LIFEMARK SECURITIES CORPORATION
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017

1. THE COMPANY

LifeMark Securities Corp. (Company) is a broker/dealer registered with the Securities and Exchange Commission (SEC). The Company is a member of the Financial Industry Regulatory Authority (FINRA) and is registered to solicit business in fifty states. The Company, which maintains six offices in three states, is an “introducing broker” and primarily earns commissions by selling financial instruments to retail and institutional customers.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Company reports on the accrual basis of accounting which recognizes revenues when earned and expenses when incurred.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash – For the purposes of reporting cash flows and amounts in the Statement of Financial Condition, the Company defines cash as cash on hand and demand deposits. Cash equivalents are reported as securities owned at fair value in the Statement of Financial Condition.

Commissions Receivable – The Company has commission receivables that arise from the buying and selling of financial instruments for its clients. Losses from uncollectible receivables shall be accrued when it is probable that a receivable is impaired and the amount of the loss can be reasonably estimated. As of the date of the financial statements, management believes that all commissions receivable are collectible, and as such no provision for uncollectible receivables has been recorded in these financial statements.

Accounts Receivable - Accounts receivable consists of reimbursable expenses due from brokers and registered representatives and are secured by commissions earned by representatives, and ultimately by agreements with the representatives’ Office of Supervisory Jurisdiction. Accounts receivable are periodically reviewed to determine if any accounts receivable will potentially be uncollectible. After all attempts to collect a receivable have failed, the receivable is written off as a bad debt expense. Bad debt expense was \$27,267 for the year ended December 31, 2017. Management has recorded an allowance for doubtful accounts in the amount of \$90,351 at December 31, 2017.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Property, Equipment and Depreciation – Property and equipment are stated at cost. When retired or otherwise disposed of, the related cost and accumulated depreciation are cleared from the respective accounts and the net difference, less any amount realized from the disposition, is reflected in the Statement of Operations.

Depreciation is computed using straight-line and declining balance methods over the following estimated useful lives:

Computers	5 years
Equipment, furniture and fixtures	7 years

Income Taxes – The Company filed its income tax as a sub-chapter S Corporation through December 31, 2014. The Company terminated its sub-chapter S election effective January 1, 2015. The Company is now organized as a “C” Corporation, and pays Federal and State income taxes on its income based on rates currently in effect. The Company adopted the provisions of Financial Accounting Standards Board, Accounting Standards Codification (FASBASC) 740-10 pertaining to accounting for uncertainty in income taxes. Federal and state tax authorities generally have the right to examine and audit the previous three years of tax returns filed. Any interest and penalties assessed to the Company would be recorded in operating expenses. No such items have been recorded in 2017. Management is not aware of any uncertain tax positions requiring measurement or disclosure in these financial statements.

Advertising Costs – The Company expenses all advertising and marketing costs when incurred. Advertising and marketing expenses for the year ended December 31, 2017 were \$ 750.

Revenue Recognition – Security transactions are recorded on a trade date basis. Commission income and expenses are reflected in the financial statements as of the trade date. Trailer commission revenue and related expenses are recorded on an accrual basis. Investment advisory fees are received quarterly but are recognized as earned over the terms of the contract.

Restricted Deposits – The Company has a restricted deposit with its clearing company. The deposit has no encumbrances and earns yearly interest. The deposit is refundable when the Company ceases doing business with the clearing company.

3. FAIR VALUE

The fair value of the Company’s financial instruments is determined by using available market information and appropriate valuation methodologies. The Company’s principal financial instruments are cash, cash surrender value of officer life insurance, accounts receivable, and accounts payable. At December 31, 2017, cash, cash surrender value of officer life insurance, accounts

NOTES TO FINANCIAL STATEMENTS

3. FAIR VALUE (CONT'D)

receivable, and accounts payable, due to their short maturities, and liquidity, are carried at amounts which reasonably approximate fair value.

The Company measures the fair value of its financial instruments using the procedures set forth below for all assets and liabilities that fall in the scope of this accounting guidance.

Under FASB ASC 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

FASB ASC 820 establishes a three-level hierarchy for disclosure to show the extent and level of judgment used to estimate fair value measurements.

Level 1 - Uses unadjusted quoted prices that are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions for the asset or liability occur in sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 - Uses inputs, other than Level 1, that are either directly or indirectly observable as of the reporting date through correlation with market data, including quoted prices for similar assets and liabilities in active markets and quoted prices in markets that are not active. Level 2 also includes assets and liabilities that are valued using models or other pricing methodologies that do not require significant judgment since the input assumptions used in the models, such as interest rates and volatility factors, are corroborated by readily observable data. Instruments in this category include non-exchange-traded derivatives, including interest rate swaps.

Level 3 - Uses inputs that are unobservable and are supported by little or no market activity and reflect the use of significant management judgment. These values are generally determined using pricing models for which the assumptions utilize management's estimates of market participant assumptions.

As of December 31, 2017, all financial instruments are recorded at cost which approximates fair value due to short term maturities. As such, the fair value hierarchy has not been applied in valuing any financial instruments.

4. PROPERTY AND EQUIPMENT

Property and equipment consists of the following at December 31, 2017:

12 RECENT ACCOUNTING PRONOUNCEMENTS

In May 2014, the FASB issued an accounting update to clarify the principles of revenue recognition, to develop a common revenue recognition standard across all industries for U.S. GAAP and International Financial Reporting Standards and to provide enhanced disclosures for users of the financial statements. The core principle of this guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. This guidance is effective for the Company beginning January 1, 2018. The Company is currently evaluating the potential impact of adopting this accounting standard update.
