SENTINEL BROKERS COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2016

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization

Sentinel Brokers Company, Inc. (the "Company") began business on January 1, 1996. The Company is primarily engaged in acting as an intermediary facilitating the trading of Municipal Bonds and Preferred Stocks between institutions. The Company has no retail customer base. The Company is a broker-dealer registered with the Financial Industry Regulatory Authority (FINRA) and the Securities Exchange Commission. The Company, as a non-clearing broker, does not handle customers' funds or securities. There were no liabilities subordinated to claims of general creditors during the year ended December 31, 2016.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States.

Income Taxes

Effective July 1, 2011, the Company elected to be taxed as an "S" Corporation for federal and state income tax purposes. As an S corporation, the Company is not subject to federal income taxes and passes through substantially all taxable items to the shareholder of the Company. The Company is subject to state and local income taxes in various states.

In accordance with ASC 740, Income Taxes, the Company is required to disclose unrecognized tax benefits resulting from uncertain tax positions. The Company recognizes the accrual of any interest and penalties to recognized tax benefits in income tax expense.

At December 31, 2016 the Company did not have any unrecognized tax benefits or liabilities. No interest or penalties were recognized during the period. The Company operates in the United States and in state and local jurisdictions, and the previous three years remain subject to examination by tax authorities. There are presently no ongoing income tax examinations.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016**

Securities Transactions and Commissions Revenues

Securities transactions are recorded on a trade date basis. Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

Securities owned are recorded at current market value. Securities not readily marketable are valued at fair as determined by management, which approximates estimated realizable value. It is reasonable possible that a change in such estimates may occur in the near term.

Furniture, Equipment and Leasehold Improvements

Furniture and equipment are recorded at cost. Depreciation is recorded on a straight-line basis and accelerated basis over the estimated useful life of the related assets, which range from three to five years. Leasehold improvements are amortized over the lesser of the economic life of the improvements or the term of the lease.

Concentrations of Credit Risk

Financial instruments that potentially subject the Company to concentration of credit risk consist primarily of cash and cash equivalent and marketable securities. The Company maintains cash balances with a commercial bank and cash, money market funds and securities with a brokerage firm. At times amounts with the bank exceeded Federal Deposit Insurance Corporation limits. The amounts at the brokerage firm are covered up to Securities Investor Protection Corporation ("SIPC") limits.

The responsibility for processing customer activity rests with Hilltop Securities, Inc. ("Hilltop"). The Company's clearing and execution agreement provides that Hilltop's credit losses relating to unsecured margin accounts receivable of the Company's customers are charged back to the Company.

In accordance with industry practice, Hilltop records customer transactions on a settlement date basis, which is generally three business days after the trade date. Hilltop is therefore exposed to risk and loss on these transactions in the event of the customer's inability to meet the terms of its contracts, in which

SENTINEL BROKERS COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2016

case Hilltop may have to purchase or sell the underlying financial instruments at prevailing market prices in order to satisfy its customer-related obligations. Any loss incurred by Hilltop is charged back to the Company.

The Company, in conjunction with Hilltop, controls off-balance-sheet risk by monitoring the market value and marketing securities to market on a daily basis and by requiring adjustments of collateral levels. Hilltop establishes margin requirements and overall credit limits for such activities and monitors compliance with the applicable limits and industry regulations on a daily basis.

Estimates

Management of the Company uses estimates and assumptions in preparing financial statement in accordance with accounting principles generally accepted in the United States. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses and expenses. Actual results could vary from the estimates management uses.

Cash and Equivalents

The Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months that are not held for sale in the ordinary course of business. Included in cash equivalents are money market funds and brokerage account balances.

SUBSEQUENT EVENTS

The Company has evaluated events subsequent to the balance sheet date for item requiring recording February 24, 2017, which is the date the financial statement, were available to be issued. Based upon this review, the Company has determined that there were no events which took place that would have a material impact on its financial statements.

2. OTHER INVESTMENTS

Included in other assets is an investment of \$60,000 for a 10% interest in a privately held joint venture which is accounted for on the Equity Method of Accounting,

SENTINEL BROKERS COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2016

accordingly accumulated operating losses by the venture has reduced the amount invested to zero.

3. MARKETABLE SECURITIES

Marketable securities totaling \$1,118,641 consist of municipal bonds of \$223,988 and equities of \$894,653 valued at quoted market prices.

4. FAIR VALUE

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.
- Level 2. Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly or indirectly.
- Level 3. Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by the wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy

SENTINEL BROKERS COMPANY, INC.

**NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016**

within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value is a market-based measure considered from the perspective of a market participant rather than an equity-specific measure. Therefore, even when market assumptions are not readily available, the Company's own observable, fair value is determined based on either benchmarking to similar instruments or cash flow models with yield curves, bonds, or single-name credit default swap spread and recovery rates as significant inputs. Municipal bonds are generally categorized in level 2 of the fair value hierarchy.

| | <u>Level 1</u> | <u>Level 2</u> | <u>level 3</u> | <u>Total</u> |
|------------------------|------------------|------------------|----------------|--------------------|
| Asset | | | | |
| Municipal Bonds | | \$223,988 | | \$223,988 |
| Equity | | | | |
| Common Stock | | | | |
| Manufacturing | \$250,141 | | | 208,150 |
| Technology | 86,160 | | | 118,455 |
| Finance | 84,244 | | | 56,488 |
| Entertainment | 15,633 | | | 21,016 |

| Finance | <u>264,321</u> | | | <u>264,321</u> |
| | \$894,653 | \$223,988 | | \$1,118,641 |

Assumptions are set to reflect those that the Company believes market participants would use in pricing the asset or liability at the measurement date.

A description of the valuation techniques applied to the company's major categories of assets and liabilities measured at fair value on a recurring basis follows.

Exchange-Traded Equity Securities: Exchange –traded equity securities
Generally valued based on quoted prices from the exchange. To the extent these securities are actively traded valuation adjustments are not applied, and they are categorized in level 1 of the fair value hierarchy, otherwise, they are in level 2 of the fair value hierarchy.

Municipal Bonds: The fair value of municipal bonds are determined using recently executed transactions, market price quotations (when observable), bond spreads or credit default swap spreads obtained from independent

SENTINEL BROKERS COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2016

external parties, such as vendors and brokers, adjusted for any basis difference between cash and derivative instruments. The spread data used are for the same maturity as the bond. If the spread data do not reference the issuer, then data that reference a comparable issuer are used. When position-specific external price data are not observable, fair value is determined based on either benchmarking to similar instruments or cash flow models with yield curves, bid, or single-named credit default swap spreads and recovery rates as significant inputs. Municipal bonds are generally categorized in level 2 or the fair value hierarchy.

5. COMPUTATION FOR DETERMINATION OF RESERVE REQUIREMENTS FOR BROKERS AND DEALERS PURSUANT TO RULE 15C3-3

The Company is exempt from the provisions of Rule 15c3-3 under the Securities Exchange Act of 1934 pursuant to Paragraph (k)(2)(ii). As an introducing broker, the Company clears customer transactions on a fully disclosed basis with Hilltop. Hilltop carries all of the accounts of such customers and maintains and preserves such books and records.

6. NET CAPITAL REQUIREMENT

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (15c-3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2015, the Company had net capital of \$1,034,358, which was \$934,358 in excess of its required net capital of \$100,000. The Company had a percentage indebtedness to net capital of 15.17% as of December 31, 2016.

7. COMMITMENTS AND CONTINGENCIES

Based on my review, I'm not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
