SAGE, RUTTY & CO., INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016 AND 2015

1. BUSINESS DESCRIPTION

Sage, Ratty & Co., Inc. (the “Company”) is a securities broker engaged in the purchase and sale of securities for its customers. The Company’s customers are comprised of corporate, institutional and individual investors. The Company executes transactions and introduces them to First Clearing, LLC, (the “Clearing Broker”), a New York Stock Exchange member firm, on a fully disclosed basis.

The Company is a broker-dealer registered with the Securities and Exchange Commission (“SEC”) and the Financial Industry Regulatory Authority.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting -

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Use of estimates -

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. Significant estimates include, but are not limited to, the valuation of securities owned, the valuation of deferred income taxes, and the depreciable lives of furniture and equipment. Accordingly, actual results may differ from those estimates.

Cash -

The Company has defined cash as highly liquid investments with a maturity of three months or less when purchased, including money market funds, which are not held for sale in the ordinary course of business.

Revenue recognition -

Investment advisory fees are received quarterly but are recognized as earned over the terms of the contract. Security transactions are recorded on a trade date basis. Commission income and expenses are reflected in the financial statements as of the trade date. Mutual fund trailer commission revenue and related expenses are recorded when received. Underwriting fees are recorded at the time the underwriting is completed and the income is reasonably determinable.

Receivable from brokers or dealers and allowance for doubtful accounts -

The Company extends credit to its Clearing Broker and other companies in the financial services industry in the normal course of business. Management periodically reviews the sufficiency of the allowance for doubtful accounts, taking into consideration its historical losses and existing economic conditions, and makes adjustments to the allowance as it considers necessary. Management has determined that no allowance is necessary at December 31, 2016 and 2015. Accounts are charged off against the allowance for doubtful accounts when management determines such accounts are uncollectible.

Securities owned -

Securities owned are stated at fair value. Realized and unrealized gains or losses are recorded net in the accompanying statements of income. Net realized and unrealized gains on securities owned was \$91,524 and \$405,109 for the years ended December 31, 2016 and 2015, respectively.

A portion of the Company's securities are purchased on margin from its Clearing Broker. The Company must maintain an appropriate balance in an account held by the Clearing Broker to maintain these securities. There was no balance in the margin account at December 31, 2016 and 2015.

Depreciation -

Depreciation is provided using straight-line and accelerated methods over the estimated useful lives of the related assets, which are as follows:

Leasehold improvements	6 years
Furniture and equipment	3 - 7 years
Vehicles	5 years

Depreciation expense totaled \$43,041 and \$36,493 for the years ended December 31, 2016 and 2015, respectively.

Furniture and equipment -

Furniture and equipment are generally stated at cost. However, the Company reviews long-lived assets to be held and used for possible impairment when events or changes in circumstances indicate their carrying amounts may not be recoverable. If such events or changes in circumstances are present, a loss is recognized to the extent the carrying value of the asset is in excess of the sum of the undiscounted cash flows expected to result from the use of the asset and its eventual disposition. An impairment loss is measured as the amount by which the carrying amount of the asset exceeds the fair value of the asset. At December 31, 2016 and 2015, there were no such impairments.

Fair value measurements -

The framework for measuring fair value provides a hierarchy of fair value inputs. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability either directly or indirectly.

Level 3 - Unobservable inputs for the asset or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Advertising -

Advertising costs are expensed as incurred. Advertising expenses were \$75,107 and \$78,660 for the years ended December 31, 2016 and 2015, respectively.

Income taxes -

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due and deferred taxes.

The Company accounts for deferred taxes using the asset and liability approach whereby deferred tax assets and liabilities are determined based on temporary differences between the financial statement and tax basis of assets and liabilities, as measured using the enacted tax rates which are expected to be in effect when these differences reverse.

The Company recognizes and measures uncertain tax positions using a two-step approach. The first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates it is more likely than not that the position will be sustained upon examination, including resolution of related appeals or litigation processes, if any. In making this assessment, the Company must assume that the taxing authority will examine the income tax position and have full knowledge of all relevant information. The second step is to measure the tax benefit as the largest amount that is more than fifty percent likely of being realized upon ultimate settlement. The Company considers many factors when evaluating and estimating tax positions and tax benefits, which may require periodic adjustments and which may or may not accurately forecast actual outcomes.

Subsequent events -

The Company has evaluated subsequent events through February 27, 2017, the date the financial statements were available to be issued.

3. SECURITIES OWNED

The following is a summary of securities owned at December 31, 2016:

Municipal and non-convertible corporate bonds	531,187	-	(5,153)	526,034
Total securities owned	<u>\$922,430</u>	<u>\$993,017</u>	<u>\$ (5,153)</u>	<u>\$1,910,294</u>

The following is a summary of securities owned at December 31, 2015:

	Cost	Unrealized gains	Unrealized losses	Estimated fair value
Domestic common stocks	\$391,243	\$887,557	\$ -	\$1,278,800
Certificate of deposit	100,000	102	-	100,102
Municipal and non-convertible corporate bonds	445,952	8,681		454,633
Total securities owned	<u>\$937,195</u>	<u>\$896,340</u>	<u>\$ -</u>	<u>\$1,833,535</u>

4. FAIR VALUE MEASUREMENTS

The fair value of securities owned on a recurring basis at December 31, 2016 is presented below:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Domestic common stocks	\$1,384,260	\$ -	\$ -	\$1,384,260
Municipal and non-convertible corporate bonds	-	526,034	-	526,034
	<u>\$1,384,260</u>	<u>\$526,034</u>	<u>\$ -</u>	<u>\$1,910,294</u>

The fair value of securities owned on a recurring basis at December 31, 2015 is presented below:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Domestic common stocks	\$1,278,800	\$ -	\$ -	\$1,278,800
Certificate of deposit	-	100,102	-	100,102
Municipal and non-convertible corporate bonds	-	454,633	-	454,633
	<u>\$1,278,800</u>	<u>\$554,735</u>	<u>\$ -</u>	<u>\$1,833,535</u>

The fair value of domestic common stocks is based on quoted market prices. They are classified as Level 1 since they are traded in an active market for which closing prices are readily available. The fair value of the certificate of deposit is based on the rates currently offered for deposits of similar remaining maturities. They are classified as Level 2 since these prices are not available on exchanges. The fair value of municipal and non-convertible corporate bonds is based on market prices from available sources. They are classified as Level 2 since these prices are based on similar instruments in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. While the Company believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

There have been no changes in the fair value methodologies used at December 31, 2016 and 2015.

