Report of Independent Registered Public Accounting Firm

The Member and Board of Managers
Eze Castle Transaction Services LLC:

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Eze Castle Transaction Services LLC (the Company) as of December 31, 2017. In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2017, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

KPMG LLP

We have served as the Company's auditor since 2013.

EZE CASTLE TRANSACTION SERVICES LLC
(A Wholly Owned Subsidiary of Eze Castle Software LLC)

Notes to Statement of Financial Condition

December 31, 2017

(1) Organization and Description of Business

Eze Castle Transaction Services LLC (the “Company”) is a registered broker-dealer under the Securities Exchange Act of 1934. The Company supplies sell-side brokers with Financial Information eXchange (“FIX”) connectivity services for the transmittal and receipt of trading-related messages between the brokers’ order management system or other electronic order collection systems and the Eze OMS, a software application developed and licensed to buy-side asset managers by Eze Castle Software LLC (“ECS” or “Parent”). Trading messages are sent through electronic connections whether physical, logical, virtual, or sponsored, and including, but not limited to, connections established for orders, indications of interest, notice of execution, drop copies, and connections staged via a third-party intermediary, between buy-side clients and sell-side brokers. The Company is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). FINRA serves as the Company’s self-regulatory organization.

The Company is a wholly owned subsidiary of ECS. ECS is a wholly owned subsidiary of Eze Software Group LLC (“Group”).

(2) Significant Accounting Policies

The statement of financial condition (“financial statement”) has been prepared in accordance with accounting principles generally accepted in the United States (“U.S. GAAP”) and codified in the Accounting Standards Codification (“ASC”), as set forth by the Financial Accounting Standards Board (“FASB”). Significant accounting policies are as follows:

(a) Use of Estimates

The preparation of the financial statement, in conformity with U.S. GAAP, requires management to make estimates and assumptions that affect the amounts reported in the financial statement and accompanying notes. Actual results could differ from those estimates.

(b) Revenue Recognition

The Company accounts for revenue in accordance with ASC Topic 606, *Revenue from Contracts with Customers*. Revenue recognition is determined through the following steps:

1. Identification of the contract, or contracts, with a customer
2. Identification of the performance obligations in the contract
3. Determination of the transaction price
4. Allocation of the transaction price to the performance obligations in the contract
5. Recognition of revenue when, or as, we satisfy a performance obligation.

The Company adjusts revenue in situations where client concessions, rebates, or volume-based discounts may be offered. Revenue is only recognized if the estimates of such modifications can be reasonably and reliably determined. The Company bases its estimates on historical results taking into consideration the type of client, the type of transaction and the specifics of each arrangement.

EZE CASTLE TRANSACTION SERVICES LLC
(A Wholly Owned Subsidiary of Eze Castle Software LLC)

Notes to Statement of Financial Condition

December 31, 2017

Performance Obligations

A performance obligation is a promise in a contract to transfer a distinct good or service to the customer and is the unit of account. A contract's transaction price is allocated to each distinct performance obligation and recognized as revenue when, or as, the performance obligation is satisfied. The Company's contracts have a bundle of performance obligations with a single pattern of transfer to the customer and method of revenue recognition, and are therefore accounted for as a single performance obligation, to which the entire transaction price is attributed.

Connectivity and Transmission Support Revenue

The Company facilitates and supports the transmittal and receipt of trading-related messages to and from clients, who are counterparties that interact with users of ECS' subscription software and SaaS services. Clients are charged fixed monthly fees per connection and/or a monthly usage fee based on the volumes of trades supported by a connection, which may trigger maximum flat-fee charges or caps if the volume is greater than the agreed levels. Contracts with our clients generally have an initial term of one to three years and automatically renews annually thereafter unless affirmatively cancelled by the Company or the client. Trading connectivity clients are billed on a monthly basis for the services delivered based on the usage of and trading volume associated with the services. Fees are billed monthly in arrears, but accrued as earned. Revenue for trading connectivity services is recognized as the service is provided. Earned but unbilled fees are included in receivables and unbilled revenue on the statement of financial condition.

Net Revenue

The Company bills clients for certain pass-through fees relating to market data charges and sales tax. In these transactions, the Company acts as a collection agent for various stock exchanges or state and local taxing authorities, respectively. The Company presents these revenues on a net basis on the statement of income.

(c) Allowance for Doubtful Accounts

The allowance for doubtful accounts is based on the Company's assessment of the collectability of receivables from and unbilled revenue. The Company considers factors such as historical experience, credit quality, age of balances, and current economic conditions that may affect collectability in determining the allowance for doubtful accounts.

(d) Fair Value of Financial Instruments

The carrying amounts reported on the statement of financial condition for cash represents its fair value based on its on-demand nature. Other assets and liabilities with short and intermediate-term maturities and defined settlement amounts, including receivables, payables, and accrued liabilities, are reported at their contractual amounts, which approximate fair value.

(e) Other Assets

Other assets consist primarily of prepaid expenses.

EZE CASTLE TRANSACTION SERVICES LLC
(A Wholly Owned Subsidiary of Eze Castle Software LLC)

Notes to Statement of Financial Condition

December 31, 2017

(f) Income Taxes

The Company is a single member limited liability company and is treated as a disregarded entity for federal, state, and local income tax purposes. The Company's income tax provision is calculated in accordance with the tax sharing agreement ("TSA") between Group and the Company, which specifies that the Company is responsible for a portion of Group's income tax expense based on the Company's apportioned income in each jurisdiction. Group, as the taxpayer of record, is responsible for payment of state and local income taxes to the taxing authorities. There is no federal income tax liability because the Company's ultimate single member, Group, is a partnership for U.S. tax purposes. A partnership is generally not subject to federal, state, or local income taxes with the exception of certain unincorporated business taxes and minimum state taxes. For federal and state income tax purposes, the ultimate members of Group are responsible for reporting their allocable share of the Company's income, gain, losses, deductions, and credits on their tax return. The Company also had no state income or unincorporated business tax expense in the current year.

(g) Recent Accounting Developments

In May 2014, the FASB issued Accounting Standards Update ("ASU") No. 2014-09, *Revenue from Contracts with Customer (Topic 606)*. Topic 606 supersedes existing revenue recognition guidance and requires the recognition of revenue when promised goods or services are transferred to the customer in an amount that reflects the considerations to which the entity expects to be entitled to in exchange for those goods or services. ASU No. 2014-09 also includes Subtopic 340-40, *Other Assets and Deferred Costs – Contracts with Customers*, which requires the deferral of incremental costs of obtaining a contract with a customer.

The Company adopted the requirements of ASU No. 2014-09 as of January 1, 2017, utilizing the full retrospective method of transition. The adoption of ASU No. 2014-09 did not have a material effect on the Company's financial statements.

(3) Financial Instruments

All financial instruments are measured and reported on a fair value basis. The ASC defines fair value and establishes a framework for measuring fair value, as well as a fair value hierarchy based on inputs used to measure fair value.

This hierarchy requires the Company to use observable market data, when available, and to minimize the use of unobservable inputs when determining fair value.

Fair Value Hierarchy

Financial assets and liabilities are classified based on inputs used to establish fair value as follows:

- Level 1: Valuation inputs are unadjusted quoted market prices for identical assets or liabilities in active markets
- Level 2: Valuation inputs are quoted prices for identical assets or liabilities in markets that are not active, quoted market prices for similar assets and liabilities in active markets and other valuation

EZE CASTLE TRANSACTION SERVICES LLC
(A Wholly Owned Subsidiary of Eze Castle Software LLC)

Notes to Statement of Financial Condition

December 31, 2017

techniques utilizing observable inputs directly or indirectly related to the asset or liability being measured

Level 3: Valuation techniques utilize inputs that are unobservable and significant to the fair value measurement.

At December 31, 2017, the Company did not own any financial assets or liabilities other than cash and cash equivalents or other assets and liabilities with short and intermediate term maturities and defined settlement amounts. Per the Company's accounting policies (note 2), the carrying amounts of cash and other assets and liabilities with defined settlement amounts are reported at their contractual amounts, which approximates fair value.

(4) Related-Party Transactions

In the normal course of business, the Company enters into related-party transactions with affiliates, including ECS, and certain other affiliated entities.

Under the Connectivity Services Agreement ("CSA") with ECS, the Company agrees to pay ECS a partnership fee for the support services and related technology rights provided to the Company in order for it to render FIX connectivity services. The fees charged by ECS are calculated based upon a flat fee and the eligible number of FIX connections as determined by the CSA.

Under the Servicing Agreement with ECS and Group, ECS and Group assist the Company by providing it with certain administrative and other services and, in turn, the Company agrees to pay ECS a monthly servicing fee to cover such expenses. The service fees charged by ECS are determined through calculated allocations.

At December 31, 2017, the Company owed ECS \$141,500, which is reflected in due to affiliates on the statement of financial condition.

At December 31, 2017, Group and Eze Castle Software, Inc. ("Eze Inc."), had \$686,951,777 of debt outstanding. ECS's ownership interest in the Company was pledged as security against the debt.

(5) Regulatory Requirements

The Company is subject to the SEC's Uniform Net Capital Rule ("Rule 15c3-1"), which requires that the Company maintain minimum net capital, as defined thereunder, of one-fifteenth of aggregate indebtedness, as defined thereunder, or \$5,000, whichever is greater. At December 31, 2017, the Company had net capital of \$2,469,961, which was \$2,434,753 in excess of its minimum net capital requirement of \$35,208. The Company's aggregate indebtedness to net capital ratio was 0.21 to 1.

Advances to affiliates, repayment of borrowings, distributions, dividend payments, and other equity withdrawals are subject to certain notification and other requirements of Rule 15c3-1 and other regulatory bodies.

EZE CASTLE TRANSACTION SERVICES LLC
(A Wholly Owned Subsidiary of Eze Castle Software LLC)

Notes to Statement of Financial Condition

December 31, 2016

The Company is exempt from the provisions of Rule 15c3-3 pursuant to paragraph k(1) under the Securities Exchange Act of 1934 as it does not hold funds or securities of its customers and conducts limited business.

(6) Commitments and Contingencies

The Company is involved in legal proceedings concerning matters arising in connection with the conduct of the Company's businesses. The Company believes, based on currently available information and advice of counsel, that the results of such proceedings, in the aggregate, will not have a material adverse effect on the Company's financial statement. The Company intends to defend itself vigorously against all claims asserted in these matters.

(7) Concentration of Credit Risk

The Company may maintain cash and cash equivalents at financial institutions in excess of federally insured limits. The Company has not experienced any losses in such accounts and does not believe it is exposed to significant credit risks.

(8) Guarantees

In the ordinary course of business, the Company enters into standard indemnification agreements. Pursuant to these agreements, the Company indemnifies, holds harmless, and agrees to reimburse the indemnified party for certain losses suffered or incurred by the indemnified party, generally the Company's business partners or customers, in connection with certain claims by any third party with respect to the Company's products or services. The term of these indemnification agreements is generally perpetual any time after execution of the agreement. The maximum potential amount of future payments the Company could be required to make under these indemnifications agreements is unlimited. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statement for these indemnifications.

(9) Subsequent Events

The Company makes regular distributions to ECS based on estimated profits. The distribution declared and paid in January 2018 was \$5,300,000.

The Company has evaluated all subsequent events through February 21, 2018, the date of issuance of the financial statement, and has determined that no other subsequent events have occurred that would require disclosure in the financial statement or accompanying notes.
