The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission and, accordingly, is exempt from the remaining provisions of the Rule. The requirements of paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully-disclosed basis with a clearing broker-dealer. Investment advisory fees are received quarterly in advance based on a predetermined percentage of the total assets in customer accounts, but are recognized as earned on a pro rata basis in accordance with contractual arrangements.

Furniture and Equipment

Furniture and equipment are stated at cost, net of accumulated depreciation. Depreciation is computed by the straight-line method over the estimated useful lives of the assets.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

The Company expenses advertising costs as they are incurred. Advertising expenses for the year ended September 30, 2016 was \$14,448.

It is management's opinion that the investigation will not have a material effect on the Company's financial statements.

The Company makes a contribution of 6 percent of each eligible employee's compensation. The Company's contribution to the Plan totaled \$33,966 for the year ended September 30, 2016.

Related-Party Activity

The unallowable receivable of \$2,252 is non-interest bearing, due on demand and is from a related party.

The Company provides non-broker related office expenses and employee services to RML Anderson Group, LLC and Sycamore Investment Consulting Services, LLC (collectively, the Affiliates), affiliated investment consulting firms. The Company received reimbursement for providing such services of \$220,505 from the Affiliates for the fiscal year ended September 30, 2016. This amount is recorded as a reduction of other expenses in the Statement of Income.

Off-Balance-Sheet Risk and Concentration of Credit Risk

Customer transactions are introduced to and cleared through the Company's clearing broker, NFS, on a fully disclosed basis. Under the terms of its clearing agreement, the Company is required to guarantee the performance of its customers in meeting contracted obligations. Such transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines. The customers may be required to deposit additional collateral or reduce positions where necessary.

The Company does not anticipate nonperformance by customers or its clearing broker. In addition, the Company has a policy of reviewing, as considered necessary, the clearing broker with which it conducts business.

Buttonwood Partners, Inc.
Notes to financial Statements September 30, 2016

The Company's financial instruments that are exposed to concentrations of credit risk consist primarily of cash. The Company maintains its cash with one financial institution. The total cash balances of the Company are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$250,000 per depositor, per bank. The Company held cash throughout the year which, at times, may have exceeded the balance insured by the FDIC. The Company monitors such credit risk and has not experienced any losses related to such risks.

Indemnifications

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company expects the risk of future obligation under these indemnifications to be remote.

Income Taxes

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carry-forwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management it is more likely than not that some portion of all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of change in tax laws and rates on the date of enactment.

The FASB provides guidance for how uncertain tax provisions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the "more-likely-than-not" threshold would be recorded as a tax expense and liability in the current year. For the year ended September 30, 2016, management has determined that there is a profit of \$19,947 and accordingly, has recorded a liability of \$4,510 for the payment of taxes, interest, and or penalties.

The Company is no longer subject to U.S. federal or state tax return examinations for years before September 30, 2013 and September 30, 2012, respectively.

Recently Issued Accounting Pronouncements

Company management has reviewed the accounting standards updates issued by the FASB that were either newly issued or had effective implementation dates that would require their provisions to be reflected in the financial statements for the year ending September 30, 2016. Based upon this review, the Company has implemented the pronouncements that require adoption (if any). They have also concluded that the remaining pronouncements have either limited or no application to the Company and, in all cases, implementation would not have a material impact on the financial statements taken as a whole.
