REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Wilson-Davis & Company, Inc.
236 South Main Street
Salt Lake City, Utah 84101

We have audited the accompanying statement of financial condition of Wilson-Davis & Company, Inc. (the Company) as of June 30, 2016, and the related statements of income, cash flows, changes in stockholders' equity and changes in liabilities subordinated to claims of general creditors for the year then ended that are filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Wilson-Davis & Company, Inc. as of June 30, 2016 and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The supplementary information contained in Schedule I – Computation Of Net Capital, Schedule II – Reconciliation To Respondent’s Unaudited Computation, Schedule III – Computation For Determination Of Reserve Requirements For Broker-Dealers Under Rule 15c3-3, Schedule IV – Reconciliation Of Computation For Determination Of Reserve Requirements Under Rule 15c3-3, and Schedule V – Information For Possession Or Control Requirements Under Rule 15c3-3, (the Supplemental Information) has been subjected to audit procedures performed in conjunction with the audit of Wilson-Davis & Company, Inc.’s financial statements. The Supplemental Information is the responsibility of the Wilson-Davis & Company, Inc.’s management. Our audit procedures included determining whether the Supplemental Information reconciles to the financial statements or the underlying accounting and other records, as applicable and performing procedures to test the completeness and accuracy of the information presented in the Supplemental Information. In forming our opinion on the Supplemental Information, we evaluated whether the Supplemental Information, including its form and content is presented in conformity with 17 C.F.R. § 240. 17a-5. In our opinion, the supplementary information contained in Schedule I – Computation Of Net Capital, Schedule II – Reconciliation To Respondent’s Unaudited Computation, Schedule III – Computation For Determination Of Reserve Requirements For Broker-Dealers Under Rule 15c3-3, Schedule IV – Reconciliation Of Computation For Determination Of Reserve Requirements Under Rule 15c3-3, and Schedule V – Information For Possession Or Control Requirements Under Rule 15c3-3 are fairly stated, in all material respects, in relation to the financial statements as a whole.

WILSON-DAVIS & COMPANY, INC.
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a. Nature of Business

The Company is a securities broker and dealer, dealing in over-the-counter and listed securities. The Company is registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority (FINRA).

Revenue is derived principally from trading in securities for its own account and for the accounts of customers for which a commission is received.

The Company has operations in Utah, Arizona, California, Colorado and Florida. Transactions for customers are principally in the states where the Company operates, however, some customers are located in other states in which the Company is registered. Principal trading activities are conducted with other broker dealers throughout the United States.

b. Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting whereby all revenues are recorded when earned and all expenses are recorded when incurred.

c. Securities Transactions

Securities transactions and the related commission revenue are recorded in the accounts on a trade date basis, which is the day the transaction is executed. Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded at net (see note 3).

d. Cash and Cash Equivalents

Cash and cash equivalents consist of cash in the Company's bank accounts and any highly liquid investments with an initial maturity of three months or less.

e. Trading Securities

Securities held in the Company's trading account and trading securities sold not yet purchased, consist primarily of over-the-counter securities and are valued based upon quoted market prices. The value of securities that are not readily marketable are estimated by management based upon quoted prices, the number of market makers, trading volume and number of shares held. Unrealized gains and losses are reflected in income in the financial statements.

f. Furniture, Equipment and Depreciation

Furniture and equipment are stated at cost less accumulated depreciation. Depreciation on furniture and equipment is provided using accelerated and straight-line methods over expected useful lives of two to seven years.

g. Income Taxes

The Company utilizes the asset and liability method to account for income taxes. The objective of this method is to establish deferred tax assets and liabilities for the temporary differences between net income for financial reporting basis and the tax basis of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized.

Notes to Financial Statements - continued

Income tax expense or benefit is provided based upon the financial statement earnings of the Company. The allowance for doubtful accounts is deductible for financial statement purposes, but not for tax purposes. Depreciation expense is recognized in different periods for tax and financial accounting purposes due to the use of accelerated depreciation methods for income tax purposes. Net operating losses that can not be carried back can be carried forward to future periods. The tax effects of such differences are reported as deferred income taxes in the financial statements.

h. Fair Value of Financial Instruments

FASB ASC 825-10 *Disclosures about Fair Value of Financial Instruments*, requires disclosure of fair value information about financial instruments, whether or not recognized in the balance sheet. FASB ASC 825-10 excludes certain financial instruments and all nonfinancial instruments from its disclosure requirements.

