REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Quest Capital Strategies, Inc.:

We have audited the accompanying balance sheet of Quest Capital Strategies, Inc. (the “Company”) as of December 31, 2016, and the related statement of income and comprehensive income, stockholders’ equity, and cash flows for the year then ended. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Quest Capital Strategies, Inc. as of December 31, 2016 and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The information contained in Schedules I, II, III, and IV (the “Supplemental Information”) has been subject to audit procedures performed in conjunction with the audit of Quest Capital Strategies, Inc.’s financial statements. The Supplemental Information is the responsibility of Quest Capital Strategies, Inc.’s management. Our audit procedures included determining whether the Supplemental Information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the Supplemental Information. In forming our opinion on the Supplemental Information, we evaluated whether the Supplemental Information, including its form and content is presented in conformity with 17 C.F.R. § 240.17a-5. In our opinion, the information contained in Schedules I, II, III, and IV is fairly stated, in all material respects, in relation to the financial statements as a whole.

The accompanying notes are an integral part of financial statements.
NOTE 1: ORGANIZATION

Quest Capital Strategies, Inc. (the "Company") is primarily engaged in the business of securities brokerage. The Company operates under the provisions of paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities and Exchange Commission and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of paragraph (k)(2)(ii) provide that the Company clears all transactions on behalf of customers on a fully disclosed basis with a clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers, maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The Company considers cash equivalents to be all highly liquid debt instruments purchased with an original maturity date of three (3) months or less. As of December 31, 2016, the Company maintains a $100,000 deposit with its clearing broker/dealer.

Fair Value Measurements

Fair value is defined as an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the authoritative guidance establishes a three-tier value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

Level 1: Observable inputs such as quoted prices in active markets;
Level 2: Inputs other than the quoted prices in active markets that are observable either directly or indirectly; and
Level 3: Unobservable inputs in which there is little or no market data, which require us to develop our own assumptions.

This hierarchy requires companies to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value. On a recurring basis, the Company measures certain financial assets and liabilities at fair value, including our marketable securities.

The Company’s cash equivalents and marketable securities instruments are classified within Level 1 and Level 2 of the fair value hierarchy because they are valued using quoted market prices, broker-dealer quotations, or alternative pricing sources with reasonable levels of price transparency. The types of instruments valued based on quoted market prices in active markets include most U.S. government and agency securities, and money market securities. Such instruments are generally classified within Level 1 of the fair value hierarchy. The types of instruments valued based on other observable inputs include investment-grade corporate bonds, mortgage-backed and asset-backed products, commercial paper, and state, municipal and provincial obligations. Such instruments are generally classified within Level 2 of the fair value hierarchy.
NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Significant estimates made in preparing the financial statements include the realizability of long lived assets.

Property and Equipment

Property and equipment are recorded at cost. Depreciation is computed using the straight-line method over the estimated useful lives of the assets, currently five to seven years. Repairs and maintenance costs are expensed as incurred and expenditures for additions and major improvements are capitalized.

Securities Transactions

Proprietary securities transactions, commission revenue and related expenses are recorded on a settlement date basis. Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net on the statement of financial condition.

Income Taxes

The Company is an S Corporation for income tax purposes and, accordingly, income or loss of the Company flows through to the individual stockholder. The Company is subject to California state income tax, which is the greater of $800 or 1.5% of taxable income and, accordingly, a provision for such taxes has been included in the accompanying financial statements. Deferred tax was immaterial for the year ended December 31, 2016.

The Company applied the provisions of ASC 740-10-50, “Accounting For Uncertainty In Income Taxes”, which provides clarification related to the process associated with accounting for uncertain tax positions recognized in our financial statements. Audit periods remain open for review until the statute of limitations has passed. The completion of review or the expiration of the statute of limitations for a given audit period could result in an adjustment to the Company’s liability for income taxes. Any such adjustment could be material to the Company’s results of operations for any given quarterly or annual period based, in part, upon the results of operations for the given period. At December 31, 2016, management considered that the Company had no uncertain tax positions, and will continue to evaluate for uncertain positions in the future.

Recent Accounting Pronouncements

The Company has considered and adopted all recent accounting pronouncements that are applicable. Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Company’s financial statements.
NOTE 3: SECURITIES OWNED

The Company’s securities investments are classified as trading securities. The Company only purchases securities for the purpose of assisting customers in selling their thinly traded or worthless securities. Trading securities consist solely of equity securities and are recorded at fair value on the balance sheet in current assets and, with the change in fair value during the period included in earnings. Securities owned at December 31, 2016 consisted solely of marketable equity securities.

Realized gains and losses are determined on the basis of actual results on investments. Realized and unrealized gains on marketable securities were as follows:

<tr>
<th>Gross Unrealized Gain</th>
<th>Gross Unrealized Loss</th>

<tbody>

NOTE 5: COMMITMENTS

Operating lease

On March 17, 2014, the Company entered into the second amendment to lease with KP Rockfield LLC. The original lease with KP Rockfield LLC expires on July 31, 2014. This amendment extended the original lease term for 64 months, from August 1, 2014 to Nov 30, 2019. The operating lease calls for monthly payments of rent, common area maintenance, insurance and property taxes. The lease provides for an increase in the monthly lease rate approximately every 12 months. Future minimum payments by year due under the operating lease agreement are as follows:

NOTE 6: NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the “applicable” exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2016, the Company had net capital of $460,478 that was $436,456 in excess of its required net capital of $24,022. The Company’s percentage of aggregate indebtedness to net capital at December 31, 2016 was 0.8 to 1.

NOTE 8: CREDIT RISKS

As discussed in Note 1, the Company's customers’ securities transactions are introduced on a fully-disclosed basis with its clearing broker/dealer. The clearing/broker dealer carries all of the accounts of the customers of the Company and is responsible for execution collection and payment of funds and, receipt and delivery of securities relative to customer transactions. Customers send stock certificates directly to the clearing broker/dealer. Off-balance-sheet risks exist with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge losses it incurs to the Company. The Company seeks to minimize this through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.
NOTE 8: CREDIT RISKS (CONTINUED)

The Company maintains its cash in bank deposit accounts which at times may exceed federally insured limits. Management periodically evaluates the credit worthiness of its primary depositories. The Company has not experienced any losses in such accounts. The Company believes it is not exposed to any significant credit risk on cash and cash equivalents.

NOTE 9: RETIREMENT PLANS

Defined contribution plan

The Company has a defined contribution plan covering all employees with at least one year of service. The Plan requires Company contributions to the Plan each year equal to 3% of all participants' compensation plus additional contributions at management’s discretion. Total expense of the defined contribution plan for the year ended December 31, 2016 was $36,563.

Defined benefit pension plan

The Company sponsors a defined benefit pension plan covering substantially all of its employees. Pension benefits are based on a percent of monthly compensation multiplied by year of credited service. Effective January 1, 2015, the Company amended the pension plan by reducing the benefit percentage from 7.35% to 6.7% for Classification B employee. The Company’s funding policy is to make the minimum annual contribution required by applicable regulations.

In 2008, the Company adopted the recognition and disclosure provisions of SFAS No. 158, later codified in ASC 715-10, “Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans” (ASC 715). ASC 715 requires the Company to recognize the funded status of its pension and other post-retirement benefit plans in the statement of financial position. Subsequent changes in funded status that are not recognized as a component of net periodic benefit cost are recorded as a component of accumulated other comprehensive loss. The annual measurement date used to determine pension and other post-retirement benefit amounts is December 31, 2016.

The following tables set forth further information about the Company’s defined benefit pension plan as of and for the year ended December 31, 2016:
