INDEPENDENT INVESTMENT BANKERS CORP.

Notes to the Financial Statements

December 31, 2017

Note 1 - Nature of Business

Independent Investment Bankers Corp. (the "Company"), a Delaware Corporation, is a broker-dealer in securities registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company operates under the provisions of Paragraph K(2)(i) of Rule 15c3-3 of the SEC, and accordingly is exempt from the remaining provisions of that Rule. The Company is a limited purpose broker dealer and is primarily engaged in the business of providing registered investment banking professionals a platform to assist private and public companies obtain equity/debt capital or liquidity or growth through mergers or acquisition. Offerings are made primarily to institutional investors.

Note 2 - Significant Accounting Policies

Basis of Accounting

These financial statements are presented on the accrual basis of accounting in accordance with generally accepted accounting principles whereby revenues are recognized in the period earned and expenses when incurred.

Cash Equivalents

For purposes of the statements of cash flows, the Company considers short-term investments, which may be withdrawn at any time without penalty, which will become available within three months or less from the date of the financial statements, to be cash equivalents.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

Commissions are recognized on an accrual basis and are included in income as commissions are earned from the completion of transactions or as payments are received per agreement with the client. The Company is evaluating the revenue recognition standards for brokers and dealers and will be implementing the new standards as required.

Property and Equipment

Property and equipment are recorded at cost and are depreciated using the straight-line depreciation method over their estimated useful lives. Computers and equipment are depreciated over three years. Upon disposal, property and equipment and the related accumulated depreciation and amortization are removed from the accounts and the resulting gain or loss is reflected in the statements of operations.

Fair Value Measurements

The carrying amounts of the Company's financial instruments, which include cash and cash equivalents other assets, accounts payable and accrued expenses, approximate their fair values due to their short maturities.

INDEPENDENT INVESTMENT BANKERS CORP.

Notes to the Financial Statements

December 31, 2017

Note 2 - Significant Accounting Policies (continued)

Income Taxes

The Company accounts for income taxes using the asset and liability method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws that will be in effect when the asset or liability is expected to be realized or settled. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized.

In the ordinary course of business, there are many transactions for which the ultimate tax outcome is uncertain. The Company regularly assesses uncertain tax positions in each of the tax jurisdictions in which it has operations and accounts for the related financial statement implications. Unrecognized tax benefits are reported using the two-step approach under which tax effects of a position are recognized only if it is "more-likely-than-not" to be sustained and the amount of the tax benefit recognized is equal to the largest tax benefit that is greater than fifty percent likely of being realized upon ultimate settlement of the tax position. Determining the appropriate level of unrecognized tax benefits requires the Company to exercise judgment regarding the uncertain application of tax law. The amount of unrecognized tax benefits is adjusted when information becomes available or when an event occurs indicating a change is appropriate. The Company includes interest and penalties related to its uncertain tax positions as part of income tax expense, if any. There are no uncertain tax positions as of December 31, 2017.

The Company has not changed any of its tax accrual estimates. The Company files U.S. federal and U.S. state tax returns.

The Company is subject to Texas franchise tax, which is based on taxable margin, rather than being based on federal taxable income. For the year ended December 31, 2017, the Company recorded \$0 in Texas margin tax expense.

Management Review

The Company has evaluated subsequent events through the date of the Report of Independent Registered Public Accounting Firm, the date the financial statements were available to be issued.

Recent Accounting Pronouncements

Revenue recognition In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification 606, Revenue from Contracts with Customers ("ASC 606"). The new accounting standard, along with its related amendments, replaces the current rules-based U.S. GAAP governing revenue recognition with a principles-based approach. The Company adopted the new standard on January 1, 2018 using the modified retrospective approach, which requires the Company to apply the new revenue standard to (i) all new revenue contracts entered into after January 1, 2018 and (ii) all existing revenue contracts as of January 1, 2018 through a cumulative adjustment to equity. In accordance with this approach, our revenues for periods prior to January 1, 2018 will not be revised. The core principle in the new guidance is that a company should recognize revenue in a manner that fairly depicts the transfer of goods or services to customers in amounts that reflect the consideration the company expects to receive for those goods or services. In order to apply this core principle, companies will apply the following five steps in determining the amount of revenues to recognize: (i) identify the contract; (ii) identify the performance obligations in the contract; (iii) determine the transaction price; (iv)

INDEPENDENT INVESTMENT BANKERS CORP.

Notes to the Financial Statements

December 31, 2017

allocate the transaction price to the performance obligations in the contract; and (v) recognize revenue when (or as) the performance obligation is satisfied. Each of these steps involves management's judgment and an analysis of the material terms and conditions of the contract. We do not anticipate that there will be material differences in the amount or timing of revenues recognized following the new standard's adoption date. Although total revenues may not be materially impacted by the new guidance, we do anticipate significant changes to our disclosures based on the additional requirements prescribed by ASC 606. These new disclosures include information regarding the significant judgments used in evaluating when and how revenue is (or will be) recognized and data related to contract assets and liabilities.

Note 3 - Property and Equipment

Property and equipment consists of the following at December 31, 2017:

Computers and equipment	<u>\$ 36,715</u>
Subtotal	36,715
Less accumulated depreciation and amortization	<u>(18,131)</u>
Total	<u>\$ 18,584</u>

Depreciation expense for the year ended December 31, 2017 was \$8,847.

Note 4 - Commitments and Contingencies

On December 16, 2016, the Company entered into a 12-month lease. Total rent expense under the lease was \$7,334 for the year ended December 31, 2017. As of December 31, 2017, the Company has future minimum lease payment of \$3,384 for the year ending December 31, 2018.

Litigation

The Company from time to time maybe involved in litigation relating to claims arising out of its normal course of business. Management believes that there are no claims or actions pending or threaten against the Company, the ultimate disposition of which would have a material impact on the Company's financial position, results of operations or cash flows.

Risk Management

The Company maintains various forms of insurance that Company's management believes are adequate to reduce the exposure to these risk to an acceptable level.

Note 5 - Net Capital Requirements

The Company is subject to the SEC uniform net capital rule ("Rule 15c3-1"), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2017, the Company had net capital and net capital requirements of \$67,095 and \$38,905, respectively, which was \$28,190 in excess of the required minimum. The Company's aggregate indebtedness to net capital ratio was 869.79 to 1.

Notes to the Financial Statements

Note 6 - Income Taxes