The fair value of financial instruments classified as current assets or liabilities, including cash and cash equivalents, receivables, accounts payable and accrued expenses approximate carrying value, principally because of the short maturity of those items.

i. Management Estimates

The preparation of financial statements in conformity with generally accepted accounting principles and prevailing industry practices requires management to make estimates and assumptions regarding trading securities, depreciation and other matters that affect certain reported amounts and disclosures in the financial statements. Accordingly, actual results could differ from those estimates.

2. CASH SEGREGATED IN ACCORDANCE WITH FEDERAL REGULATIONS

The Company is required by Rule 15c3-3 of the Securities and Exchange Commission to maintain a cash reserve with respect to customers' transactions and credit balances, on a settlement date basis. Such a reserve is computed weekly using a formula provided by the rule and the reserve account must be separate from all other bank accounts of the Company. The required reserve as of June 30, 2016 was calculated to be \$6,074,606. The Company had \$6,100,000 cash on deposit in the reserve account, which was \$25,394 more than the amount required. On July 1, 2016 the Company deposited \$150,000 to the reserve account in accordance with the rule which created an excess of \$175,394.

3. RECEIVABLES AND PAYABLES WITH BROKER DEALERS AND CLEARING ORGANIZATION

At June 30, 2016, amounts receivable and payable with broker dealers and the clearing organization include:

	<u>Receivables</u>	<u>Payables</u>
Due from or to the clearing organization, net	\$ 875,343	\$ 1,462
Fails to deliver and receive	<u>853,766</u>	<u>1,748</u>
Totals	<u>\$ 1,729,109</u>	<u>\$ 3,210</u>

4. CUSTOMER RECEIVABLES AND PAYABLES

Accounts receivable from and payable to customers at June 30, 2016 include only cash accounts. Securities owned by customers are held as collateral for any unpaid amounts. Such collateral is not reflected in the financial statements. The Company provides an allowance for doubtful accounts, as needed, for accounts in which collection is uncertain. Management periodically evaluates each account on a case-by-case basis to determine impairment. Accounts that are deemed uncollectible are written off to bad debt expense. Bad debt expense and trading error adjustments for the year ended June 30, 2016 were \$726.

Notes to Financial Statements - continued

5. PROPERTY AND EQUIPMENT

Property and equipment are summarized by major classifications as follows:

Equipment	\$ 139,061
Leasehold improvements	79,455
Software	102,266
Furniture and fixtures	<u>43,581</u>
	364,363
Less accumulated depreciation and amortization	<u>(275,428)</u>
	<u>\$ 88,935</u>

Depreciation expense for the year ended June 30, 2016 was \$41,772.

6. NOTES PAYABLE

Notes payable consisted of the following at June 30, 2016:

Note payable to FINRA, due in monthly installments of \$500 including interest at 6.25% per annum through June 2017, unsecured	\$ 5,642
	<u>\$ 5,642</u>

7. SUBORDINATED LOAN AGREEMENTS

The Company has entered into six subordinated loan agreements totaling \$650,000, all of which is payable to officers and directors of the Company. The agreements renew annually and usually provide for interest at 5% per annum. However, the officers and directors waived the interest expense for the fiscal year ended June 30, 2016. The Company anticipates that all notes will be renewed for additional one year periods, unless circumstances or Company requirements change. The loan principal and interest are unsecured and subordinated in right of payment to all claims of present and future creditors of the Company.

The subordinated loan agreements have been approved by the Financial Industry Regulatory Authority (FINRA) and are available for computing net capital under the Securities and Exchange Commission's uniform net capital rule (see note 14). To the extent that the borrowings are required for compliance with the minimum net capital requirements, they may not be repaid.

The carrying amounts of subordinated loan agreements approximate their fair value because of the short maturity of the instruments.

8. INCOME TAXES

Income taxes are provided at statutory rates for the tax effects of transactions reported in the financial statements and consist of taxes which are due currently and for deferred taxes which relate to timing differences for the expense recognition of the allowance for doubtful accounts, depreciation and net operating loss carryforwards. Income tax expense computed at statutory rates consists of the following:

Federal income tax expense	\$ --
State and local income and franchise taxes	1,450
Change in deferred taxes for current year timing differences	<u>(546,600)</u>
Income tax (benefit)	<u>\$ (545,150)</u>

Notes to Financial Statements – continued

The actual tax expense differs from the “expected” tax expense computed by applying the U.S. corporate rate of 34 percent as follows:

Computed “expected” federal tax (benefit)	\$ (476,350)
Computed “expected” state tax (benefit)	(69,950)
Depreciation timing differences	(300)
Impact of various state tax rates and minimums	950
Impact of state taxes in non-operating states	500
Income tax (benefit)	<u>\$ (545,150)</u>

