INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Commerce Securities Corporation
Houston, TX

We have audited the accompanying consolidated financial statements of Commerce Securities Corporation (the "Company") which comprise the consolidated statements of financial condition as of as of March 31, 2017, and the related consolidated statements of operations and other comprehensive income, changes in stockholders' equity, and cash flows for the year then ended that are filed pursuant to Rule 17a-5 under the Securities and Exchange Act of 1934, and the related notes to the financial statements. These financial statements are the responsibility of Commerce Securities Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Commerce Securities Corporation as of March 31, 2017, and the results of its operations and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

The Computation of Net Capital Under Rule 15c3-1 has been subjected to audit procedures performed in conjunction with the audit of Commerce Securities Corporation's consolidated financial statements. The supplemental information is the responsibility of Commerce Securities Corporation's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the Computation of Net Capital Under Rule 15c3- 1 is fairly stated, in all material respects, in relation to the financial statements as a whole.

Total stockholders' equity	<u>431,843</u>
TOTAL LIABILITIES AND STOCKHOLDERS' EQUITY	<u>\$ 457,989</u>

The accompanying notes are an integral part of this consolidated statement of financial condition.

NOTE 1 – NATURE OF ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Commerce Securities Corporation (the “Company”) commenced operations in November 1982 and is a broker/dealer in securities pursuant to the rules and regulations of the Financial Industry Regulatory Authority, Inc. (f/k/a National Association of Securities Dealers, Inc.) and the Securities and Exchange Commission. The Company’s primary business consists of private placement of securities, selling limited partnership units in primary distributions and consulting services related to mergers and acquisitions. During 2002, the Company formed a wholly-owned subsidiary, Commerce Capital Investments, Inc., whose purpose is to hold investments for Commerce Securities Corporation.

Principles of Consolidation – The consolidated financial statements include the accounts of Commerce Securities Corporation and its subsidiary. All significant intercompany transactions have been eliminated.

Cash and Cash Equivalents – Cash and cash equivalents include cash and highly liquid investments with original maturities of three months or less.

Investments – The Company’s investment in marketable equity securities are classified as available-for-sale and are carried in the consolidated financial statements at fair value. Realized gains and losses are included in earnings; unrealized holding gains and losses are reported in other comprehensive income. The securities are held in a margin account with a brokerage firm, the account allows the Company to take cash advances up to 50% of the securities value in the form of a margin loan. The loans carry an adjustable interest rate based on market conditions which approximates the prime rate. The Company incurred \$16 of margin loan interest during the prior ended March 31, 2017 which is included in operating expenses. At March 31, 2017 there were no margin loans outstanding.

Income Taxes – The Company uses the liability method of accounting for income tax in conformity with accounting principles generally accepted in the United States of America (GAAP). Under this method deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse. Valuation allowances are established when necessary to reduce deferred income tax assets to the amount expected to be realized.

Uncertain tax positions are recognized in the financial statements only if that position is more-likely-than-not of being sustained upon examination by taxing authorities, based on the technical merits of the position. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense.

Also, for income tax reporting, unrealized gains and losses on available-for-sale marketable securities are not included in taxable income. As a result, the basis of marketable securities for financial reporting differs from the tax basis by the cumulative amount of unrealized holding gains and losses. Deferred income taxes have been recorded for the difference, which will be taxable or deductible in future periods when the securities are sold.

The Company files income tax returns in the U.S. federal jurisdiction, and one state jurisdiction. The Company is no longer subject to U.S. federal and state examinations by tax authorities for years before 2014. At March 31, 2017, the Company’s tax returns from March 31, 2014 to March 31, 2016 were open for review by federal and state taxing authorities.

COMMERCE SECURITIES CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2017

State Margin Taxes – The Company is subject to the state of Texas margin tax, which applies to legal entities conducting business in Texas. The Company had no tax due for state margin taxes for the fiscal year ended March 31, 2017.

Furniture and Equipment – Furniture and equipment are stated at cost. The cost of furniture and equipment is depreciated over the estimated useful lives of the related assets. Depreciation is calculated on the straight-line method for financial reporting purposes and on the accelerated methods for income tax purposes. There was no depreciation expense recorded for the fiscal year ended March 31, 2017. Furniture and equipment were fully depreciated at March 31, 2017.

