Report of Independent Registered Public Accounting Firm

RSM US LLP

To the Managing Member
Bear Creek Securities, LLC

We have audited the accompanying statement of financial condition of Bear Creek Securities, LLC (the Company) as of December 31, 2016, and the related notes (the financial statement). This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Bear Creek Securities, LLC as of December 31, 2016, in conformity with accounting principles generally accepted in the United States.

BEAR CREEK SECURITIES, LLC

NOTES TO STATEMENT OF FINANCIAL CONDITION AS OF DECEMBER 31, 2016

1. ORGANIZATION AND NATURE OF BUSINESS

Bear Creek Securities, LLC (the "Company") is a Colorado limited liability company. The Company was incorporated on November 3, 2005, and commenced operations on July 28, 2006, as a broker-dealer of securities. The Company is registered under the Securities Exchange Act of 1934 and is a member of the Financial Industry Regulatory Authority (FINRA) and the Municipal Securities Rulemaking Board (MSRB). The Company is a majority owned subsidiary of Bear Creek Holding Company, LLC. The Company is engaged in a single line of business as a securities broker dealer, which comprises several classes of services, including principal transactions, agency transactions, and investment advisory.

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of the rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of the customers on a fully disclosed basis with a clearing broker-dealer, and promptly transmit all customer funds and securities to the clearing broker-dealer. The clearing broker-dealer carries all of the accounts of customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents — The Company considers all highly liquid instruments with maturities of three months or less at time of purchase to be cash and cash equivalents. Cash and cash equivalents are stated at cost, which approximates market value. As of December 31, 2016 the Company had \$5,228 held in money market accounts and the remainder in deposits.

Income Taxes — The Company has elected to be a partnership under the Internal Revenue Code. Instead of paying corporate income taxes, the ultimate members of the Company are taxed individually on the Company's taxable income. Therefore, no provision or liability for federal or state income taxes has been recognized in this financial statement.

The Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. The tax benefit recognized as measured as the largest amount of benefit that has a greater than 50% likelihood of being realized upon the ultimate settlement with the relevant taxing authorities. Based on this analysis, the Company has determined that it has no incurred any liability for unrecognized tax benefits as of December 31, 2016. The Company does not expect that its assessment regarding unrecognized tax benefits will materially change over the next 12 months. However, the Company's conclusions may be subject to review and adjustment at a later date based on factors including, but not limited to, questioning the timing and amount of deductions; the nexus of income among various tax jurisdictions; compliance with U.S. federal, U.S. state, and foreign tax laws; and changes in administrative practices and precedents of relevant taxing authorities. The current and prior three tax years generally remain subject to examination by U.S. federal and most state tax authorities.

Use of Estimates — The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recently Issued Accounting Pronouncements - In February 2016 the FASB released ASU 2016-02, Leases, completing its project to overhaul lease accounting. The ASU codifies ASC 842, Leases, which will replace the guidance in ASC 840. ASC 842 contains the following key points:

1. Lessees will be required to recognize most leases “on balance sheet.”
2. The new guidance retains a dual lease accounting model for purposes of income statement recognition, continuing the distinction between what are currently known as “capital” and “operating” leases for lessees.
3. Lessors will focus on whether control of the underlying asset has transferred to the lessee to assess lease classification.
4. A new definition of a “lease” could cause some contracts formerly accounted for under ASC 840 to fall outside the scope of ASC 842, and vice versa.
5. A modified retrospective transition will be required, although there are significant elective transition reliefs available for both lessors and lessees.

ASC 842 is effective for public business entities in fiscal years beginning after December 15, 2018. Early adoption is permitted for all entities. The adoption of this standard is not anticipated to have a material impact on the Company’s financial condition, operations or liquidity.

3. COMMITMENTS AND CONTINGENCIES

The Company utilizes an unaffiliated brokerage firm to provide securities clearing services. As part of this arrangement, the Company acts as an “introducing broker” and the unaffiliated brokerage firm acts as a “clearing broker.” The clearing agreement requires the Company to maintain a minimum deposit with the clearing broker. The deposit maintained with the clearing broker is \$25,000 as of December 31, 2016. As a result of the securities clearing services, the Company has a payable to its clearing broker. The payable to the clearing broker is \$1,537 at December 31, 2016. Generally, the payable is paid in the month following the activity. Pursuant to its agreements with its clearing brokers, the Company is liable for amounts uncollected from customers introduced by the Company. At December 31, 2016, there are no liabilities for amounts uncollected.

4. NET CAPITAL

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (“Rule 15c3-1”), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2016, the Company had net capital of \$703,329, which was \$698,329 in excess of its required net capital of \$5,000. The Company had a ratio of aggregate indebtedness to net capital of 0.01 to 1 at December 31, 2016.

5. CREDIT RISK

As a securities broker dealer, the Company is engaged in various securities and brokerage activities. The Company’s transactions are collateralized and executed with and on behalf of customers. The

Company's exposure to credit risk associated with nonperformance of these customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets, which may impair the customers' ability to satisfy their obligations and/or impair the value of the collateral. This risk is mitigated once the clearing firm books the transaction to the customer's clearing account.

6. CONCENTRATION RISK

The Company has a shared services agreement with Bear Creek Holding Company, LLC, a related party. The Company's overhead costs could be directly impacted if the shared services agreement with Bear Creek Holding Company, LLC expired or the financial condition of Bear Creek Holding Company, LLC deteriorated.

7. INDEMNIFICATIONS

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company expects the risk of future obligation under these indemnifications to be remote.

8. SUBSEQUENT EVENTS

Management of the Company evaluated subsequent events through the date these financial statements were issued for potential recognition or disclosure. The following transaction took place subsequent to December 31, 2016:

- The Company made an equity distribution of \$450,000 on January 6, 2017.
- The Company prepaid the 2017 holding company shared services charges of \$176,400 on January 6, 2017.

Subsequent to the transactions detailed above, the Company had net capital of \$76,929, which was \$71,929 in excess of its required net capital of \$5,000.
