ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE A - Organization and nature of business

Access Financial Group, Inc. (the Company) was incorporated in the State of Delaware on December 18, 1992. The Company is a registered securities broker-dealer and registered investment advisor regulated by the Securities and Exchange Commission and Financial Investors Regulatory Authority, and clears its trades through a clearing broker on a fully disclosed basis. The Company provides recordkeeping, investment services and investment advice, primarily to funeral directors and cemetery associations throughout the United States.

NOTE B - Summary of significant accounting policies

Basis of accounting

The Company uses the accrual method of accounting. Customer transactions are cleared on a fully disclosed basis through another broker-dealer. Commissions and related clearing expenses are recorded on a trade date basis as transactions occur.

Cash and cash equivalents

The Company considers all highly liquid debt instruments with an original maturity of three months or less to be cash equivalents. Furthermore, the Company maintains its cash in accounts at various financial institutions. The balances, at times, may exceed federally insured amounts. Management periodically reviews the financial stability of these institutions.

Management fee receivable, administrative fees receivable and allowance for doubtful accounts

Management and administrative fees are recognized as income ratably during the year. Management fees and administrative fees are billed substantially in arrears of each calendar quarter. The Company determined there were no accounts deemed uncollectible, and as a result had no allowance for doubtful accounts recorded at March 31, 2016.

Property and equipment

Property and equipment are carried at cost and depreciated by the straight-line method over the estimated useful lives of the assets.

Income taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes. Deferred taxes are recognized for differences between the basis of assets and liabilities for financial statement and income tax purposes. The differences relate to primarily depreciable assets (use of different depreciation methods and lives for financial statement and income tax purposes), and other comprehensive income. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Advertising costs

The Company expenses advertising costs as incurred. Advertising expense for the year ended March 31, 2016 was \$1,890.

Securities transactions

Securities transactions on behalf of customers and the related income and expenses are recorded on trade date. Proprietary securities transactions are recorded on trade date, as if they have settled. Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a trade date basis.

Securities owned are recorded at fair value in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures.

Fair value of financial instruments

The Company has adopted FASB ASC Topic 820, Fair Value Measurements and Disclosures. FASB ASC 820 establishes a three-level fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels established by FASB ASC 820 are described as follows:

Level 1 - Valuation is based on quoted prices for identical assets or liabilities traded in active markets.

Level 2 - Valuation is based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 - Valuation is based on model-based techniques that use significant inputs and assumptions not observable in the market. These unobservable inputs and assumptions reflect the Fund's estimates of inputs and assumptions that market participants would use in pricing the assets and liabilities, and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the hierarchy is based on the lowest level of input that is significant to the fair value measurement.

The fair values of the Company's assets and liabilities, which qualify as financial instruments, approximate the carrying amounts presented in the Statement of Financial Condition.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE B - Summary of significant accounting policies, continued

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Comprehensive loss

Other comprehensive loss refers to revenues, expenses, gains and losses that, under accounting principles generally accepted in the United States of America, are included in comprehensive loss but are excluded from net income as these amounts are recorded directly as an adjustment to stockholders' equity.

Subsequent events

The Company has evaluated subsequent events through May 27, 2016, the date which the financial statements were issued, and has determined that there were no subsequent events to recognize or disclose in these financial statements.

NOTE C - Employee benefit plan

The Company's eligible employees participate in a Safe Harbor 401(k) plan. The Company made its mandatory Safe Harbor contribution; however, no additional discretionary contributions were made. The amount of the Safe Harbor contribution for the year ended March 31, 2016 was **\$35,070**.

NOTE D - Securities owned, at fair value

In accordance with the ASC 820, the following tables represent the Company's fair value hierarchy for those assets measured at fair value on a recurring basis as of March 31, 2016:

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE D - Securities owned, at fair value, continued

There were no transfers between levels during the year ending March 31, 2016. The company classifies its marketable securities as "available for sale". They may be sold in response to changes in interest rates, liquidity need, and for other purposes.

Cost and fair value of marketable equity securities at March 31, 2016 are as follows:

<u>March 31, 2016</u>	Cost	Gross unrealized gains (losses)	Fair value
Equities and financial institution preferred equities	<u>\$1,121,141</u>	<u>\$ (69,489.38)</u>	<u>\$1,051,651</u>

NOTE E - Commitments and related party transactions

The Company leases office space under an operating lease agreement expiring on May 31, 2022. The lease is with a partnership in which the officers of the Company have an interest. Future minimum rentals, exclusive of additional payments for operating expenses and taxes, are as follows for the years ending March 31st:

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE F - Property and equipment

Property and equipment

Property and equipment consist of the following as of March 31, 2016:

Furniture and equipment	\$	14,027
Computer equipment	\$	144,019
Leasehold improvements	\$	88,947
	\$	246,993
Less accumulated depreciation	\$	(149,780)
	\$	<u>97,213</u>

Depreciation expense for the year ended March 31, 2016 was **\$27,958**.

NOTE G - Off balance sheet credit and market risk

Securities transactions of customers are introduced to and cleared through a clearing broker. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral, or reduce positions where necessary.

Receivables from broker-dealers represent a concentration of credit risk and primarily relate to fees and commissions receivables on security transactions. The Company does not anticipate nonperformance by customers or broker-dealers with which it conducts business.

NOTE H - Net capital requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At March 31, 2016, the Company has a net capital of \$1,672,027, which is \$1,622,027 in excess of its required net capital of \$50,000. The Company's ratio of aggregate indebtedness to net capital ratio was .13 to 1 at March 31, 2016.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE I - Income taxes

The Company's total deferred tax assets and deferred tax liabilities at March 31, 2016 are as follows:

Total deferred tax assets	\$ 0
Total deferred tax liability	<u>\$ (55,000)</u>
Net deferred tax liability	<u>\$ (55,000)</u>

The Company's provision for income taxes consists of the following:

Current income tax expense	\$ 77,811
Deferred tax expense	<u>\$ 51,301</u>
	<u>\$ 129,112</u>

The provision for income taxes is based upon income or loss before tax for financial reporting purposes. Deferred tax assets or liabilities are recognized for the expected future tax consequences of temporary differences between tax basis of assets and liabilities and their carrying values for financial reporting purposes. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

The Company files income tax returns in the U.S. federal jurisdiction and Illinois. The Company follows the accounting guidance for uncertainty in income taxes according to the FASB ASC 740, *Income Taxes*. Using that guidance, tax positions initially need to be recognized in the financial statements when it is more likely than not the position will be sustained upon examination by the tax authorities.

As of March 31, 2016, the Company had no uncertain tax positions that qualify for either recognition or disclosure in the financial statements. It is the Company's policy to include any penalties and interest related to income taxes in its operating expenses, however, the Company currently has no penalties or interest related to income taxes. The company is no longer subject to U.S. federal and state income tax examinations by the authorities for years before 2012.

ACCESS FINANCIAL GROUP, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE I - Income taxes, continued

The provision for income taxes generally does not bear the customary relationship to pretax statutory income that would be expected applying ordinary corporate tax rates. A reconciliation of the Company's provision for taxes determined by applying the federal and state statutory rate of 41.75% as of March 31, 2016 is as follow:

	<u>March 31, 2016</u>	<u>Effective Tax Rate</u>