Use of Estimates – The preparation of the financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Significant estimates include, but are not limited to, the estimate used in calculating the valuation allowance related to income taxes and the utilization of the net operating loss carryforward in future periods. Because of the inherent uncertainty in this estimate, it is at least reasonably possible that the estimate used will change in the near term.

Treasury Stock – Treasury stock purchases are accounted for under the cost method whereby the entire cost of the acquired stock is recorded as treasury stock. Gains and losses on subsequent reissuance of shares are credited or charged to additional paid-in capital in excess of par value using the average-cost method.

Fair Value Measurements – The Company adheres to the provisions of ASC 820, *Fair Value Measurements and Disclosures*, which defines fair value, establishes a framework for measuring fair value under GAAP, and expands disclosures about fair value measurements. Adoption of the ASC 820 fair value provisions did not have a material impact on the Company's financial position or results of operations.

Under ASC 820, fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. ASC 820 describes a fair value hierarchy based on three levels of inputs, of which the first two are considered observable and the last unobservable, that may be used to measure fair value:

- **Level 1** – Quoted prices in active markets for identical assets or liabilities.
- **Level 2** – Inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- **Level 3** – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

At March 31, 2017, the Company has Level 1 marketable securities which are measured at fair value on a recurring basis (*see Note 2*). Unrealized gains and losses are included in other comprehensive income, net of the related tax effect.

COMMERCE SECURITIES CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2017

Adoption of New Accounting Standards – The Company has implemented all new accounting pronouncements and does not believe that there are any other new pronouncements that have been issued that may have a material impact on the financial statements.

NOTE 2 – INVESTMENT IN EQUITY SECURITIES

The cost and fair value of the Company’s marketable securities classified as available-for-sale, which are valued using Level 1 inputs at March 31, 2017 are as follows:

	<u>Cost</u>	<u>Unrealized Loss</u>	<u>Estimated Fair Value</u>
Equity securities	<u>\$ 458,005</u>	<u>\$ 6,826</u>	<u>\$ 451,179</u>

NOTE 3 – INCOME TAXES

The components of income tax benefit were as follows for the period ended March 31, 2017:

Federal	\$ -
State	-
Deferred	<u>(3,096)</u>
Total income tax expense (benefit)	<u>\$ (3,096)</u>

The difference between the federal statutory income tax rate and the effective tax rate is primarily due to return to accrual differences and nondeductible expenses.

Deferred tax assets and liabilities consisted of the following at March 31, 2017:

Deferred tax asset:	
Net operating loss carryforward	\$ 5,531
Less valuation allowance	<u>(2,766)</u>
Total deferred tax asset	<u>\$ 2,765</u>
Deferred tax liabilities:	
Change in basis of fixed assets	\$ -
Unrealized losses on available-for-sale securities net of valuation allowance of \$512	<u>(512)</u>
Total deferred tax liabilities	<u>\$ (512)</u>
Net deferred tax asset	<u>\$ 3,277</u>

COMMERCE SECURITIES CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
MARCH 31, 2017

As of March 31, 2017, the Company has a net operating loss (NOL) carryforward of approximately \$36,875, resulting in a tax benefit of \$5,531. Federal NOL carryforwards begin expiring in 2032. The Company's ability to utilize the NOL is dependent on future income prior to the expiration of these losses.

NOTE 4 – LIABILITIES SUBORDINATED TO THE CLAIMS OF GENERAL CREDITORS

As of March 31, 2017, the Company had not entered into any subordinated loan agreements.

NOTE 5 – MINIMUM CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c-3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1, and retained earnings may be restricted as to payment of dividends if this ratio exceeds 10 to 1. At March 31, 2017, the Company had computed regulatory net capital of \$337,182 which exceeded its required net capital of \$5,000 by \$332,182. The Company's aggregate indebtedness to net capital ratio was 7.75% at March 31, 2017.

NOTE 6 – CONCENTRATIONS

Financial instruments that potentially subject the Company to concentrations of credit risk consist principally of cash investments. The Company maintains its cash balances in financial institutions, which at times exceed the amount insured by the Federal Deposit Insurance Corporation. Management periodically assesses the financial condition of the financial institutions and believes that any possible credit risk is minimal. At March 31, 2017, the Company did not hold any operating cash in excess of federally insured amounts.

NOTE 7 – SUBSEQUENT EVENTS

The Company has evaluated subsequent events through May 8, 2017, the date which the financial statements were available to be issued. No events were noted which would require disclosure in the footnotes to the financial statements.
