J.P.P. EURO-SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies

Nature of Business

J.P.P. Euro-Securities, Inc. (the "Company") was incorporated in the State of Delaware on August 4, 1986, registered as a broker dealer in December 1986 and is a member of the Financial Industry Regulatory Authority ("FINRA"), an entity created through the consolidation of the National Association of Securities Dealers ("NASD") and the member regulation, enforcement and arbitration functions of the New York Stock Exchange.

On June 19, 2006, Intermonte SIM Spa (the "Parent") purchased all of the outstanding shares of the Company from Oddo et Cie, Enterprise d'Investissement.

The Company introduces United States investors to its foreign brokerage affiliates for execution of transactions with respect to securities listed on various securities exchanges in Europe. The Company does not hold customer funds or safekeep customer securities. The Company also engages in private placement of securities and distribution of third party research.

Basis of Presentation

The financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP").

These financial statements were approved by management and available for issuance on February 26, 2016. Subsequent events have been evaluated through this date.

Revenue Recognition

The Company earns service fee income from its Parent for providing the Parent with certain administrative support services in connection with customers of the Parent. Service fee revenue is recognized in the period that the services are provided. The Company also earns a management fee for providing similar service to unrelated third parties. Management fee revenue is recognized as earned. Fees received, but not yet earned, are reflected as unearned income on the statement of financial condition.

Cash and Cash Equivalents

The Company considers its investment in a money market fund to be a cash equivalent.

Property and Equipment

Property and equipment is stated at cost less accumulated depreciation. The Company provides for depreciation of equipment, furniture and fixtures on a straight line basis, over the estimated useful life of 7 years. At December 31, 2015, all property and equipment was fully depreciated.

Income Taxes

The Company follows an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax bases of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

J.P.P. EURO-SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

1. Nature of business and summary of significant accounting policies (continued)

Income Taxes (continued)

The determination of the Company's provision for income taxes requires significant judgment, the use of estimates, and the interpretation and application of complex tax laws. Significant judgment is required in assessing the timing and amounts of deductible and taxable items and the probability of sustaining uncertain tax positions. The benefits of uncertain tax positions are recorded in the Company's financial statements only after determining a more-likely-than-not probability that the uncertain tax positions will withstand challenge, if any, from tax authorities. When facts and circumstances change, the Company reassesses these probabilities and records any changes in the financial statements as appropriate. Accrued interest and penalties related to income tax matters are classified as a component of income tax expense. Management has determined there are no uncertain tax positions at December 31, 2015.

In accordance with GAAP, the Company is required to determine whether a tax position of the Company is more-likely-than-not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized could result in the Company recording a tax liability that would reduce ending retained earnings. This policy also provides guidance on thresholds, measurement, de-recognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition that is intended to provide better financial statement comparability among different entities. Management's conclusions regarding this policy may be subject to review and adjustment at a later date based on factors including, but not limited to, on-going analyses of and changes to tax laws, regulations and interpretations thereof.

The Company files its income tax returns in the U.S. federal and various state and local jurisdictions. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for years before 2012. Any potential examinations may include questioning the timing and amount of deductions, the nexus of income among various tax jurisdictions and compliance with U.S. federal, state and local tax laws. The Company's management does not expect that the total amount of unrecognized tax benefits will materially change over the next twelve months.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

J.P.P. EURO-SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

2. Net capital requirement

The Company is a member of FINRA, and is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1 with respect to transactions effected on foreign securities markets. The Company computed its net capital under the alternative method permitted by the rule, which requires it to maintain minimum net capital equal to the greater of \$250,000 or 2% of the Rule 15c3-3 aggregate debit items, as defined. At December 31, 2015, the Company had net capital of approximately \$2,931,366 which was approximately \$2,681,366 in excess of its minimum requirement of \$250,000.

3. Income taxes

The provision for income taxes consists of federal, state and local taxes of approximately \$ 27,000 for the year ended December 31, 2015.

A reconciliation of the statutory federal income tax rate and the effective tax rate is as follows:

	<u>2015</u>
Federal statutory rate	26%
State and local income taxes,	
net of federal effect	2%
Permanent and other	-5%
Effective income tax rate	<u>23%</u>

J.P.P. EURO-SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

4. Concentrations of credit risk

In the normal course of business, the Company's activities involve the execution, settlement, and financing of various securities transactions in which counterparties primarily include broker-dealers, banks, and other financial institutions. These activities may expose the Company to off-balance-sheet risk in the event the counterparty is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss. The risk of default depends on the creditworthiness of the counterparty or the issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

The Company maintains its cash balances principally in one financial institution which at times may exceed federally insured limits. The Company is subject to credit risk to the extent any financial institution with which it conducts business is unable to fulfill contractual obligations on its behalf. Management monitors the financial condition of this financial institution and does not anticipate any losses from this counterparty.

5. Rule 15c3-3

The Company is subject to Securities and Exchange Commission Rule 15c3-3, as adopted and administered by the Securities and Exchange Commission. To comply with its requirements, cash in the amount of \$350,000 has been segregated in a special reserve account for the exclusive benefit of customers.

6. Related party transactions

Pursuant to an agreement, the Parent pays a fee to the Company for services provided to certain customers of the Parent equal to 104.2% of the expenses attributable to such activities, excluding income taxes. Included in the statement of operations is service fee income of approximately \$ 37,000 which was derived from the Parent. Reimbursements for the year ended December 31, 2015 were approximately \$ 875,000 which is included in reimbursed expenses in the statement of operations.

Due from Parent of approximately \$ 86,000 includes reimbursable expenses and service fees incurred but not yet paid by the Parent.

7. Letter of credit

The Company established an irrevocable standby letter of credit in the amount of approximately \$104,000, expiring in February 2017, issued in connection with the operating lease for the office facility in New York.

J.P.P. EURO-SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS

8. Commitment

The Company has an operating lease agreement for office space which has an expiration date of December 31, 2016.

At December 31, 2015 future aggregate minimum annual rent payments under this lease are approximately as follows:

Year ending December 31,

2016	<u>310,000</u>
	<u>\$ 310,000</u>

Rent expense, including certain other rent charges, for the year ended December 31, 2015 was approximately \$340,000.

9. Management fee and expense reimbursement arrangement

The Company maintains a correspondent relationship with a Belgian firm, Petercam S.A., in which the Company services the needs of North American institutions that wish to invest in Belgian securities. In return for their services, the Company receives a service fee of approximately \$25,000 annually, which is included in management fee income in the statement of operations.

Petercam S.A. has agreed to reimburse the Company for operating costs, capital expenditures, lease obligations and other mutually agreed upon expenses incurred under the correspondent relationship. Reimbursements for the year ended December 31, 2015, were approximately \$ 960,000, which is included in reimbursed expenses in the statement of operations.

The Company entered into an agreement with a foreign broker-dealer, M.M. Warburg & Co ("MM Warburg"), to solicit and effect securities transactions traded in non-U.S. markets with U.S. institutional investors. In return for their services, the Company is entitled to receive an annualized service fee of \$60,000 which is included in management fee income.

10. Employee benefit plan

Effective January 1, 2000, the Company adopted the J.P.P. Euro-Securities, Inc. 401(k) Plan (the "Plan") under section 401(k) of the Internal Revenue Code of 1986 (the "Code"), as amended. Under the Plan, all employees eligible to participate may elect to contribute a percentage of their salary up to the maximum allowed under the Code. All full-time employees are eligible for the Plan.
