Note 1 - Significant Accounting Policies

Description of Business

ATIS, Inc. is a registered broker and dealer. As a securities broker and dealer, the Company is engaged in various securities trading and brokerage activities serving a diverse group of individuals. The trading and brokerage activities are provided through the Company's fully-disclosed correspondent relationship with RBC Capital Markets Corporation.

Accounting Method

The accounts of the Company are maintained on the accrual basis of accounting. Commission revenues are recognized based on the transaction date of customer trades regardless of when cash is received. Investment advisory fees are recognized when earned.

Accounting Estimates

The process of preparing financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

Income Taxes

The Company has elected to be taxed under Subchapter S of the Internal Revenue Code. Accordingly, corporate taxable income is taxed at the shareholder level only and there has been no accrual of income taxes. Years prior to 2014 are no longer subject to examination by federal and Indiana tax jurisdictions.

Accounts Receivable

Accounts receivable consists of commission revenues that have been earned but not collected. Management considers accounts receivable to be fully collectable; accordingly, no allowance for doubtful accounts is required. If amounts become uncollectible, they will be charged to operations when the determination is made.

Securities Owned

Securities owned are valued at their quoted market value. Changes in the unrealized gains or losses are included with realized gains and losses in the income statement under the title gain (loss) on securities.

Property and Equipment

Purchases of property and equipment are recorded at their cost. Depreciation of \$3,025 and \$3,176 for the years ended December 31, 2017 and 2016, has been computed using accelerated and straight line methods of depreciation.
