**CLARY INVESTMENT AND INSURANCE PLANNING CORP.**

**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2016**

**NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Organization and Nature of Business

The Company is a broker-dealer registered with the Securities and Exchange Commission (SEC) and is a member of the Financial Industry Regulatory Authority, Inc. (FINRA)

Accounts Receivable

Accounts receivable is composed of receivables from broker dealers. These are collected in a short period of time, and based on past experience, management has determined that an allowance for doubtful accounts is not necessary.

Income Taxes

The Company operates as an S Corporation. As such, the Corporation's Income or loss and credits are passed through to the stockholder, and reported on his individual income tax returns.

Statement of Cash Flows

For purpose of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.

Use of Estimates

The preparation of financial statements in conformity with general accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of financial statements and the reported amounts of revenues and expenses during the reported period. Actual results could differ from these estimates.

**NOTE 2 - NET CAPITAL**

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital, and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2016 the Company had net capital of \$12,068 which was \$7,068 in excess of its required net capital of \$5,000. The Company's net capital ratio was .7321 to 1.

**CLARY INVESTMENT AND INSURANCE PLANNING CORP.**

**NOTES TO FINANCIAL STATEMENTS**

**December 31, 2016**

**NOTE 3 - FAIR VALUE**

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of principal market, the most advantageous market. Valuation techniques that are consistent with the market income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The Fair Value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.

Level 3 are unobservable inputs for the asset or liability and rely on management's own assumption about the assumptions the market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

A qualifying asset or liabilities level within the framework is based upon the lowest level if any input that is significant to the fair value measurement. The Company's qualifying assets or liabilities are recorded at fair value using Level 1 inputs.

**NOTE 4 - SUBSEQUENT EVENTS**

Management has evaluated subsequent events through February 8, 2017, the date on which the financial statements were available to be issued. There were no subsequent events that require adjustment or disclosure in the financial statements.
