December 31, 2015

1. Organization

Ariane Capital Partners LLC (the "Company") is a Pennsylvania limited liability company that is a registered broker dealer with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulatory Authority ("FINRA"). The Company, which has agreed to limit its business to corporate finance and investment banking activities, is directly affected by general economic and market conditions, including fluctuations in volume and price level of securities and changes in interest rates, which have an impact on the Company's liquidity.

2. Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Company:

Investment Banking - Investment banking revenues include gains, losses and fees arising from the private placement of securities. Investment banking revenues also include fees earned from providing merger and acquisition consulting, financial restructuring advisory services and financial consulting services. These fees are recognized when the private placement is completed and the income is reasonably determinable. Fees for financial restructuring advisory services and financial consulting services are recorded when earned.

Income taxes - No provisions have been made for income taxes since the Company is a limited liability company and has elected to file its tax return on a partnership basis. The individual members are liable for income taxes based on their respective share of the Company's taxable income.

The Company recognizes and discloses uncertain tax positions in accordance with accounting principles generally accepted in the United States of America (GAAP). As of, and during the year ended December 31, 2015, the Company did not have liability for unrecognized tax benefits. The Company is no longer subject to examination by federal and state taxing authorities prior to 2012.

Use of estimates - The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates and assumptions.

Subsequent events - Management has evaluated the impact of all subsequent events through February 18, 2016 the date the financial statements were available to be issued and has determined that there were no subsequent events requiring disclosure in these financial statements.

3. Related Party Transactions

The Company has agreements with its principal that each principal is responsible for his own expense. The Company correspondingly pays fees to each principal's company that is considered to be a related party. For the year ended December 31, 2015, the Company paid the principal management fees in the amount of \$184,310.
