**MUTUAL TRUST COMPANY OF AMERICA SECURITIES
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**

NOTE 1- ORGANIZATION AND NATURE OF BUSINESS

Mutual Trust Company of America Securities (the Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and a member of the Financial Industry Regulatory Authority (FINRA). The Company was incorporated in Florida on June 23, 1980. The Company is a broker/dealer registered with the Securities and Exchange Commission and engaged in the business of selling securities including stock, bonds and other marketable securities.

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of presentation – The accompanying financial statements of the Organization have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates – The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and reported amounts of revenues and expenses. These estimates are based on management's knowledge and experience. Actual results could differ from estimates.

Fair value of financial instruments – The Company uses a three level valuation hierarchy for disclosures of fair value measurements and enhances disclosure requirements for fair value measures. The estimated fair value of the Company's cash and cash equivalents, commissions receivable and commissions payable at December 31, 2017 approximates their respective value in these financial statements due to their relatively short holding periods.

Cash and cash equivalents – The Company considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents. The Company maintains cash balances in insured financial institutions. Cash account balances may exceed amounts insured by the Federal Deposit Insurance Corporation at any given time. At December 31, 2017, cash deposits exceed federally insured limits by approximately \$825,000. The deposits with clearing firms are maintained at a highly capitalized, national clearing firm that is also regulated by FINRA. The Company believes this concentration of credit risk is mitigated by the overall financial strength of the clearing firm. At December 31, 2017, deposit held with clearing firms was \$733,670.

Impairment of long-lived assets – Long-lived assets are reviewed for possible impairment on an annual basis or whenever adverse events or circumstances indicate the carrying value of an asset may not be recoverable. Where indications of impairment are identified, management determines whether impairments are present by comparing carrying amounts to the undiscounted future cash flows at the lowest discernible level. Impairment charges, if present, are calculated upon discounted cash flows or fair value, whichever is more readily available.

Revenue recognition – The Company generates revenue in the form of commissions earned on security sales. Revenue is recorded as earned and commissions earned but not received are booked as accounts receivable and maintained as a current asset. Sales of securities and bonds are recorded upon order confirmations and the resulting gain or loss is realized in the period the transaction is completed. Unrealized gains and losses are recorded on a market basis compared to cost basis.

**MUTUAL TRUST COMPANY OF AMERICA SECURITIES
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Expense recognition – Expenses are recorded as incurred. Any expense incurred but not paid in the current operating cycle is recorded as a current liability in accounts payable. Direct costs include commissions paid to brokers and management fees.

Income taxes – The Company has elected under Subchapter S of the Internal Revenue Code to be treated as a disregarded entity for purposes of income taxation. As a disregarded entity, all elements of income and expense of the Company are allocated to the Owner and reported on his individual income tax return. Accordingly, there is no provision for income taxes in these financial statements. The Company is open to review generally three years after the filing date of the return.

Recent Pronouncements - The Financial Accounting Standards Board and other entities have issued new or modifications to, or interpretations of, existing accounting guidance during 2017. Management has carefully considered the new pronouncements that altered generally accepted accounting principles and does not believe that any will have a material impact on the Company's reported financial position or operations in the near term.

In May 2014, ASU No. 2014-09, “*Revenue from Contracts with Customers*” (“ASU 2014-09”) was issued. The amendments in ASU 2014-09 affect any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). This ASU will supersede the revenue recognition requirements in ASC 605, “*Revenue Recognition*,” and most industry-specific guidance.

The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply the following steps:

Step 1: Identify the contract(s) with a customer.

Step 2: Identify the performance obligations in the contract.

Step 3: Determine the transaction price.

Step 4: Allocate the transaction price to the performance obligations in the contract.

Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

ASU 2014-09 is effective for annual reporting periods after December 15, 2017 including interim periods within that reporting period.

**MUTUAL TRUST COMPANY OF AMERICA SECURITIES
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**

NOTE 2- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Recent Pronouncements (Continued)

Our company will adopt this new standard effective for the calendar year 2018. The Company will disclose qualitative and quantitative information on all of the following in regard to our contract with a customer.

