Freimark, Blair & Co., Inc.
Notes to the Financial Statements
For the Year Ended December 31, 2016

1. Organization

Freimark, Blair & Co., Inc. (the Company) is a privately held corporation formed in New York in 1982 for the purpose of conducting business as a securities broker/dealer (BD). As a BD, the Company is registered with the Financial Industry Regulatory Authority (FINRA) to market investments in registered securities. Through its clearing broker, the Company clears securities transactions on a fully disclosed basis for its clients and trades for its own account.

2. Summary of Significant Accounting Policies

Use of Estimates-The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make reasonable estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenue and expenses at the date of the financial statements and for the period they include. Actual results may differ from these estimates.

Revenues-Commission revenues and related fees are recorded on a settlement date basis and the Company is reasonably assured of their collection. Realized gains and losses from trading revenues are recorded on the trade date. Open positions are marked to the market using the closing settlement process of the open positions at the report date.

Cash-For the purpose of calculating changes in cash flows, cash includes all cash balances and highly liquid short-term investments with original maturity date of three months or less.

Income taxes- The Company has elected to be taxed as an S corporation under the Internal Revenue Service Code. Accordingly, under such an election, the Company's taxable income is reported by the individual stockholders and therefore, no provision for federal income taxes has been included in the financial statements.

Freimark, Blair & Co., Inc.
Notes to the Financial Statements (Continued)
For the Year Ended December 31, 2016

3. Fair Value of Financial Instruments

Fair-Value Measurements under generally accepted accounting principles clarifies the principle that fair value should be based on the assumption market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements are separately disclosed by level within the fair value hierarchy as follows:

Level 1 - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which all significant inputs are observable or can be derived principally from or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Unobservable inputs to the valuation methodology that are significant to the measurement of fair value of assets or liabilities.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is disclosed and is determined is based on the lowest level input that is significant to the fair value measurement.

The Company's securities investment is a Level 1 investment at December 31, 2016.

Cash, deposits with clearing brokers, securities at fair value, prepaid expenses, and accounts payable and accrued expenses in the balance sheet are estimated to approximate fair market value at December 31, 2016 because of their short term nature.

4. Off Balance Sheet Risk

The Company executes various transactions for the benefit of customers through the clearing broker on a fully disclosed basis. This business activity subjects the Company to certain off balance sheet risk, which may be in excess of the liabilities reported in the balance sheet. In the event that a customer is in default of an obligation to the clearing broker, the clearing broker will require the Company to fulfill the obligation on behalf of its customer.

The Company seeks to control these risks by monitoring the transactions of customer accounts on a daily basis. The Company has the authority to liquidate position in customer accounts at its discretion in order to ensure the account is in financial compliance with established requirements imposed by the clearing broker

Freimark, Blair & Co., Inc.
Notes to the Financial Statements (Continued)
For the Year Ended December 31, 2016

5. Concentrations of Credit Risk

Financial instruments which potentially subject the Company to concentration of credit risk are its cash deposits and deposits with clearing brokers, which are uninsured. If the clearing broker becomes insolvent, the Company's assets at the clearing broker could become impaired.

The Company, from time to time, maintains deposits at banks which are in excess of insured amounts.

6. Net Capital Requirement

The Company is subject to the Securities and Exchange Commission's Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2016, the Company had net capital of \$2,283,462 which exceeded the minimum requirement of \$100,000 by \$2,183,462. The Company's ratio of aggregate indebtedness to net capital was .0168 to 1

7. Income Tax Provision

Provision for income taxes is comprised of the following:

Net income (loss) before provision for income taxes	\$95,484
State Income Tax	
NY-Statutory minimum	\$25
NJ-Income tax	\$6,191
Federal income Tax	
S-Corporation-disregarded entity	\$0
Provision for income Taxes	<u>\$6,216</u>

8. Subsequent Events

The Company has made a review of material subsequent events from December 31, 2016 through the date of this report and found no material subsequent events reportable during this period.
