REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of Romano Brothers and Company

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of Romano Brothers and Company (the Company) as of December 31, 2017, and the related notes and supplemental schedules (collectively referred to as the financial statement). In our opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Romano Brothers and Company as of December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of Romano Brothers and Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to Romano Brothers and Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We have served as Romano Brothers and Company's auditor since 1996.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

Supplemental Information

The Supplemental Schedules (the "supplemental information") has been subjected to audit procedures performed in conjunction with the audit of Romano Brothers and Company's financial statement. The supplemental information is the responsibility of Romano Brothers and Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statement or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the Supplemental Schedules are fairly stated, in all material respects, in relation to the financial statement as a whole.

ROMANO BROTHERS AND COMPANY

Notes to Statement of Financial Condition

December 31, 2017

1. Organization and Business

Romano Brothers and Company (the "Company") was incorporated in the State of Illinois on October 2, 1968. The Company is a registered securities broker-dealer and a registered investment advisor.

2. Summary of Significant Accounting Policies

The Company's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and are stated in U.S. dollars. The following is a summary of the significant accounting policies used in preparing the financial statements:

Revenue Recognition and Financial Instruments Valuation

Commission revenue and related expenses on equity securities are recorded as earned on an accrual basis. Securities transactions and related revenue and expenses are recorded on a trade date basis and, accordingly gains and losses are recorded on unsettled transactions. Management fee income is recorded on an accrual basis. All financial instruments are recorded in the statement of financial condition at fair value in accordance with Accounting Standards Codification ("ASC 820") - Fair Value Measurement and Disclosures (see Note 3).

Depreciation

Furniture and equipment is being depreciated over the estimated useful lives of the assets using the straight-line method.

Use of Estimates

The preparation of financial statements in conformity with United State Generally Accepted Accounting Principles ("U.S. GAAP") requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the accompanying notes. Management determines that the estimates utilized in preparing its financial statements are reasonable and prudent. Actual results could differ from these estimates.

Income Taxes

For income tax reporting purposes, the Company has elected to file as a small business corporation under Subchapter S of the Internal Revenue Code. Accordingly, no provision for federal income taxes has been made in the financial statements as the taxable income is included in the stockholders' individual income tax returns.

In accordance with U.S. GAAP, the Company is required to determine whether its tax positions are more likely than not to be sustained upon examination by the applicable taxing authority, based on the technical merits of the position. Generally, the Company is no longer subject to income tax examinations by major taxing authorities for the years before 2014. Based on its analysis, there were no tax positions identified by management which did not meet the "more likely than not" standard as of and for the year ended December 31, 2017.

ROMANO BROTHERS AND COMPANY

Notes to Statement of Financial Condition, Continued

December 31, 2017

3. Fair Value Measurement and Disclosure

Accounting Standards Codification 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Partnership has the ability to access.
- Level 2 inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Partnership's own data.

The following table presents the Company's fair value hierarchy for those assets measured at fair value on a recurring basis as of December 31, 2017:

	Fair Value	Level 1	Level 2
Common Stocks	2,027,527	2,027,527	-
Municipal Bonds	414,945		414,945
Total:	\$2,442,472	\$2,027,527	\$414,945

ROMANO BROTHERS AND COMPANY

Notes to Statement of Financial Condition, Continued

December 31, 2017

4. Clearing Agreements

The Company has entered into a fully disclosed clearing agreement with First Clearing, a trade name of Wells Fargo Clearing Services, LLC, ("First Clearing"), whereby First Clearing will offer certain clearing, execution and related services for transactions in securities. The Company has a potential termination fee with First Clearing until September 30, 2022. Management does not anticipate early termination of the clearing agreement.

5. Credit Concentration

At December 31, 2017, a significant credit concentration consisted of approximately \$2.4 million, representing the fair value of the Company's accounts carried by its clearing firm, First Clearing. Management does not consider any credit risk associated with this receivable to be significant.

6. Guarantees

Accounting Standards Codification 460 ("ASC 460"), Guarantees, requires the Company to disclose information about its obligations under certain guarantee arrangements. ASC 460, defines guarantees as contracts and indemnification agreements that contingently require a guarantor to make payments to the guaranteed party based on changes in underlying (such as an interest or foreign exchange rate, security or commodity price, an index or the occurrence or nonoccurrence of a specified event) related to an asset, liability or equity security of a guaranteed party. This guidance also defines guarantees as contracts that contingently require the guarantor to make payments to the guaranteed party based on another entity's failure to perform under an agreement, as well as indirect guarantees of the indebtedness of others.

Other Guarantees

Customer transactions are introduced to and cleared through the Company's brokers on a fully disclosed basis. Under the terms of its clearing agreements, the Company is required to guarantee the performance of its customers in meeting contracted obligations. In conjunction with the broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines and, pursuant to such guidelines, customers may be required to deposit additional collateral, or reduce positions, where necessary. The maximum potential amount of future payments that the Company could be required to make under these guarantees cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements.

7. Credit Risk

Commissions receivable represent a concentration of credit risk. The Company does not anticipate nonperformance by its customers or brokers. In addition, the Company has a policy of reviewing, as considered necessary, the creditworthiness of the brokers with which it conducts business.

ROMANO BROTHERS AND COMPANY

Notes to Financial Statements, Continued

December 31, 2017

8. Commitments and Contingencies

The Company conducts its operations in leased office facilities and annual rentals are charged to current operations. The lease is subject to an escalation clause based on the operating expenses of the lessor.

In the normal course of business, the Company is subject to compliance and regulatory inquiries that may result in censures and fines. Management believes resolutions to any inquiries will not result in any material adverse effect on the financial position or results of operations of the Company.

9. Profit Sharing Plan

The Company has a profit sharing plan covering substantially all eligible employees. The Company's contribution is discretionary.

10. Net Capital Requirements

The Company is a broker-dealer subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1). Under this rule, the Company is required to maintain "net capital" equivalent to \$100,000 or 6% of "aggregate indebtedness," whichever is greater, as these terms are defined.

At December 31, 2017, the Company had net capital and net capital requirements of \$2,389,001 and \$100,000, respectively.

11. Subsequent Events

The Company's management has evaluated events and transactions through February 26, 2018, the date the financial statements were issued, noting no material events requiring disclosure in the Company's financial statements.

SUPPLEMENTARY SCHEDULES

ROMANO BROTHERS AND COMPANY
