PART III

NOTES TO FINANCIAL STATEMENT

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Organization and Operation – Brown, Gibbons, Lang & Company Securities, Inc. (the "Company") was incorporated on July 29, 1991 under the name of BG Securities, Inc. The name was later changed to Brown, Gibbons, Lang & Company Securities, Inc. The Company conducts an investment banking business and acts as agent in securities transactions with qualified institutional investors. The Company is a registered broker dealer with the Securities and Exchange Commission, the Financial Industry Regulatory Authority, the State of Ohio Division of Securities and the Illinois Securities Department.
- B. Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- C. Cash and Cash Equivalents – The Company considers money market funds to be cash equivalents. The Company places its temporary cash investments with financial institutions, which, at times, may exceed federally insured limits.
- D. Accounts Receivable – The Company extends unsecured credit to customers under normal trade agreements which generally require payment within 30 days. At December 31, 2017, accounts receivable includes estimated additional future fee collections on earn-out provisions related to deal closings that occurred in 2017. The Company has not provided an allowance for doubtful accounts. The Company uses the direct write-off method to record bad debts. Based upon management's review of delinquent accounts and an assessment of the Company's historical evidence of collections, this method does not differ significantly from the allowance method. There were no bad debts for the year ended December 31, 2017.
- E. Fee Income – Fee income is contingent upon the realization of predetermined contractual results; consequently, fees are recognized when the earning process is complete.
- F. Income Taxes – Effective April 1, 1996, the Company elected to be taxed under the provisions of subchapter S of the Internal Revenue Code. Under these provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholders are liable for individual federal and state income taxes on their respective shares of the Company's taxable income. The Company is responsible for local income taxes.

The Company does not have any significant unrecognized tax benefits as of December 31, 2017. The Company's income tax returns remain subject to examination by the Internal Revenue Service, as well as applicable state and local taxing authorities, generally for three years.

NOTES TO FINANCIAL STATEMENT (CONTINUED)

NOTE 6. RECENTLY ISSUED PRONOUNCEMENTS NOT YET EFFECTIVE

In February 2016, ASU 2016-02, Leases (ASU 2016-02) was issued which requires the lessee to recognize most leases on the balance sheet thereby resulting in the recognition of lease assets and liabilities for those leases currently classified as operating leases. The accounting for leases where we are the lessor is largely unchanged. ASU 2016-02 is effective for annual reporting periods beginning after December 15, 2019 with early adoption permitted. We do not believe that ASU 2016-02 will have a significant impact on our financial statements.

Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments (ASU 2016-13), was issued that requires entities to use a Current Expected Credit Loss model which is a new impairment model based on expected losses rather than incurred losses. Under this model, an entity would recognize an impairment allowance equal to its current estimate of all contractual cash flows that the entity does not expect to collect from financial assets measured at amortized cost. The entity's estimate would consider relevant information about past events, current conditions and reasonable and supportable forecasts, which will result in recognition of lifetime expected credit losses. ASU 2016-13 is effective for interim and annual reporting periods beginning after December 15, 2020 with early adoption permitted for annual reporting periods beginning after December 15, 2018. We do not believe that ASU 2016-13 will have a significant impact on our financial statements.

In May 2014, the FASB issued ASU 2014-09, a new standard related to revenue recognition. Under the new standard, revenue is recognized when a customer obtains control of promised goods or services and is recognized in an amount that reflects the consideration which the entity expects to receive in exchange for those goods or services. In addition, the standard requires disclosure of the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The new standard will be effective for annual reporting periods beginning after December 15, 2018. We expect to adopt the standard using the modified retrospective method and we do not believe that this standard will have a significant impact on our financial statements.
