Grodsky Associates, Inc.
Notes to the Financial Statements
For the Year Ended December 31, 2015

1. Organization

Grodsky Associates, Inc. (the Company) is a privately held corporation formed in New Jersey in 1991 for the purpose of conducting business as a securities broker dealer (BD). As a BD, the Company is a member of the Financial Industry Regulatory Authority (FINRA). The Company sells various investments to individual clients located in the United States.

2. Summary of Significant Accounting Policies

Use of Estimates- The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make reasonable estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses at the date of the financial statements and for the period they include. Actual results may differ from these estimates.

Revenues- Revenues and related fees are recorded when all contracted services have been provided by the Company and the Company is reasonably assured of their collection.

Cash- For the purpose of calculating changes in cash flows, cash includes all cash balances and highly liquid short-term investments with original maturity date of three months or less.

Income taxes- The Company accounts for income taxes in accordance with generally accepted accounting principles which require an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for differences between financial statement and income tax bases of assets and liabilities that will result in taxable income or deductible expenses in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets and liabilities to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period adjusted for the change during the period in deferred tax assets and liabilities.

The Company follows the accounting requirements associated with uncertainty in income taxes using the provisions of Financial Accounting Standards Board (FASB) ASC 740, *Income Taxes*. Using that guidance, tax positions initially need to be recognized in the financial statements when it is more likely than not the positions will be sustained upon examination by the tax authorities. It also provides guidance for derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As of December 31, 2015, the Company has no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. All tax returns from fiscal years 2011 to 2014 are subject to IRS audit.

3. Fair Value of Financial Instruments

Fair Value Measurements under generally accepted accounting principles clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements are separately disclosed by level within the fair value hierarchy as follows.

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed and is determined based on the lowest level input that is significant to the fair value measurement.

Cash, receivable from clearing broker, and accounts payable and accrued expenses in the balance sheet are estimated to approximate fair market value at December 31, 2015 because of their short term nature.

4. Commitments and Contingencies

The Company is not committed to a non-cancelable lease for office space and rents an office in West Orange, New Jersey on a "month to month" basis.

5. Income Tax

Provision for income taxes is comprised of the following:

Net income (loss) before provision for income taxes		<u>\$2,588</u>
Current tax expense:		
Federal:		
	Net income before provision for income taxes	\$2,588
	Less state income tax	<u>(750)</u>
	Federal taxable base	\$1,838
	Federal tax (15%)	276
State - statutory minimum based on gross receipts		<u>750</u>
Total provision for income tax		<u>\$1,026</u>

6. Subsequent Events

Report of Independent Registered Public Accounting Firm

We have reviewed management's statements, included in the accompanying Rule 15c3-3 Exemption Report in which (1) Grodsky Associates, Inc. identified the following provisions of 17 C.F.R. section 15c3-3(k) under which Grodsky Associates, Inc. claimed an exemption from 17 C.F.R. section 240.15c3-3: 2(ii) (the "exemption provisions) and (2) Grodsky Associates, Inc. stated that it has met the identified exemption provisions through the most recent fiscal year without exception. Grodsky Associates, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph k(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
