REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholder  
of American Wealth Management, Inc.

We have reviewed management's statements, included in American Wealth Management, Inc.'s Annual Exemption Report, in which American Wealth Management, Inc. identified the following provisions of 17 C.F.R. §15c3-3(k) under which American Wealth Management, Inc. claimed an exemption from 17 C.F.R. §240.15c3-3: k(2)(ii) (the "exemption provisions") and American Wealth Management, Inc. stated that American Wealth Management, Inc. met the identified exemption provisions throughout the most recent fiscal year without exception. American Wealth Management, Inc.'s management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about American Wealth Management, Inc.'s compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph k(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

**AMERICAN WEALTH MANAGEMENT, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2016**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. The Company, a Georgia Corporation, was formed November 1, 1989, primarily for the purpose of qualifying and operating as a broker-dealer of securities. The Company is registered with the Securities and Exchange Commission, FINRA, and various states' securities commissions. The Company operates as a general securities broker-dealer executing trades for retail and institutional customers. The Company does not carry customer accounts or perform custodial functions relating to customer securities. Customers of the Company are introduced to a carrying broker-dealer (clearing agent) on a fully disclosed basis. The Company's customers are located throughout the United States.
- B. Property is recorded at cost and is depreciated over a five year estimated useful life using the straight-line method. Maintenance and repairs are charged to income, and renewals and betterments over \$1,000 are capitalized. Depreciation expense is \$659 in 2016 and is included in General and Administrative costs, on the Statement of Operations.
- C. Commission income is comprised of trading revenue and investment advisory services. Trade revenue is recorded as earned on settlement date basis, normally, within two days of trade date. Investment advisory services are billed quarterly and amortized over the quarter as earned.
- D. Revenue Recognition – The Company recognizes revenues at the time of sales transaction. The Company is evaluating new revenue recognition policy standards for Brokers and Dealers and will implement the new standards, Per FASB ASC 606-10-05-3.
- E. Cash and cash equivalents include cash on hand, money market accounts, and short term investments with maturities of less than 90 days. For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days that are not held for sale in the ordinary course of business.
- F. Use of Estimates - The preparation of financial statements in conformity with U. S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- F. Income taxes - Deferred taxes at December 31, 2016 arise primarily from net operating loss carryforwards. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled.

The above mentioned differences result in deferred income taxes. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

**AMERICAN WEALTH MANAGEMENT, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2016**

Income taxes- (Continued)

The Company files income tax returns in the U.S. federal and the state of Georgia jurisdictions.

The Company follows the provisions for uncertain tax positions as addressed in FASB Accounting Standards Codification 740-10-65-1. For the year ending December 31, 2016 management believes there are no material amounts of uncertain tax positions.

- G. Clearance Agreement- In January 1990, the Company entered into an agreement with Raymond James, an independent broker-dealer, to provide clearing, execution, and data processing services on a fully disclosed basis for the customer accounts of the Company. The Company is required to keep a minimum deposit of cash or securities of \$25,000 with the clearing broker-dealer.
- H. Management's Review - The Company has evaluated events and transactions for potential recognition or disclosure in the financial statements through February 27, 2017, the date in which the financial statements were issued.
- I. Fair Value- FASB ASC 820 defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value. The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:
- Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities the Company has the ability to access.
  - Level 2 Inputs are inputs (other than quoted prices included in level 1) that are observable for the assets or liability, either directly or indirectly.
  - Level 3 Unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

**AMERICAN WEALTH MANAGEMENT, INC.**  
**NOTES TO FINANCIAL STATEMENTS**  
**DECEMBER 31, 2016**

Fair Market Value – (Continued)

The Company's investments are comprised of equity securities and mutual funds, all of which are classified as held for investment and are carried at their level 1 fair value based on the quoted market prices of the securities at December 31, 2016.

The following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2016:

Fair Value Measurement on a Recurring Basis  
As of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Securities Owned:				
Equities-Trading	<u>\$14,809</u>	-0-	-0-	<u>\$14,809</u>

Change in unrealized gain relating to assets held at December 31, 2016, is \$6,960, this reflected investment loss on the Statement of Operations.

Interest and dividend income is \$891. The realized loss related to assets held at December 31, 2016 is \$5,002.

J. Commissions Receivables – Consists of amounts due on trading, from the clearing broker. The company considers all accounts receivable, as collectible.

2. INCOME TAXES

The amount of current and deferred tax payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years and for benefits of net operating loss carry forward. The Company recognizes and measures its unrecognized tax benefit in accordance with FASB ASC 740, Income Taxes. Under that guidance, the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires change.

The components of income tax provision are as follows:

	2016		
	Total	Deferred	Current
Federal	\$2,653	\$2,653	-
State	1,061	1,061	-
