Statement of Financial Condition and Report of
Independent Registered Public Accounting Firm

DEVELOPMENT CORPORATION FOR ISRAEL

December 31, 2016

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors
Development Corporation for Israel
New York, New York

We have audited the accompanying statement of financial condition of Development Corporation for Israel as of December 31, 2016. This financial statement is the responsibility of Development Corporation for Israel's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statement referred to above presents fairly, in all material respects, the financial position of Development Corporation for Israel as of December 31, 2016, in conformity with accounting principles generally accepted in the United States of America.

DEVELOPMENT CORPORATION FOR ISRAEL
Notes to Statement of Financial Condition
December 31, 2016

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Development Corporation for Israel (the “Company”) is a registered broker-dealer that serves as underwriter in the United States of America for the sale of State of Israel Bonds (the “Bonds”) on a best-efforts basis. The Company’s revenue is contingent on its continuation as underwriter and marketer for the Bonds pursuant to various underwriting agreements, which results in a selling concession and management fee to be earned on all bonds sold.

The Company is wholly owned by Association for Development of Israel, Inc. (the “Parent”) (which changed its name from American Society for Resettlement and Rehabilitation in Israel, Inc. in 2014), a corporation organized under the laws of the state of New York. There were no transactions during the reporting period between the Company and its Parent.

Foreign Currency

Transactions denominated in foreign currency are translated into U.S. dollars based on exchange rates in effect at the dates of the transactions.

Building, Furniture, Equipment and Leasehold Improvements

Depreciation and amortization are provided for using the straight-line method of depreciation/amortization for all capitalized assets in amounts sufficient to relate the cost of capitalized assets to operations over their estimated service lives.

Fair Value of Financial Instruments

The Company adopted the guidance issued by Financial Accounting Standards Board (“FASB”) to establish accounting and reporting standards related to fair value measurements. This guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (examples include active exchange-traded equity securities, listed derivatives and most U.S. government and agency securities). Bank money market accounts/funds which are redeemable on demand are also reported in Level 1.

Level 2 - Quoted prices in markets that are not active or financial instruments for which all significant inputs are observable, either directly or indirectly, and fair value is typically determined through the use of models or other valuation methodologies (examples include restricted stock, corporate or municipal bonds, which trade infrequently and interest rate and currency swaps).

DEVELOPMENT CORPORATION FOR ISRAEL
Notes to Statement of Financial Condition
December 31, 2016

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable and for which there is little, if any, market activity for the investment. The inputs into the determination of fair value require significant management judgment or estimation (examples include private equity investments, complex derivatives and certain foreign exchange options).

Other Liabilities

Other liabilities primarily include deferred rent on the New York leased premises resulting from the provision of free rent and scheduled increases in rent, pursuant to the lease agreement, which is being amortized over the remaining life of the lease obligations.

Cash

The Company has cash deposits with major financial institutions which are insured by the Federal Deposit Insurance Corporation ("FDIC") up to \$250,000 per legal entity.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions in determining the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. BANK DEPOSIT ACCOUNTS

As required by FASB guidance, investments and the bank deposit accounts are classified within the level of the lowest significant input considered in determining fair value. The table below sets forth information about the level within the fair value hierarchy at which the Company's bank deposit accounts are measured at December 31, 2016:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Bank deposit accounts	\$ 6,445,442	\$ 6,445,442	\$ -	\$ -
Total	<u>\$ 6,445,442</u>	<u>\$ 6,445,442</u>	<u>\$ -</u>	<u>\$ -</u>

DEVELOPMENT CORPORATION FOR ISRAEL
Notes to Statement of Financial Condition
December 31, 2016

3. LITIGATION

In the ordinary course of business the Company is subject to litigation. The Company, after consultation with legal counsel, believes that there is no current material litigation.

4. COMMITMENTS

The Company leases sales and administrative offices under long-term lease agreements which include scheduled increases in minimum rents. The Company recognizes these scheduled rent increases on a straight-line basis over the initial lease term. The remaining terms of these leases range from one to fifteen years.

Minimum rental payments under non-cancelable leases are approximately:

<u>Years</u>	<u>Amount</u>
2017	\$ 1,910,464
2018	1,675,393
2019	1,519,687
2020	1,577,188
2021	1,528,111
Thereafter	<u>10,736,213</u>
	<u>\$ 18,947,056</u>

5. BUILDING, FURNITURE, EQUIPMENT AND LEASEHOLD IMPROVEMENTS

Building, furniture, equipment and leasehold improvements consist of the following at December 31, 2016:

	<u>Useful Life (in Years)</u>	
Building (condominium)	39	\$ 3,380,000
Computer equipment and software	3	6,313,730
Furniture and fixtures	3 to 5	1,816,311
Leasehold improvements	*	<u>667,812</u>
		12,177,853
Less accumulated depreciation and amortization		<u>(7,592,112)</u>
		<u>\$ 4,585,741</u>

*Such leasehold improvements are being amortized over the expected service life of the assets.

