Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

Hankerson Financial, Inc. (the "Company") was incorporated in the State of Arizona on December 23, 1985. The Company is a registered broker-dealer in securities under the Securities and Exchange Act of 1934, a member of the Financial Industry Regulatory Authority ("FINRA"), and the Securities Investor Protection Corporation ("SIPC").

The Company forwards client transactions to direct participation programs and mutual funds, which carry such accounts; therefore, no customer accounts are reflected in the financial statements. The Company earns commissions for introducing investors to various investment projects, such as direct participation programs and mutual funds. Commission revenue and commission expense are recognized on the date the investment is funded by the investor.

Under its membership agreement with FINRA and pursuant to Rule 15c3-3(k)(2)(i), the Company conducts business on a fully disclosed basis and does not execute or clear securities transactions for customers. Accordingly, the Company is exempt from the requirement of Rule 15c3-3 under the Securities Exchange Act of 1934 pertaining to the possession or control of customer assets and reserve requirements.

Summary of Significant Accounting Policies

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Commissions receivable are stated at face amount with no allowance for doubtful accounts. An allowance for doubtful accounts is not considered necessary because probable uncollectible accounts are immaterial.

Securities transactions are recorded on a trade date basis with related commission income and expenses also recorded on a trade date basis.

Note 4: FAIR VALUE MEASUREMENT - ACCOUNTING PRONOUNCEMENT

On January 1, 2009, the Company adopted FASB ASC 820, Fair Value Measurements and Disclosures, which defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income, or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Quoted prices in an active market for identical assets or liabilities;

Level 2 - Observable inputs other than Level 1, quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets and liabilities in markets that are not active, and model derived prices whose inputs are observable or whose significant value drivers are observable;

Level 3 - Assets and liabilities whose significant value drivers are unobservable.

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2016:

Assets	<u>Fair Value</u>	<u>Level 1 Inputs</u>	<u>Level 2 Inputs</u>	<u>Level 3 Inputs</u>
Investments, at market value	<u>\$ 7,141</u>	<u>\$ 7,141</u>	<u>\$ -</u>	<u>\$ -</u>
Total	<u><u>\$ 7,141</u></u>	<u><u>\$ 7,141</u></u>	<u><u>\$ -</u></u>	<u><u>\$ -</u></u>

Based upon this review, the Company has implemented the pronouncements that require adoption (if any). They have also concluded that the the remaining pronouncements have either limited or no application to the Company and in all cases implementation would not have a material impact on the financial comments taken as a whole.
