# REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

FMSbonds, Inc. Boca Raton, Florida

We have audited the accompanying statement of financial condition of FMSbonds, Inc., as of June 30, 2016. This financial statement is the responsibility of FMSbonds, Inc.'s management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial condition of FMSbonds, Inc. as of June 30, 2016 in conformity with accounting principles generally accepted in the United States of America.

#### NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### Description of Business and Organization

FMSbonds, Inc. (the Company), is a broker and dealer specializing in municipal bonds. The Company acts primarily in a principal capacity, buying and selling for its own account and trading with customers and other dealers. To a lesser extent, the Company acts in an agency capacity, buying and selling equity securities and annuities for its customers and charging a commission, and in an administrative capacity earning fees for administrative services rendered.

### Government and Other Regulation

The Company's business is subject to significant regulation by various governmental agencies and self-regulatory organizations. Such regulation includes, among other things, periodic examinations by these regulatory bodies to determine whether the Company is conducting and reporting its operations in accordance with the applicable requirements of these organizations.

#### Securities Transactions

Securities transactions are reported on a trade date basis, and all securities are carried at fair value.

#### Valuation of Investments in Securities at Fair Value - Definition and Hierarchy

Generally accepted accounting principles require the Company to report its investments in securities at estimated fair value on a recurring basis. Fair value is defined as the price that the Company would receive to sell an investment or pay to transfer a liability in an orderly transaction with an independent counter-party in the principal market or in the absence of a principal market, the most advantageous market for the investment or liability. Fair value measurements establishes a three-tier hierarchy to distinguish between (1) inputs that reflect the assumptions market participants would use in pricing an asset or liability developed based on market data obtained from sources independent of the reporting entity (observable inputs) and (2) inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing an asset or liability developed based on the best information available in the circumstances (unobservable inputs); and establishes a classification of fair value measurements for disclosure purposes.

# NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

# Valuation of Investments in Securities at Fair Value - Definition and Hierarchy (continued)

Various inputs are used in determining the value of the Company's investments. The inputs are summarized in the three broad levels listed below.

- Level 1 quoted prices in active markets for identical investments
- Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, credit risk, etc.)
- Level 3 significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments)

In applying the provisions of fair value measurements to the Company's portfolio activities during the year, the following valuation techniques have been employed:

Municipal Bonds and Certificates of Deposit. The fair value of municipal bonds and certificates of deposit is estimated using recently executed transactions, market price quotations and pricing models that factor in, where applicable, interest rates, bond or credit default swap spreads and volatility. These bonds and certificates of deposit are generally categorized in Level 2 of the fair value hierarchy.

Corporate Bonds. The fair value of corporate bonds is estimated using recently executed transactions, market price quotations (where observable), bond spreads or credit default swap spreads. The spread data used are for the same maturity as the bond. If the spread data does not reference the issuer, then data that references a comparable issuer is used. When observable price quotations are not available, fair value is determined based on cash flow models with yield curves and credit ratings as key inputs. Corporate bonds are generally categorized in Level 2 of the fair value hierarchy.

### Property and Equipment

Property and equipment is recorded at cost. Expenditures for major betterments and additions are charged to the asset accounts while replacements, maintenance and repairs which do not improve or extend the lives of the respective assets are charged to expense currently.

#### Depreciation and Amortization

Depreciation and amortization of property and equipment is computed using the straight-line method at various rates based upon the estimated useful lives of the assets. The range of estimated useful lives is summarized as follows:

Furniture and fixtures	7 years
Office equipment	5 years
Leasehold improvements	7 years
Transportation equipment	5 years

# NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

#### Receivables

The Company does not provide a reserve for uncollected receivables as substantially all amounts are collateralized by securities awaiting delivery. Amounts are charged directly to expense when deemed uncollectible, and have historically been immaterial.

#### Loans and Advances to Employees

Loans and advances to employees are stated at the outstanding balance of funds due for repayment of cash advances. The carrying amount may be reduced by an allowance that reflects management's best estimate of the amounts that will not be collected. As management believes that the amounts are fully collectible and are therefore stated at net realizable value, management has not recorded an allowance for doubtful accounts.

#### Income Taxes

The Company has elected, with the stockholders' consent, to be taxed under the S Corporation provisions of the Internal Revenue Code. Under these provisions, the taxable income of the Company is reflected by the stockholders on their personal income tax returns. Accordingly, no provision for income taxes is included in the accompanying financial statements.

The Company assesses its tax positions in accordance with "Accounting for Uncertainties in Income Taxes" as prescribed by the Accounting Standards Codification, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years (generally a period of three years from the later of each return's due date or the date filed) that remain subject to examination by the Company's major tax jurisdictions. Generally, the Company is no longer subject to income tax examinations by its major taxing authorities for years before 2012.

The Company assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Company records these liabilities to the extent it deems them more likely than not to be incurred. Interest and penalties related to uncertain tax positions, if any, would be classified as a component of income tax expense.

The Company believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statements.

### Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the statement of financial condition. Actual results could differ from those estimates.

# NOTE 2. SECURED DEMAND NOTE COLLATERALIZED BY MARKETABLE SECURITIES AND SUBORDINATED BORROWINGS

Secured demand note collateralized by marketable securities consists of a non-interest bearing loan of \$10,000,000 to an entity related to the Company by common ownership.