Using the applicable combined Federal and state tax rate of 39%, the deferred tax assets and liabilities are as follows:

	<u>Amount</u>	<u>Rate</u>	<u>Tax</u>
<u>Short-term deferred income tax asset</u>			
Allowance for doubtful accounts	\$ 25,000	39%	<u>\$ 9,800</u>
<u>Long-term deferred income tax asset</u>			
Tax depreciation in excess of book depreciation	(\$ 13,863)	39%	\$ (5,400)
Net operating loss carryforwards	\$1,400,786	39%	<u>546,300</u>
			<u>\$ 540,900</u>

The Financial Accounting Standards Board (FASB) has released accounting standards which require reporting entities to utilize different recognition thresholds and measurement requirements for uncertain tax positions than previously required. The Company has no uncertain tax positions that qualify for recognition or disclosure in the financial statements.

The Company files income tax returns in the U.S. federal jurisdiction and various state and local jurisdictions. The Company is no longer subject to U.S. federal, state and local income tax examinations by tax authorities for years before 2012.

9. OPERATING LEASE COMMITMENTS

The Company has operating lease obligations for office space at its headquarters location and one branch office. Rent expense totaling \$99,604 was charged to operations during the last fiscal year.

The future minimum payments required by the office lease agreements in effect at June 30, 2016 are as follows:

<u>Year Ending June 30</u>	<u>Amount</u>
2017	\$ 87,327
2018	<u>51,694</u>
Total minimum payments required	<u>\$ 139,021</u>

10. RETIREMENT PLANS

The Company maintains a profit sharing and 401(k) retirement plan. All employees who meet certain age and length of service requirements are eligible to participate in the plan. Participants must work a minimum of 1,000 hours per year and become fully vested after six years of service. The plan allows employees to make elective deferrals and provides for discretionary contributions to be determined by the Board of Directors. No profit sharing contribution was made for the year ended June 30, 2016.

Notes to Financial Statements – continued

11. RELATED PARTY TRANSACTIONS

a. Officer and director accounts

At June 30, 2016, the amounts due to officers and directors consisted of cash balances in security accounts plus accrued compensation totaling \$1,321,870. Amounts paid or received on these accounts occur in the normal course of business.

b. Subordinated borrowings

Six subordinated loan agreements totaling \$650,000 are with officers and directors of the Company (see note 7).

12. FAIR VALUE MEASUREMENT

FASB ASC 820 establishes a framework for measuring fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability, or in the absence of a principal market, the most advantageous market.

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Company has the ability to access.

Level 2: Observable inputs other than quoted prices included in Level 1 which are observable for asset or liability either directly or indirectly. These inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Unobservable inputs for the asset or liability to the extent relevant observable inputs are not available, representing the Company's own assumption about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Trading Securities - Valued at the bid price reported in the active market in which the individual securities are traded.

Securities sold not yet purchased - Valued at the ask price reported in the active market in which the individual securities are traded.

Notes to Financial Statements – continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Company's assets and liabilities at fair value as of June 30, 2016:

<u>Assets</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Trading securities	\$ 91,303	\$ --	\$ --	\$ 91,303
Totals	\$ 91,303	\$ --	\$ --	\$ 91,303
<u>Liabilities</u>				
Securities sold not yet purchased	\$ --	\$ --	\$ --	\$ --
Totals	\$ --	\$ --	\$ --	\$ --

13. **RISK MANAGEMENT**

Transactions involving financial instruments involve varying degrees of market, credit and operating risk. The Company monitors its exposure to risk on a daily basis.

Market Risk

Market risk is the potential change in value of the financial instrument caused by unfavorable changes in interest rates and equity prices. Management is responsible for reviewing trading positions, exposure limits, profits and losses, and trading strategies. In the normal course of business, the Company purchases, and makes markets in non-investment grade securities. These activities expose the Company to a higher degree of market risk than is associated with investing or trading in investment grade instruments.

Operating Risk

Operating risk focuses on the Company's ability to accumulate, process and communicate information necessary to conduct its daily operations. Deficiencies in technology, financial systems and controls and losses attributable to operational problems all pose potential operating risks. In order to mitigate these risks, the Company has established and maintains an internal control environment which incorporates various control mechanisms throughout the organization. In addition, the Company periodically monitors its technological needs and makes changes as deemed appropriate.

