Opinion on the Financial Statement

I have audited the accompanying statement of financial condition of Profor Securities, LLC as of December 31, 2017, and the related notes (collectively referred to as the financial statement). In my opinion, the statement of financial condition presents fairly, in all material respects, the financial position of Profor Securities, LLC as of December 31, 2017 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of Profor Securities, LLC's management. My responsibility is to express an opinion on Profor Securities, LLC's financial statement based on my audit. I am a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and I am required to be independent with respect to Profor Securities, LLC in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

I conducted my audit in accordance with the standards of the PCAOB. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. My audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. My audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. I believe that my audit provides a reasonable basis for my opinion.

Actual results could differ from those estimates.

(c) Statement of Cash Flows

For purposes of the statement of cash flows the Company has defined cash equivalents as highly liquid investments, with original maturities of less than three months, that are not held for sale in the ordinary course of business. In lieu of corporation income taxes, the shareholders of an S Corporation are taxed on their proportionate share of the Company's taxable income. Therefore, no provision or liability for federal income taxes has been included in the financial statements. The Company's tax returns and the amount of income or loss allocable to each shareholder are subject to examination by federal and state taxing authorities. The Company recognizes and measures its unrecognized tax benefits in accordance with ASC Topic 740, Income Taxes. Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of the financial reporting period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change.

Management has determined that the Company has no uncertain tax positions that would require financial statement recognition at December 31, 2017. This determination will always be subject to ongoing evaluation as facts and circumstances may require. The Company remains subject to U.S. federal and state income tax audits for all years subsequent to 2013.

In addition, no income tax related penalties or interest have been recorded for the year ended December 31, 2017.

(i) *Fair Value Hierarchy*

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1. Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.

Level 2. Inputs other than quoted prices included in Level 1 that are observable for the assets or liability either directly or indirectly.

Level 3. Inputs are unobservable for the assets or liability.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, the liquidity of markets, and other characteristics particular to the security. To the extent the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining the fair value is greatest for instruments categorized in level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

For further discussion of fair value, see “Note 6 Fair Value”

(j) *Significant Credit Risk*

During 2017 fees received from four funds totaled approximately 70.0% of fee income. There is no guarantee of future revenue from these funds.

3 Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2017, the Company had net capital of \$73,788, which was \$68,788 in excess of its required minimum net capital of \$5,000. The Company's net capital ratio was 339%.

Advances to affiliates, contributions, distributions and other withdrawals are subject to certain notification and other requirements of Rule 15c3-1 and other regulatory rules.

The Company is registered with FINRA as a broker dealer exempt from SEC Rule 15c3-3 under Section (k)(2)(i). Therefore it is not subject to possession or control requirements under SEC Rule 15c3-3 and is not required to compute 15c3-3 reserve requirements.

The Company has not experienced any losses on these accounts and believes it is not subject to any significant credit risk. As of December 31, 2017, there were no cash equivalent balances held in any accounts that were not fully insured.

6 Fair Value

Cash and cash equivalents, accounts payable and other current liabilities are reflected in the financial statements at carrying value which approximates fair value because of the short-term maturity of these instruments.

	<u>Level 1</u>
Assets	
Cash	<u>\$ 98,810</u>
Liabilities	
Accrued expenses	<u>\$ (25,022)</u>

During 2017 the Company did not own any other financial assets or incur any other liabilities.

As of December 31, 2017 the Company was not in violation of this requirement.

The Company had no lease or equipment rental commitments (other than as disclosed in Note 4 above), no underwriting commitments, no contingent liabilities, and had not been named as a defendant in any lawsuit at December 31, 2017 or during the year then ended.

10 Subsequent Events

The Company has evaluated subsequent events occurring after the statement of financial condition date through the date of February 15, 2018 which is the date the financial statements were available to be issued. Based on this evaluation, the Company has determined that no subsequent events have occurred which require disclosure in or adjustment to the financial statements.
