NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR DECEMBER 31, 2016**

NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the Firm's significant accounting policies consistently applied in the preparation of the accompanying financial statements are as follows:

- a. Nature of Operations— Money Management Advisory, Inc. a Pennsylvania corporation (the Firm), operates in the brokerage and investment advisory industry primarily in the Eastern United States. The firm is registered is a registered broker-dealer with the Financial Industry Regulatory Authority (FINRA), the Securities and Exchange Commission (SEC). The Firm also sells life insurance policies and annuities to individuals primarily in the Eastern United States.
- b. Cash Equivalents—For purposes of the statements of cash flows, the Firm considers all highly liquid debt instruments with maturities of three months or less when purchased to be cash equivalents. There were no cash equivalents at December 31, 2016.
- c. Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.
- d. Concentrations of Credit Risk—The Firm places its cash in accounts with a local financial institution. At times, balances in these accounts may be exceed FDIC insured limits.
- e. Commissions Receivable— Commissions Receivable consists of commissions, fees and other amounts owed to the Firm. The Firm considers all commissions receivable to be fully collectible. Uncollectible accounts receivable are charged directly against operations when they are determined to be uncollectible. Use of this method does not result in a material difference from the valuation method required by accounting principles generally accepted in the United States of America. Management believes an allowance is unnecessary. Commissions receivable are written-off when collection efforts have been exhausted.
- f. Advertising—The Firm's advertising costs are expensed as incurred. There were no advertising costs incurred during the year.
- g. Revenue Recognition— Fee revenue includes recurring professional services that are paid for the duration of the engagement, and success fees earned on completed mergers and acquisition transactions. Professional service revenues are recorded at the time services are performed, while success fees are recorded when the transaction is completed and the income is reasonably determinable.
- h. Commissions—Commissions and related clearing expenses are recorded on a trade-date basis as the securities transaction occur.
- i. Investment Advisory Income—Investment advisory fees are received quarterly; however, are recognized as earned on a pro rata basis over the term of the contract.
- j. Property and Equipment—Property and equipment are recorded at costs. Depreciation is provided on the straight-line and accelerated methods. Maintenance and minor repairs are charged to operations when incurred. When assets are retired or sold, the related costs and accumulated depreciation are removed from the accounts and the resulting gain or loss is reflected in current operations. Estimated useful lives for deprecation are between 3 and 10 years.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR DECEMBER 31, 2016**

**NOTE 1: ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
(continued)**

- k. Long-Lived Assets—As required by the Property, Plant and Equipment Topic of the FASB Accounting Standards Codification No. 360 (“FASB ASC 360”), long-lived assets are required to be reviewed for impairment whenever events or changes in circumstances indicate that the carry amount of an asset may not be recoverable. When required, impairment losses on assets to be held and used are recognized based on the fair value of the asset. Long-lived assets to be disposed of are reported at lower of carrying amount or fair value less cost to sell. There were no impairment losses as of December 31, 2016.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL UNDER SEC RULE 17A-5(g)(1)

The Board of Directors
Money Management Advisory, Inc.
Feasterville, Pennsylvania

In planning and performing our audit of the financial statements of Money Management Advisory, Inc. as of and for the year ended December 31, 2016, in accordance with auditing standards generally accepted in the United States of America, we considered Money Management Advisory, Inc.'s internal control over financial reporting (internal control) as a basis for designing our audit procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Money Management Advisory, Inc.'s internal control. Accordingly, we do not express an opinion on the effectiveness of Money Management Advisory, Inc. internal control. Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by Money Management Advisory, Inc., including consideration of control activities for safeguarding securities. This study included tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a) (11) and for determining compliance with the provisions of Rule 15c3-3. Because Money Management Advisory, Inc. does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- Making quarterly securities examinations, counts, verifications, and comparisons and recordation of differences required by Rule 17a-13.
- Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of Money Management Advisory, Inc. is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's previously mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control and the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first and second paragraphs and would not necessarily identify all deficiencies in internal control that might be material weaknesses. We did not identify any deficiencies in internal control and control activities for safeguarding securities that we consider to be material weaknesses, as defined previously.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that Money Management Advisory, Inc.'s practices and procedures, as described in the second paragraph of this report, were adequate at February 13, 2017, to meet the SEC's objectives.

This report is intended solely for the information and use of the Board of Directors, management, the SEC, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