The subordinated borrowing with the same entity as the secured demand note, may be repaid at the stated maturity date only if, after giving effect to such repayment, the Company meets the regulatory net capital requirements governing repayment of such subordinated debt. The non-interest bearing loan was made under an agreement pursuant to the rules and regulations of the Securities and Exchange Commission, approved by the Financial Industry Regulatory Authority ("FINRA") and is subordinated to the claims of general creditors. The secured demand note and the related subordinated borrowing mature on August 31, 2016.

# NOTE 3. PROPERTY AND EQUIPMENT

Property and equipment at June 30, 2016 consisted of the following:

Furniture and fixtures	\$	929,775
Office equipment		655,039
Leasehold improvements		1,499,638
Transportation equipment		569,261
		3,653,713
: accumulated depreciation and amortization	(	2,330,794)
	\$	1,322,919

# NOTE 4. FAIR VALUE MEASUREMENT

The Company's assets and liabilities recorded at fair value have been categorized based upon a fair value hierarchy in accordance with fair value measurements and the Company's accounting policies as disclosed in Note 1. The following table presents information about the Company's assets and liabilities measured at fair value as of June 30, 2016:

Quoted Price	es				
		Significant

NOTE 5.	OTHER ASSETS	
	Other assets at June 30, 2016 consisted of the following:	
	Net cash value of life insurance policies	\$ 25,000
	Prepaids	126,749
	Deposits	162,770
	Other receivables	378,328
	Employee loans receivable	 1,046,843
		\$ 1,739,690

### NOTE 6. COLLATERAL LOANS PAYABLE

The Company has a collateral loan payable due to its primary clearing broker in New York, Bank of New York Mellon (BNY Mellon). This credit facility provides for borrowings up to \$100,000,000, and is due on demand. The loan is collateralized by securities owned or held as collateral by the Company and securities awaiting delivery on uncompleted transactions. At June 30, 2016, the loan balance was \$48,194,000, and bears interest at 1.875%.

Additionally, the Company has a secondary brokerage credit agreement with U.S. Bank National Association (U.S. Bank). This credit facility provides for borrowings up to \$50,000,000, and is due on demand. The collateral loan payable due to U.S. Bank is collateralized in the same manner as amounts due to the clearing broker. The collateral is pledged to U.S. Bank and held at the Depository Trust Company. There was no outstanding balance at June 30, 2016.

#### NOTE 7. LEASE COMMITMENTS AND CONTINGENCIES

#### Lease Commitments

The Company is obligated under various non-cancelable operating leases for certain equipment and office facilities.

As of June 30, 2016, the approximate future minimum annual rentals under the non-cancelable leases are as follows:

2017	\$ 173,000
2018	57,000
2019	33,000
2020	28,000
	\$ 291,000

The Company has month-to-month lease arrangements with its stockholders for office facilities in North Miami Beach, Florida and Boca Raton, Florida.

#### **Contingencies**

The Company is party to legal proceedings arising in the ordinary course of business. In the opinion of management, based on a review with legal counsel, the Company does not believe that these matters will have a material effect on the Company's financial position or operating results.

#### NOTE 8. EMPLOYEE BENEFIT PLANS

The Company maintains a 401(k) plan covering substantially all employees. Employer contributions to the plan are at the discretion of management. At June 30, 2016, the Company had accrued \$250,000 for this plan. Additionally, the Company maintains a non-qualified Supplemental Employees' Retirement Plan (SERP). Contributions, the funding of which is at management's discretion, are calculated based on the qualifying employee's salary and years of employment. At June 30, 2016, the Company had accrued \$6,700,000 for the SERP. These accruals are included in accounts payable and accrued liabilities in the accompanying statement of financial condition.

#### NOTE 9. NET CAPITAL REQUIREMENTS

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule of the Securities and Exchange Commission, which requires that "Net Capital", as defined, shall be at least the greater of \$250,000 or 6-2/3% of "Aggregate Indebtedness", as defined. At June 30, 2016, the Company's "Net Capital" was \$54,024,964 which exceeded requirements by \$53,255,383. The ratio of "Aggregate Indebtedness" to "Net Capital" was 0.21 to 1 at June 30, 2016.

#### NOTE 10. CREDIT CONCENTRATIONS AND OFF-BALANCE-SHEET RISK

In the normal course of business, the Company enters into financial transactions in which there is a risk of loss due to changes in the market ("market risk") or failure of the other party to the transaction to perform ("credit risk"), as described below.

#### Securities Sold, But Not Yet Purchased

Securities sold, but not yet purchased, aggregate \$101,724 at June 30, 2016. Subsequent market fluctuations may require the Company to purchase these securities at prices which exceed the fair value in the accompanying statement of financial condition. Additionally, the securities owned and cash on deposit with clearing firms serve as collateral for this short-sale liability.

#### **Custody of Securities**

Custodial functions for the Company's securities transactions are substantially provided by BNY Mellon and the Depository Trust Company. At June 30, 2016, a majority of securities owned are held by these entities.

#### Deposits with Financial Institutions

The Company may, during the course of operations, maintain cash deposits in excess of federally insured limits.

#### Other Risk Concentrations

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.
