INDEPENDENT AUDITORS' REPORT**

DECEMBER 31, 2016

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
of Koonce Securities, LLC

We have audited the accompanying statement of financial condition of as of December 31, 2016, that is filed pursuant to Rule 17a-5 under the Securities Exchange Act of 1934, and the related notes to the financial statements. Koonce Securities, LLC's management is responsible for this financial statement. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. The company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial position, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial position presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial condition of Koonce Securities, LLC as of December 31, 2016 in accordance with accounting principles generally accepted in the United States of America.

KOONCE SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

Koonce Securities, LLC (the "Company") is a broker and dealer in securities located in Bethesda, Maryland. The Company is registered with the Securities and Exchange Commission (SEC) and is a member of Financial Industry Regulatory Authority (FINRA).

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed in the preparation of the accompanying financial statements.

Securities Owned, Securities Sold Not Yet Purchased – Securities owned by the Company are valued at their fair value, determined from quoted market prices. Any unrealized gain or loss is reflected in income.

Realized gains and losses on sales of securities in inventory are calculated by using the average cost method.

Securities transactions (and any related gains or losses on sales) are recorded on a settlement date basis, which is generally the third business day following the date of trade. The effect on net income of using a settlement date basis versus a trade date basis for recording securities transactions is not material.

Property and Equipment – Furniture and equipment are stated at cost, net of \$17,507 accumulated depreciation. Depreciation is calculated using accelerated methods for both financial and tax reporting purposes. All property and equipment were fully depreciated at December 31, 2015.

Leasehold improvements are stated at 0, with no accumulated amortization, and would be amortized using the straight-line method over the remaining life of the lease for financial reporting purposes and over 39 years for tax reporting purposes. All leasehold improvements were fully amortized at December 31, 2015.

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES – Continued

Income Taxes – As an LLC the Company is no longer subject to income taxes.

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due (receivable) plus deferred taxes related primarily to differences between financial and income tax reporting for securities owned, vacation accruals and other items which create recognition timing differences. Deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be deductible or taxable when the assets and liabilities are recovered or settled. The amount of current and deferred taxes payable or refundable is recognized as of the date of the financial statements, utilizing currently enacted tax laws and rates. Deferred tax expenses or benefits are recognized in the financial statements for the changes in deferred tax liabilities or assets between years.

The Company complies with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, Income Taxes which requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed for differences between the financial statement and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on the enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established, when necessary, to reduce the deferred income tax assets to the amount expected to be realized.

ASC 740 provides guidance for how uncertain tax positions should be recognized, measured, presented and disclosed in the financial statements. ASC 740 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as tax benefit or expense in the current year. Generally,

NOTE 2 - RECEIVABLE FROM/PAYABLE TO CUSTOMERS

Accounts receivable from and payable to customers include amounts due or payable on cash and margin transactions. Securities owned by customers are held as collateral for those receivables.

NOTE 3 - SECURITIES OWNED

Securities owned by the Corporation consisted primarily of the stock of DTC (Depository Trust Corporation) at December 31, 2016, as well as \$2500 in DTC preferred stock.

NOTE 4 - FAIR VALUE MEASUREMENT

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement

KOONCE SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS

assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market.

Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels Level 1, Level 2 and Level 3.

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

The following table presents the Company's fair value hierarchy for those assets and liabilities measured at fair value on a recurring basis as of December 31, 2016.

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

Total	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 176,290</u>	<u>\$ 176,290</u>

Level 3 Securities consist of the non-marketable securities held in DTCC (Depository Trust Company) as well as \$2500 in DTC preferred stock. Stock prices are per shareholder agreement with DTCC.

NOTE 10 - NET CAPITAL REQUIREMENTS

The Corporation is subject to the Securities and Exchange Commission's Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Net Capital	\$ 1,120,965
Net Capital Requirement	\$ 250,000
Ratio of Aggregate Indebtedness to Net Capital	0.82%

NOTE 11 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance sheet risk in the event the customer is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

NOTE 12 - CONCENTRATIONS OF CREDIT RISK

The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral, or to reduce positions, when necessary.

The Company's customer securities activities are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and securities in the customers' accounts. In connection with these activities, the Company executes and clears customer transactions involving the sale of securities not yet purchased, all of which are transacted on a margin basis subject to individual exchange regulations. Such transactions may expose the Company to off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customers' obligations.

KOONCE SECURITIES, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016

NOTE 12 - CONCENTRATIONS OF CREDIT RISK (Continued)

The Company is engaged in various trading and brokerage activities whose counterparties primarily include other broker-dealers. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

Cash and cash equivalents consisted of investments in money market mutual funds and cash on deposit with established federally insured financial institutions. Total cash on deposit at various times during the year exceeded the federal deposit insurance limits. The company has never experienced any losses in these accounts and does not believe that it is exposed to any significant concentration of credit risk.

NOTE 13 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through February 24, 2017, the date on which the financial statements were available to be issued. No events have occurred since the balance sheet date that would have material impact on the financial statements.

At July 22, 2014, Koonce Securities, Inc. converted to LLC form. In doing so, the common shares of the company became "Member's Capital" on the balance sheet.

NOTE 14- RESTATEMENT OF OPENING EQUITY

Balances as of January 1, 2016 have been restated to reflect the acquisition of \$2500 of DTC preferred stock, which took place in April, 2014, and was not previously reflected in the firm's balance sheet. The addition of the \$2500 in preferred stock added to the Retained Earnings and the Member's Equity of the firm at that date.