- a. Revenue recognized from contracts with customers.
- b. Any impairment losses recognized on any receivables or contract assets arising from the firm's contracts with customers.
- c. The opening and closing balances of receivables, contract assets, and contract liabilities from contracts with customers.
- d. Revenue recognized in the reporting period that was included in the contract liability balance at the beginning of the period.
- e. Revenue recognized in the reporting period from performance obligations satisfied (or partially satisfied) in previous periods.
- f. Significant changes in the contract asset or liability balances during the reporting period.
- g. Performance obligation in contracts with customers

At this time, it is not known nor can it be reasonably estimated what the impact of this standard's adoption will have on our Company. Management believes the effect on our current accounting policies will be immaterial as our current accounting for revenue from our customer contracts does not materially differ from the new standard..

NOTE 3- FAIR VALUE MEASUREMENTS

The Company's assets recorded at fair value have been categorized based upon a fair value hierarchy in accordance with ASC 820-10, *Fair Value Measurement*. Fair value is defined as the price that would be received to sell an asset or would be paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measure date.

ASC 820-10 established a three-level hierarchy for fair value measurements that distinguishes between market participant assumptions developed based on market data obtained from sources independent of the reporting entity (observable inputs) and the reporting entity's own assumptions about market participant assumptions developed based on the best information available in the circumstances (unobservable inputs). The hierarchy level assigned to each security held by the Company is based on the assessment of the transparency and reliability of the inputs used in the valuation of such security at the measurement date.

**MUTUAL TRUST COMPANY OF AMERICA SECURITIES
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**

NOTE 3- FAIR VALUE MEASUREMENTS (Continued)

The three hierarchy levels are defined as follows:

Level 1 – Valuations based on unadjusted quoted market prices in active markets for identical securities.

Level 2 – Valuations based on observable inputs (other than Level 1 prices), such as quoted prices for similar assets at the measurement date; quoted prices in markets that are not active; or other inputs that are observable, either directly or indirectly.

Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement, and involve management judgment.

When available the Company measures fair value using level I inputs because they generally provide the most reliable evidence of fair value.

NOTE 4 – RELATED PARTY TRANSACTIONS

The Company does not own or lease property or lease office space. The Company shares office space with several non-affiliated entities under a verbal cost sharing agreement. In exchange for office space, the services of the Owner's assistant and certain other office expenses are exchanged for certain clearing fees and commissions. Under the agreement, no revenue or expenses have been recognized for the shared services.

The Company does not have employment contracts with its key employees, including the controlling member who is an officer of the Company. The Company pays a management fee to an affiliated entity for the services of its President. Management fees of \$600,000 were paid in 2017 for these services. The amounts and terms of the above transactions may not necessarily be indicative of the amounts and terms that would have been incurred had comparable transactions been entered into with independent third parties.

NOTE 5 – NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, as defined, shall not exceed 15 to 1. At December 31, 2017 we had net capital of \$2,001,092 which was \$1,901,092 in excess of the required net capital of \$100,000. The ratio of aggregate indebtedness to net capital was 0.0160 to 1 or 1.60% at December 31, 2017.

NOTE 6 – CONCENTRATIONS OF CREDIT RISK

The Company engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty, or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standings of each counterparty.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017**

NOTE 7 – COMMITMENTS AND CONTINGENCIES

COMMITMENTS

The Company does not own or lease property or lease office space, therefore there were no commitments necessary for disclosure.

LITIGATION

From time to time, the Company may be involved in legal proceedings arising in the ordinary course of business. The Company was not involved in any litigation at the time of the audit completion.

NOTE 8 – SUBSEQUENT EVENTS

The Company has performed an evaluation of events that have occurred subsequent to December 31, 2017, and through February 22, 2018, the date the filing of this report. There have been no material subsequent events that occurred during such period that would require disclosure in this report or would be required to be recognized in the financial statements as of December 31, 2017.
