## Notes to Financial Statements

December 31, 2016 and 2015

### (1) Organization and Significant Accounting Policies, Continued

#### Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### Goodwill

Goodwill represents the aggregate excess of the cost of assets acquired over their fair value at the date of acquisition. Each year the Company completes a goodwill impairment test. Under the impairment test, if a reporting unit's carrying amount exceeds its estimated fair value, goodwill impairment is recognized to the extent that the reporting unit's carrying amount of goodwill exceeds the implied fair value of the goodwill. Fair value of the Company was estimated using discounted cash flows and market multiples. No impairment occurred in 2016 or 2015.

#### Reclassifications

Certain reclassifications have been made to the 2015 financial statements in order for them to better compare to the 2016 financial statements. The reclassifications have no material effect on 2015 financial position, results of operations, or cash flow.

### (2) Fair Value of Financial Instruments

Financial instruments held by the Company include accounts and notes receivable and accounts and commissions payable. The Company believes that the carrying amount of these financial instruments approximates their fair value.

### (3) Net Capital Requirements

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. As of December 31, 2016 and 2015, the Company's net capital was \$239,606 and \$180,003, respectively, which was \$189,606 in excess of its required net capital in 2016 and \$130,003 in excess of its required net capital in 2015. The Company's ratio of aggregate indebtedness to net capital was 1.30 to 1 and 1.42 to 1 as of December 31, 2016 and 2015, respectively.

The Company qualifies under the exemption provisions of Rule 15c3-3, paragraph (k) (2) (ii), as the Company does not carry security accounts for customers or perform custodial functions relating to the customers' securities. Under the exemption, the Company is not required to maintain a reserve for the benefit of customers.
