claims and litigation. In the opinion of management, following consultation with legal counsel, the ultimate liability or disposition thereof is not expected to have a material adverse effect on the financial condition, results of operations, or liquidity of the Company.

**Note 6 - Employee Benefit Plan**

Effective January 1, 2003, the Company has a 401(k) Profit Sharing and Trust Plan. Under the plan, employees may elect to defer up to 75% of their salary, subject to limitations under the Internal Revenue Code. The Company may make a 100% vested matching contribution equal to 3% of each eligible employee's gross compensation.

**Note 7 - Net Capital Requirement**

The Company is subject to the net capital rule (Rule 15c3-1) of the Securities Exchange Act of 1934. This rule prohibits the Company from engaging in any securities transaction at a time when its "aggregate indebtedness" exceeds 15 times its "net capital" as those terms are defined by the rule. The Company's required minimum dollar net capital was \$250,000 for the year ended December 31, 2015.

The following table shows information about net capital and aggregate indebtedness as of December 31, 2015:

Net capital	\$ 779,575
Excess net capital	\$ 529,575
Ratio of aggregate indebtedness to net capital	241%

**INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM'S REPORT ON APPLYING  
AGREED-UPON PROCEDURES RELATED TO THE SIPC ASSESSMENT REQUIRED BY  
SEC RULE 17a-5**

To the Member  
E. K. Riley Investments, LLC

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying General Assessment Reconciliation (Form SIPC-7) to the Securities Investor Protection Corporation (SIPC) for the period from January 1, 2015 to December 31, 2015, which were agreed to by E. K. Riley Investments, LLC (the Company) and the Securities and Exchange Commission, Financial Industry Regulatory Authority, Inc., and SIPC, solely to assist you and the other specified parties in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7). The Company's management is responsible for the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows. In performing the procedures listed below, differences of less than \$1 were not considered a difference requiring reporting.

1. Compared the listed assessment payments in Form SIPC-7, as summarized in Exhibit I to this report, with respective cash disbursement records consisting of copies of checks written, noting no differences.
2. Compared amounts reported on Company's annual filing of audited financial statements for the year ended December 31, 2015 with the amounts reported in Form SIPC-7 for the period from January 1, 2015 to December 31, 2015, noting no differences.
3. Compared adjustments reported in Form SIPC-7 with supporting schedules and working papers prepared by the Company, noting no differences.
4. Proved the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting adjustments in Form SIPC-7, noting no differences.
5. We were unable to compare the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed as there was no such overpayment amount stated on Form SIPC-7 and management represented to us that no such overpayment exists.

We were not engaged to, and did not conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
