Report of Independent Registered Public Accounting Firm

We have audited the accompanying statement of financial condition of Greenwich Energy Capital Advisors, LLC (the Company) as of December 31, 2016. The statement of financial condition is the responsibility of the management of the Company. Our responsibility is to express an opinion on the statement of financial condition based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of the Company as of December 31, 2016 in conformity with accounting principles generally accepted in the United States.

Greenwich Energy Capital Advisors, LLC
Notes to Statement of Financial Condition
December 31, 2016

Note 1 - Summary of significant accounting policies

Basis of presentation

Greenwich Energy Capital Advisors, LLC (the "Company") was organized in December 2010 and began operating as a broker-dealer registered with the Securities and Exchange Commission ("SEC") and the Financial Industry Regulation Authority ("FINRA") in November 2011.

The Company's activities consist principally of its role as an intermediary and advisor in merger and acquisition transactions. Accordingly, the Company claims exemption from Securities Exchange Commission Rule 15c3-3 because it does not carry customer funds or handle customer securities.

Basis of accounting

The Company maintains its books on the accrual basis of accounting.

Commissions and fees

The Company records commission and fee income as earned pursuant to the terms of its investment banking or consulting agreements.

Cash

Cash consists of amounts on deposit with a commercial bank, in interest and non-interest bearing accounts, available on demand.

Allowance for uncollectible accounts receivable

The Company uses the allowance method to account for uncollectible accounts receivable. Under this method, the Company reviews all receivables for any problems with collection. If the Company feels that there may be a problem with collections, an allowance is provided for the receivable. When attempts to collect a specific receivable are unsuccessful, the account is considered uncollectible and is written off against the allowance. As of December 31, 2016, the Company had no accounts receivable and, accordingly, determined that an allowance for doubtful accounts was not necessary.

Note 1 - Summary of significant accounting policies (continued)

Income taxes

The Company has elected to be taxed in a manner similar to the taxation of a partnership. The Company is not subject to federal or state taxes on income. Instead, the member includes the Company's taxable income or loss in his individual income tax returns.

The Company follows accounting principles generally accepted in the United States related to the accounting for uncertainty in income taxes. Adoption of the provisions did not have any impact on the Company's accounting for unrecognized tax liabilities. Management believes that the Company has adequately addressed all tax positions and that there are no unrecorded tax liabilities. Tax years 2014 to 2016 are open for examination by the Internal Revenue Service and years to 2016 by the California Franchise Tax Board.

Use of estimates

The Company prepares its financial statements in accordance with accounting principles generally accepted in the United States. The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect amounts and disclosures reported in these financial statements. Actual results could differ from those estimated.

Note 2 - Concentrations

During the year ended December 31, 2016, revenues consisted of amounts from one client/contract.

Note 3 - Subsequent events

The Company evaluated subsequent events for recognition and disclosure through the date which this financial statement was filed. Management concluded that no material subsequent events have occurred since December 31, 2016 that required recognition or disclosure in such financial statement.

Note 4 - Net capital requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of a minimum net capital, as defined, and a ratio of aggregate indebtedness to net capital not exceeding 15 to 1. As of December 31, 2016, the Company had net capital of \$10,034 which exceeded its required net capital by \$5,034 and the ratio of aggregate indebtedness to net capital was .43 to 1.
