DECEMBER 31, 2016

NOTE A – DESCRIPTION OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNT POLICIES

Description of Business: Church, Gregory, Adams Securities Corporation (the “Company”) a Georgia Corporation was formed October 8, 1975, primarily for the purpose of qualifying and operating as a Broker-Dealer of Limited Partnership interest in real estate partnerships and other securities. The company is registered with the Securities and Exchange Commission and various States’ securities commissions and is a member of FINRA. Pursuant to the registration, the Company must maintain minimum net capital of \$50,000 and is not authorized to hold securities for funds for customers.

Basis of Accounting: The Company prepares its financial statements on the accrual basis of accounting in accordance with the accounting principles generally accepted in the United States.

Revenue Recognition: Commission and advisory income is recognized when the terms of the sale of investment products and services to customers are substantially complete. The Company is evaluating new revenue recognition standards for brokers and dealers and will implement as required.

Cash and Cash Equivalents: Cash and cash equivalents include cash on hand and money investments. For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than ninety days.

Securities Owned: Securities owned are carried at fair value in accordance with FASB ASC 820, fair value measurements.

Realized gains and losses on disposition are based on the net proceeds and the adjusted book value of the securities sold, using the specific identification method. Unrealized gains and losses on marketable securities is based on the difference between cost basis and fair value of each security.

Fair Value: The Company classifies its investment assets in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements. FASB ASC 820 establishes a hierarchy of inputs to fair value measurements as follows:

Level 1 – Quoted prices in active markets for identical assets or liabilities.

Level 3 – Inputs that are unobservable and significant to the overall fair value measurement.

All of the Company’s investments are common stocks of publicly traded companies and are considered Level 1 investments.

Management does not believe there are any uncertain tax positions as defined by the FASB ASC 740, *Accounting for Income Taxes*.

Deferred taxes at December 31, 2016 arise primarily from differences in income using the cash basis of accounting for the tax return and generally accepted accounting for book income. The Company also has net operating loss carryforwards. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are covered or settled.

The above mentioned differences result in deferred income taxes. If it is more likely than not that some portion or all of a deferred tax asset will not be realized, a valuation allowance is recognized.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Fair Values of Financial Instruments: Financial instruments are reported at values which the Company believes are not significantly different from fair value. The Company believes no significant credit risk exists with respect to any of its financial instruments.