5. FURNITURE AND EQUIPMENT

Furniture and equipment consist of the following at December 31:

	2016	2015
Leasehold improvements	\$ 9,108	\$ 9,108

Vehicle	99,132	46,875
	<u>617,522</u>	<u>559,563</u>
Less - accumulated depreciation	<u>(503,343)</u>	<u>(483,342)</u>
Furniture and equipment, net	<u>\$ 114,179</u>	<u>\$ 76,221</u>

6. LINE OF CREDIT

The Company has an unsecured line of credit agreement with Manufacturers and Traders Trust Company (the "Bank") with maximum borrowings of \$750,000. Interest is payable monthly at the Bank's prime rate (the prime rate was 3.75% at December 31, 2016). There were no outstanding borrowings under the line of credit at December 31, 2016 or 2015.

7. COMMITMENTS AND CONTINGENCIES

The Company has entered into a lease agreement for office space with the first two and a half months rent-free. The lease agreement also includes scheduled rent increases and expires in May 2021. The effect of the rent free period as well as the scheduled rent increases are accrued as deferred rent and is being amortized over the life of the lease to achieve a level monthly rental expense. Under the agreement, the Company will have the option at the end of the lease term to extend the agreement for up to an additional ten years.

The Company also leases copiers under a non-cancelable lease agreement which extends through July, 31, 2019.

Estimated future minimum lease payments required under the above lease agreements are as follows:

Years ending December 31,	
2017	\$ 434,947
2018	434,947
2019	425,911
2020	413,259

The Company is subject to a clearing agreement with the Clearing Broker to provide clearing, execution, and other services to the Company. The agreement automatically renews for twelve months unless advance termination notice is provided by either party thirty days prior to the automatic renewal date. Termination of the agreement for other reasons by either party could result in a termination fee to be paid by the Company.

The Company may be subject to various legal proceedings arising in the ordinary course of its business. In the opinion of management based on consultations with counsel, the outcome of any pending proceeding is not likely to have a material effect on the Company's financial statements.

8. INCOME TAXES

Provision for income taxes consists of the following for the years ended December 31:

At both December 31, 2016 and 2015, a liability for uncertain tax positions was \$32,032 and is reported in other accrued expenses on the accompanying statements of financial condition.

9. RETIREMENT PLAN

The Company has a retirement plan that offers substantially all employees (who meet certain eligibility requirements) the opportunity to participate in a profit sharing 401(k) plan (the "Plan"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended. Employees may elect to defer a maximum of 100% of their compensation, not to exceed the annual limitation prescribed under the Internal Revenue Code and may select from a number of available investment options. The Company may elect to make a profit sharing contribution, at its discretion. Total Company contributions to the Plan were \$506,225 and \$512,684 for the years ended December 31, 2016 and 2015, respectively.

10. STOCKHOLDERS' EQUITY

The holders of the Class A voting common stock are entitled to one vote for each share held at all meetings of stockholders and shall have the sole and exclusive right to vote on or approve any corporate action requiring stockholder approval. All other rights of the Class A voting common stock and Class B non-voting common stock are identical. There were 34,660 and 36,440 shares of Class A common stock issued and outstanding at December 31, 2016 and 2015, respectively. 11. CREDIT RISK CONCENTRATIONS

The Company maintained bank balances that, at times, exceeded the federally insured limit during the years ended December 31, 2016 and 2015. The Company has not experienced losses relating to these deposits and management does not believe that the Company is exposed to any significant credit risk with respect to these amounts.

As discussed in Note 1, the Company executes transactions and introduces them to the Clearing Broker on a fully disclosed basis. The Company's exposure to credit risk associated with nonperformance of its customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair the customers' ability to satisfy their obligations to the Company.

The Company, through its Clearing Broker, seeks to control these risks by requiring customers to maintain sufficient levels of collateral in compliance with various regulatory and internal guidelines. The Company's Clearing Broker monitors required margin levels daily and, pursuant to such guidelines, requires the customers to deposit additional collateral, or reduce positions, when necessary. The Company's policy is to monitor its market exposure risk. In addition, the Company has a policy of reviewing, as considered necessary, the credit standing of each customer with which it conducts business.

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

12. NET CAPITAL REQUIREMENTS

The Company is subject to the SEC Uniform Net Capital Rule ("SEC Rule 15c3-1") which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2016, the Company had net capital of \$2,898,184 which was \$2,648,184 in excess of its required net capital of \$250,000. The Company's net capital ratio was .623 to 1.

To the Board of Directors and Stockholders of
Sage, Ruddy & Co., Inc.:

We have reviewed management's statements, including the accompanying Sage, Ruddy & Co., Inc.'s (the "Company") Exemption Report (the "Exemption Report"), in which (1) the Company identified the following provisions of 17 C.F.R. §15c3-3(k) under which the Company claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(ii) (the "exemption provisions") and (2) the Company stated that the Company met the identified exemption provisions throughout the most recent fiscal year except as described in its Exemption Report. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.
