UNITED STATES TAXATION

The following supplements the discussion under “Tax Matters” in the Prospectus and is subject to the limitations and exceptions set forth therein.

A portion of the purchase price of the Notes is attributable to interest accrued for the period starting from and including the Interest Commencement Date to but excluding the Issue Date. Accordingly, a portion of the interest received on the Interest Payment Date scheduled for April 2, 2016 equal to such accrued interest should not be taxable when received but should instead reduce the holder’s adjusted tax basis in the Notes by a corresponding amount.

Capital Gains

As discussed in the Prospectus under “Tax Matters—United States Federal Income Taxation—Purchase, Sale and Retirement of the Notes”, a U.S. Holder may recognize capital gain or loss upon a sale of the Notes. Capital gain of a non-corporate U.S. Holder is generally taxed at preferential rates (which may exceed the 15% rate referenced in the Prospectus) where the property is held for more than one year.

Medicare Tax

A U.S. Holder that is an individual or estate, or a trust that does not fall into a special class of trusts that is exempt from such tax, is subject to a 3.8% tax (the “Medicare tax”) on the lesser of (1) the U.S. Holder’s “net investment income” (or “undistributed net investment income” in the case of an estate or trust) for the relevant taxable year and (2) the excess of the U.S. Holder’s modified adjusted gross income for the taxable year over a certain threshold (which in the case of individuals is between \$125,000 and \$250,000, depending on the individual’s circumstances). A holder’s net investment income generally includes its interest income and its net gains from the disposition of Notes, unless such interest income or net gains are derived in the ordinary course of the conduct of a trade or business (other than a trade or business that consists of certain passive or trading activities). U.S. Holders that are individuals, estates or trusts are urged to consult their tax advisors regarding the applicability of the Medicare tax to their income and gains in respect of their investments in the Notes.

Information with Respect to Foreign Financial Assets

Owners of “specified foreign financial assets” with an aggregate value in excess of \$50,000 (and in some circumstances, a higher threshold) may be required to file an information report with respect to such assets with their tax returns. “Specified foreign financial assets” may include financial accounts maintained by foreign financial institutions, as well as the following, but only if they are held for investment and not held in accounts maintained by financial institutions: (i) stocks and securities issued by non-United States persons, (ii) financial instruments and contracts that have non-United States issuers or counterparties, and (iii) interests in foreign entities. Holders are urged to consult their tax advisors regarding the application of this reporting requirement to their ownership of the Notes.