DEVELOPMENT CORPORATION FOR ISRAEL
Notes to Statement of Financial Condition
December 31, 2016

6. EMPLOYER RETIREMENT PLANS

401(k) Savings Plan

All eligible employees are entitled to contribute, on a pretax basis, from 1% to 65% of their annual eligible compensation, up to the Internal Revenue Service ("IRS") limit of \$18,000 for the year ended December 31, 2016, to the 401(k) Savings Plan (the "Plan"). Participants that are at least 50 years old may elect to contribute, on a pretax basis, an additional percentage of their annual eligible compensation, up to the IRS limit of \$6,000 for the year ended December 31, 2016. The Company matches the contributions of those employees who are participating in the Plan dollar for dollar up to 3% of annual eligible compensation of employees that have elected to contribute at least 1% of their annual eligible compensation to the Plan. In addition, the Company has agreed to make a nonelective contribution equal to 4% of annual eligible compensation.

7. NET CAPITAL

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities and Exchange Commission's ("SEC") Uniform Net Capital Rule, the Company is required to maintain minimum net capital. The Company has elected to use the alternative method, permitted by Rule 15c3-1, which requires that the Company maintain minimum net capital, as defined, equal to the greater of \$250,000 or 2% of aggregate debit balance arising from customer transactions. At December 31, 2016, the Company had net capital of \$2,322,037, which exceeded net capital requirements of \$250,000 by \$2,072,037.

In the normal course of its operations, the Company receives checks from investors payable to the State of Israel to purchase the Bonds. The Company transmits the checks received to the State of Israel's fiscal agent. The Company is subject to the computation for reserve requirements for broker-dealers under Rule 15c3-3. At December 31, 2016, the Company did not have any credits or debits under the reserve requirement computation. The Company does not carry any accounts or hold securities on behalf of customers and as such has no information to report related to Possession of Control Under Rule 15c3-3 at December 31, 2016. The Company has a reserve bank account under Rule 15c3-3 in which a \$1,000 balance is maintained.

8. CONCENTRATION OF REVENUES AND CREDIT RISK

Pursuant to various underwriting agreements, the State of Israel pays the Company for its underwriting activities on their behalf.

The Company maintains cash balances with several financial institutions. Certain account balances may not be covered by the FDIC, while other accounts, at times, may exceed federally insured limits. The Company believes that risk from concentration of cash balances with such financial institutions is not significant. At December 31, 2016, the Company maintained deposits of substantially all their cash and cash equivalents with two major United States financial institutions.

DEVELOPMENT CORPORATION FOR ISRAEL
Notes to Statement of Financial Condition
December 31, 2016

9. INCOME TAXES

Deferred income taxes reflect the impact of temporary differences between the amounts of assets and liabilities recorded for financial reporting purposes and such amounts as measured in accordance with tax laws. The items which comprise deferred income taxes as of December 31, 2016, are as follows:

Deferred tax assets (liabilities)

Accrued expenses	\$ 8,000
Capital and fixed assets	(335,000)
Prepaid expenses	(832,000)
Deferred rent payable	290,000
Net operating Loss	507,000
Other	<u>32,000</u>
Deferred income taxes payable	<u>\$ (330,000)</u>

The following represents the changes in deferred taxes for the year ended December 31, 2016:

Deferred income taxes payable, beginning of year	\$ (635,000)
Benefit for deferred income taxes	<u>305,000</u>
Deferred income taxes payable, end of year	<u>\$ (330,000)</u>

The Company adopted the provisions for accounting for uncertain tax positions on January 1, 2009. As required by the uncertain tax position accounting standards, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. At the adoption date and for the year ended December 31, 2016, the Company did not have any material uncertain tax positions for which the statute of limitations remained open. Tax years prior to the year ended December 31, 2013, are no longer open to examination by federal, state and local taxing authorities.

10. NOTE RECEIVABLE

On October 5, 2016, the Company issued a promissory note to Development Company for Israel (Holdings) Limited in the amount of \$350,000, at an interest rate of 1.75% and matures on October 5, 2017.

11. SUBSEQUENT EVENTS

The Company has evaluated events occurring after December 31, 2016 and has concluded that there are no events that require recognition or disclosure in the financial statements.
