**1. Nature of Operations**

Toyota Financial Services Securities USA Corporation ("TFSS" or the "Company") was incorporated in Delaware on January 31, 2005 and commenced operations on November 15, 2005. TFSS is wholly owned by Toyota Financial Services Americas Corporation ("TFSA"), a California corporation, which is a wholly owned subsidiary of Toyota Financial Services Corporation ("TFSC"), a Japanese corporation. TFSC, in turn, is a wholly owned subsidiary of Toyota Motor Corporation ("TMC"), a Japanese corporation. TFSC manages TMC's worldwide finance operations. The Company's business is substantially dependent upon selling fixed income securities issued by Toyota Motor Credit Corporation ("TMCC"), which is a wholly owned subsidiary of TFSA.

TFSS is a broker-dealer registered with the Securities and Exchange Commission ("SEC"), the Financial Industry Regulatory Authority ("FINRA") and securities commissions in multiple states. TFSS was formed for the purpose of directly offering TMCC debt products to the United States debt market.

The Company has a clearing agreement with a non-affiliated broker dealer to process and clear all of the Company's securities transactions on a fully disclosed basis.

The Company is headquartered in Torrance, California and has no branches or sales offices. Administrative and back office support is provided by its affiliate, TMCC. Such services are governed by a Shared Expense Agreement between TMCC and the Company (Note 6).

**2. Summary of Significant Accounting Policies**

**Basis of Presentation**

The accompanying financial statements of the Company have been prepared in conformity with accounting principles generally accepted in the United States of America.

**Revenue Recognition**

The Company earns commissions on securities transactions executed on behalf of its affiliate, TMCC. Revenues are recognized in the period in which the services are performed and are recorded on a trade date basis. Interest income is recorded when earned.

**Cash and Cash Equivalents**

Cash equivalents, consisting primarily of money market instruments, represent highly liquid investments with original maturities of three months or less at purchase. The Company holds cash in financial institutions in excess of the FDIC insured limits. The Company periodically reviews the financial condition of the financial institutions to assess the credit risk. There were no cash equivalents at March 31, 2016.

**Deposit with and Receivable from Clearing Broker**

Amounts March 31, 2016 represent a clearing deposit of \$250,000 and other receivables from the clearing broker due to TFSS in the normal course of business. The Company incurred clearing fees of \$100,322 to the clearing broker in fiscal year 2016.

2. **Summary of Significant Accounting Policies (Continued)**

**Fair Value Measurements**

The majority of the Company's assets and liabilities are carried at fair value on a recurring basis. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company maintains policies and procedures to value financial instruments using the best and most relevant data available. Management believes that the fair value of financial assets and liabilities recognized on the statement of financial condition approximates carrying value due to their short-term nature.

*Fair Value Hierarchy*

**Level 1:** Quoted (unadjusted) prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

**Level 2:** Quoted prices in active markets for similar assets and liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability.

**Level 3:** Unobservable inputs that are supported by little or no market activity may require significant judgment in order to determine the fair value of the assets and liabilities

As of March 31, 2016, and during the year then ended, the Company had no assets or liabilities classified as Level 2 or 3. There were no transfers between levels during the year.

**Income Taxes**

Income taxes are accounted for under the asset and liability method as required in accordance with the provisions of Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 740, *Income Taxes* (ASC 740). Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing deferred tax assets or liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ASC 740-10 requires management to determine whether a tax position of the Company is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The tax benefit to be recognized is measured as the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement, which could result in the Company recording a tax liability.

The Company is part of the TFSA consolidated federal income tax return. TFSS does not file a separate state income tax return, but may be included in the consolidated/combined state income tax returns with Toyota Motor North America ("TMA") or other subsidiaries of TFSA. Federal and state income tax expense is generally recognized as if TFSS filed its tax returns on a stand-alone basis.

In those states where TFSS joins in the filing of consolidated or combined income tax returns, TFSS is allocated its share of the total income tax expense based on combined allocation/apportionment factors and separate company income or loss. TFSS pays TMA, TFSA

[REDACTED]

or its subsidiaries for its share of the consolidated federal and the consolidated or combined state income tax expense and is reimbursed for the benefit of any of its tax basis losses utilized in the consolidated federal and the consolidated or combined state income tax returns.

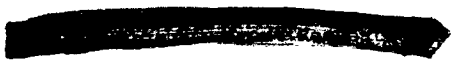

As of March 31, 2016, we remain under IRS examination for fiscal 2016 and 2015. The IRS examination for fiscal 2014 was concluded in the second quarter of fiscal 2016. There is no tax liability resulting from unrecognized tax benefits related to uncertain tax positions taken or expected to be taken in future tax returns. The Company is also not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Subsequent Events**

In preparing the financial statements, management has evaluated subsequent events for potential recognition of disclosure from March 31, 2016 through May 20, 2016, the date of the financial statement issuance. Management has determined that there are no material transactions or events that would require recognition or disclosure in the financial statements through this date.

**3. Regulatory Requirements**

The Company, as a registered broker and dealer in securities, is subject to the uniform net capital rule of the SEC (Rule 15c3-1). The SEC requirements also provide that equity capital may not be withdrawn or distributions be paid if certain minimum net capital requirements are not met. Failure to meet minimum capital requirements can initiate certain mandatory and possibly additional discretionary actions by regulators that, if undertaken, could have a material effect on the Company's financial statements. Rule 15c3-1 requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At March 31, 2016, the Company's net capital, as defined, was \$2,686,116 which was \$2,655,390 in excess of its required net capital of \$30,726. The Company's aggregate indebtedness to net capital ratio was 0.17 to 1.

