Maplewood Investment Advisors, Inc.

We have audited the accompanying statement of financial condition of Maplewood Investment Advisors, Inc. (the "Company") as of September 30, 2016, and the related statements of income, changes in stockholders' equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Maplewood Investment Advisors, Inc. as of September 30, 2016, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States.

The information in Schedule I has been subjected to audit procedures performed in conjunction with the audit of Maplewood Investment Advisors, Inc.'s financial statements. The information in Schedule I is the responsibility of Maplewood Investment Advisors, Inc.'s management. Our audit procedures include determining whether the information in Schedule I reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in Schedule I. In forming our opinion on the information in Schedule I, we evaluated whether the information in Schedule I, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the information in Schedule I is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

Note 1 - Summary of Significant Accounting Policies

Maplewood Investment Advisors, Inc. (the "Company") is a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company operates under SEC Rule 15c3-3(k)(2)(ii), which provides that all the funds and securities belonging to the Company's customers would be handled by a clearing broker-dealer. The Company's customers consist primarily of individuals located in Texas.

Securities transactions (and related commission revenue and expense) are recorded on trade date basis.

Securities owned and securities sold, not yet purchased are carried at fair market value and securities owned not readily marketable are carried at fair value as determined by management of the Company. The increase or decrease in net unrealized appreciation or depreciation of securities is credited or charged to operations. The Company's securities are being held by the clearing broker/dealer. Should the clearing broker/dealer fail to deliver the securities to the Company, the Company may be required to purchase identical securities on the open market.

Receivables from broker/dealers and clearing organizations are generally collected in full in the month following their accrual. As such, management has not recorded an allowance for doubtful accounts on these receivables. The Company advances funds to its registered representatives as determined necessary by management. The advances are generally recouped upon the following commission payment cycle. Management records an allowance for bad debts based on a collectability review of specific accounts. Any receivables deemed uncollectible are written off against the allowance.

Property and equipment are stated at cost. Depreciation on office equipment and furniture is computed using an accelerated method over the estimated useful lives of the assets. Depreciation expense for the year ended September 30, 2016 was \$15,576 and is reflected in occupancy and equipment costs.

The common stock repurchase clause of the shareholder agreement was invoked as of the end of August 2016. The Company has accrued the amount payable of \$814,066 and will comply with the agreement by the end of August 2018.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due. The provision for federal income taxes differs from the expected amount using statutory rates because certain expenses included in the determination of net income are non-deductible for tax reporting purposes.

MAPLEWOOD INVESTMENT ADVISORS, INC.
Notes to Financial Statements
September 30, 2016

Note 1 - Summary of Significant Accounting Policies, continued

The Company accounts for income taxes in accordance with the *Income Taxes* Topic of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC"). Deferred tax assets and liabilities arising from temporary differences between book and tax basis are recognized using the enacted statutory tax rates and laws that will be in effect when such differences are expected to reverse. Deferred tax assets are recognized for temporary differences that will result in deductible amounts in future years. Deferred tax liabilities are recognized for temporary differences that will result in taxable income in future years. In the case of deferred tax assets; a reduction in deferred tax assets is recorded if it is more likely than not that some portion or all of the deferred tax asset will not be realized. Any interest or penalties associated with income taxes would be included as a component of income tax expense in the period in which the assessment arises.

Management evaluates income tax positions based on whether it is more likely than not that the positions taken will be sustained on examination. Uncertain tax positions are reduced by a liability for a contingent loss that is recorded either when the threshold is no longer met or when it becomes probable that a payment will be made to the taxing authority.

For purposes of reporting cash flows, the Company has defined cash equivalents as highly liquid investments with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Note 2 - Fair Value Disclosures

Fair Value Measurements

The Company uses various methods including market, income, and cost approaches. Based on these approaches, the Company often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Company utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used in the valuation techniques, the Company is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 also includes money market funds and U.S. Treasury and federal agency securities and federal agency mortgage-backed securities, which are traded by dealers or brokers in active markets. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 - Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third party pricing services for identical or similar assets or liabilities.