Credit Risk

The Company's transactions with customers and other broker dealers are recorded on a trade date basis and are collateralized by the underlying securities. The Company's exposure to credit risk associated with nonperformance by customers or contra brokers is impacted by volatile or illiquid trading markets. Should either the customers or other broker dealers fail to perform, the Company may be required to complete the transactions at prevailing market prices. The Company manages credit risk by monitoring net exposure to individual counterparties on a regular basis. Historically, reserve requirements arising from instruments with off-balance-sheet risk have not been material.

Receivables and payables with clearing and other broker dealers are generally collateralized by cash deposits. Additional cash deposits are requested when considered necessary by the clearing organization or contra broker dealer.

Notes to Financial Statements – continued

Customer transactions are primarily entered in cash accounts. The Company no longer maintains customer margin accounts. Therefore, the Company has no exposure to the credit and market risks associated with margin accounts.

Concentrations of credit risk that arise from financial instruments (whether on or off balance sheet) exist for groups of counterparties when they have similar economic characteristics that would cause their ability to meet obligations to be similarly affected by economic, industry or geographic factors.

Concentration of Credit Risk

The Company's cash is deposited at one financial institution. Cash accounts at banks are insured by the Federal Deposit Insurance Corporation (FDIC) for up to \$250,000. At June 30, 2016 the Company had approximately \$1,772,388 in excess of the FDIC limit.

14. **NET CAPITAL REQUIREMENTS**

As a broker dealer, the Company is subject to the uniform net capital rule adopted and administered by the Securities and Exchange Commission. The rule requires maintenance of minimum net capital and prohibits a broker dealer from engaging in securities transactions at a time when its net capital falls below minimum requirements, as those terms are defined by the rule. Under the alternative method permitted by this rule, net capital shall not be less than the greater of \$250,000 or 2% of aggregate debit items arising from customer transactions, as defined. Also, the Company has a minimum requirement based upon the number of securities' markets that the Company maintains. At June 30, 2016 the Company's net capital was \$1,610,003 which was \$1,360,003 in excess of the minimum required.

15. **PENDING LITIGATION**

As part of a short-term financing arrangement entered into during 2013, the shareholders granted a lender a one-year option to purchase their shares of the Company, subject to FINRA approval. Under the terms of the financing agreement, if the lender was to exercise his option and FINRA did not approve the sale within one year of the exercise date, the Company would have to pay the lender \$1,000,000. During the fiscal year ended June 30, 2014, the lender exercised the option, but FINRA did not approve the sale. The lender sued the Company for the \$1,000,000, but the Company has refused to pay due to allegations of a breach of contract by the lender. In addition, the shareholders indemnified the Company with respect to the \$1,000,000 due to the fact that it was the shareholders inability to sell the common stock to the lender that triggered the lawsuit. During the fiscal year ended June 30, 2015, a judge ruled in favor of the Company. The lender appealed the decision and during the year ended June 30, 2016 the appellate judge ruled in favor of the lender. At that time, the shareholders upheld their indemnification responsibilities and placed the \$1,000,000 in escrow to shield the Company from any liability. Once the judgement is received by the Company, it plans on appealing the decision to the Utah Supreme Court. Due to the uncertainty of the lawsuit outcome, and the fact that the Company has been indemnified by the shareholders, the Company has not recorded any potential liability associated with the agreement.

16. **SUBSEQUENT EVENTS**

Management has evaluated subsequent events through August 26, 2016, the date which the financial statements were available to be issued, and has determined there are no subsequent events to be reported.

ENTITY'S SIPC ASSESSMENT RECONCILIATION**

To the Board of Directors
Wilson-Davis & Company, Inc.
236 South Main Street
Salt Lake City, Utah 84101

In accordance with Rule 17a-5(e)(4) under the Securities Exchange Act of 1934, we have performed the procedures enumerated below with respect to the accompanying Schedule of Assessment and Payments General Assessment Reconciliation (Form SIPC-7) to the Securities Investor Protection Corporation (SIPC) for the year ended June 30, 2016, which were agreed to by Wilson-Davis & Company, Inc. (the Company), the Securities and Exchange Commission, the Financial Industry Regulatory Authority, Inc, and SIPC, solely to assist you and these other specified parties in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7). The Company's management is responsible for the Company's compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose. The procedures we performed and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement record entries (check copies), noting no differences.
2. Compared the amounts reported on the audited Form X-17A-5 Part III for the year ended June 30, 2016, as applicable, with the amounts reported in Form SIPC-7 for the year ended June 30, 2016, noting no differences.
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers, noting no differences.
4. Proved the mathematical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers, noting no differences.

We were not engaged to, and did not, conduct an examination, the objective of which would be the expression of an opinion on compliance. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the specified parties listed above and is not intended to be and should not be used by anyone other than these specified parties.