The Company is exempt from the SEC Rule 15c3-3 under the provision of section (k)(2)(ii) of such Rule as a broker or dealer who carries no customer accounts and clears all customer transactions on a fully disclosed basis through another clearing broker. Operating under such exemption, the Company has not prepared a Computation for Determination of Reserve Requirements for Brokers or Dealers.

**4. Provision for Income Taxes**

The provision for income taxes consists of the following:

	For the Year Ended March 31, 2016
<b>Current</b>	
Federal	\$ 900,230
State	<u>85,858</u>
Total current	986,088
Total deferred	<u>(4,449)</u>
Provision for income taxes	<u>\$ 981,639</u>

The Deferred Income Tax asset on the Statement of Financial Condition represents amounts related to California State income taxes. This asset is expected to be fully realized.

A reconciliation between the U.S. federal statutory tax rate and the effective tax rate follows:

	For the Year Ended March 31, 2016
Provision for income taxes at U.S. federal statutory tax rate	35.00%
State and local taxes (net of federal tax benefit)	<u>2.09%</u>
Effective tax rate	<u>37.09%</u>

**5. Expense Recognition**

Expenses are recorded as incurred and disclosed within the Statement of Income.

**6. Related Party Transactions**

The Company has entered into a Shared Expense Agreement with TMCC to support the ongoing administration, marketing and operation of the Company. As part of this agreement, TMCC provides the Company with office space, office equipment, office supplies, administrative services and other services, including employee compensation, at no cost to the Company. Based on the Shared Expense Agreements, these costs approximate \$190,865 for the year ended March 31, 2016. No amounts are due as of March 31, 2016 relating to the Shared Expense Agreement.

The Company has recorded income taxes payable of \$381,345 to TMCC as of March 31, 2016.

As mentioned in Note 2, all commission revenues earned by the Company are related to securities transactions executed on behalf of TMCC. As mentioned in Note 10, the Company entered into a loan agreement with TMCC.

**7. Fair Value Measurements**

The following describes the valuation methodologies, key inputs and significant assumptions of assets measured at fair value on a recurring basis.

*Cash Equivalents*

Cash equivalents are comprised of money market investments and represent highly liquid investments with maturities of three months or less at purchase. Amounts invested in money market funds where quoted market prices are available are classified in Level 1 of the fair value hierarchy.

At March 31, 2016, the Company had no money market investments.

**8. Commitments and Contingencies**

The accounting guidance for guarantees requires the disclosure of representations and warranties which the Company enters into and which may provide general indemnifications to others. The Company, in its normal course of business, may enter into contracts that contain such representations and warranties. Due to the difficulty in predicting future events that could result in claims, the Company is not able to estimate a maximum exposure under these arrangements. However, the Company believes the risk of loss related to these arrangements is remote. As of March 31, 2016, there were no pending litigations or claims against the Company.

**9. Concentration Risk**

As discussed in Note 1, the Company's securities transactions are introduced on a fully disclosed basis to its clearing broker dealer. Off balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker dealer may charge any losses they incur to the Company.

The Company clears all of its trades through one clearing broker. The Company is required to maintain a deposit with its clearing broker, which can fluctuate, based on trading activities. In the event the clearing broker does not fulfill its obligations, the Company may be exposed to risk. This risk of default depends on the creditworthiness of the counterparty to these transactions. The Company is exposed to credit risk from the potential inability of its clearing broker to perform in accordance with the terms of the contract. The Company monitors credit risk associated with its clearing broker.

**10. Note Receivable from Affiliate**

Amounts represent balances receivable under a promissory note entered into with TMCC in February 2016. Under this agreement TMCC can borrow up to \$15 million from TFSS. Amounts receivable from TMCC under the agreement are \$8 million at March 31, 2016. Interest is assessed at the equivalent of the US Federal Funds Rate, as published by Bloomberg Financial. Interest income earned for the year ended March 31, 2016 was \$3,507 and is included with interest income in the statement of income. Interest receivable on the note was \$2,522 at March 31, 2016.

**Toyota Financial Services Securities USA Corporation**  
(A wholly owned subsidiary of Toyota Financial Services Americas Corporation)  
**Schedule I – Computation of Net Capital Pursuant to Rule 15c3-1**

**Report of Independent Registered Public Accounting Firm**

To the Board of Directors of  
Toyota Financial Services Securities USA Corporation

We have reviewed Toyota Financial Services Securities USA Corporation's (the "Company's") assertions, included in the accompanying Toyota Financial Services Securities USA Corporation's Exemption Report, in which (1) the Company identified 17 C.F.R. § 240.15c3-3(k)(2)(ii) as the provision under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3 (the "exemption provision") and (2) the Company stated that it met the identified exemption provision throughout the year ended March 31, 2016 without exception. The Company's management is responsible for the assertions and for compliance with the identified exemption provision throughout the year ended March 31, 2016.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provision. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's assertions referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of 17 C.F.R. § 240.15c3-3.

We are in receipt of your annual audit report for Toyota, but the only copy we received is marked “confidential Treatment Requested”.

We cannot process a non-public document without having a separate bound statement of financial condition to be made available to the public. The Statement of Financial Condition usually includes the Part III facing page and oath, an abbreviated auditors opinion, the balance sheet and any notes applicable to the balance sheet.

According to your past filings, you have only submitted a public portion. Do you want us to treat this document as the public document and post it as such?

If not, I will need a scanned copy of the public document by COB on Friday.

Thank you for your prompt attention to this matter.

Carol