MAPLEWOOD INVESTMENT ADVISORS, INC.
Notes to Financial Statements
September 30, 2016

Level 3 - Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

For the year ended September 30, 2016, the application of valuation techniques applied to similar assets and liabilities has been consistent. The fair value of all securities owned are deemed to be Level 1 and Level 2 investments at September 30, 2016, and during the period then ended.

The following table presents the assets and liabilities that are measured at fair value on a recurring basis by level within the fair value hierarchy as reported on the statement of financial condition at September 30, 2016. As required by FASB ASC Topic 820, financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

<u>Description</u>	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Securities owned:				
Money market	\$ 1,828,772	\$ 1,828,772	\$ -0-	\$ -0-
Mutual funds	-0-	-0-	-0-	-0-
Equity securities	-0-	-0-	-0-	-0-
Debt securities	<u>108,785</u>	<u>-0-</u>	<u>108,785</u>	<u>-0-</u>
Total	<u>\$ 1,937,557</u>	<u>\$ 1,828,772</u>	<u>\$ 108,785</u>	<u>\$ -0-</u>

There were no transfers into or out of the Level 1, 2 or 3 categories in the fair value measurement hierarchy for the fiscal year ended September 30, 2016.

Note 3 - Net Capital Requirements

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities and Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. At September 30, 2016, the Company had net capital of approximately \$1,333,356 and net capital requirements of \$100,000. The Company's ratio of aggregate indebtedness to net capital was .70 to 1. The Securities and Exchange Commission permits a ratio of no greater than 15 to 1.

Note 4 - Lease Commitments

The Company leases office space under a long-term non-cancelable lease. Minimum lease payments under the lease at September 30, 2016 are as follows:

<u>September 30,</u> 2017	<u>\$ 71,841</u>
	<u>\$ 71,841</u>

MAPLEWOOD INVESTMENT ADVISORS, INC.
Notes to Financial Statements
September 30, 2016

Note 4 - Lease Commitments, continued

Rental expense for the year ended September 30, 2016 was \$106,445 and is reflected in occupancy and equipment costs.

Note 5 - Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of federal tax payable in the amount of \$3,841 included in accounts payable and accrued expenses. The provision for federal income taxes differs from the expected amount using statutory rates because certain expenses included in the determination of income are non-deductible for tax reporting purposes.

Any potential interest and penalty associated with a tax contingency, should one arise, would be included as a component of income tax expense in the period in which the assessment arises.

The Company's federal and state income tax returns are subject to examination over various statutes of limitations generally ranging from three to five years.

Note 6 - Profit Sharing Plan

The Company has a qualified profit sharing plan covering all eligible employees, as defined, with a specified period of service. Employer contributions to the plan are at the discretion of the Board of Directors, and the plan may be amended or terminated at any time. Contributions of \$274,912 were paid to the plan for the year ended September 30, 2016.

Notes to Financial Statements

Note 9 - Concentration Risk

During the year, the Company had cash balances in excess of federally insured limits. The Company regularly monitors the financial stability of these financial institutions and believes that the Company is not exposed to any significant credit risk.

Note 10 - Clearing Deposit

The Company conducts substantially all business through its primary clearing firm (National Financial Services, LLC), which settles all trades for the Company, on a fully disclosed basis, on behalf of its customers. Under its agreement with National Financial Services, LLC, the Company is required to maintain a clearing deposit of \$100,000, which is included on the balance sheet as receivable from broker-dealers and clearing organizations.

Note 11 - Commitment and Contingencies

The Company has entered into secondary clearing agreements with other FINRA member firms ("correspondents"), which provides that all the funds and securities belonging to the correspondents' customers are subject to the terms of the Company's clearing agreement.

Included in the Company's clearing agreement with its clearing broker-dealer, is an indemnification clause. This clause relates to instances where the customers of the Company and its correspondents fail to settle security transactions. In the event this occurs, the Company will indemnify the clearing broker-dealer to the extent of the net loss on the unsettled trade. The risk associated with the indemnification clause is subject to the market volatility of the underlying securities for a period of up to three days. At September 30, 2016, management of the Company had not been notified by the clearing broker-dealer, nor were they otherwise aware, of any potential losses relating to this indemnification.
