REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

**To the President and Board of Directors of
Lowell & Company, Inc.**

Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of Lowell & Company, Inc. (the "Company") as of December 31, 2017, the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2017, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

Supplemental Information

The supplemental information contained in Schedule I, Computation of Net Capital Under SEC Rule 15c3-1 and Schedule II, Computation for Determination of Reserve Requirements Under Rule 15c3-3 of the Securities and Exchange Commission has been subjected to audit procedures performed in conjunction with the audit of the Company's financial statements. The supplemental information is the responsibility of the Company's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with 17 C.F.R. §240.17a-5. In our opinion, the supplemental information contained in Schedule I, Computation of Net Capital Under SEC Rule 15c3-1, and Schedule II, Computation for Determination of Reserve Requirements Under Rule 15c3-3 of the Securities and Exchange Commission is fairly stated, in all material respects, in relation to the financial statements as a whole.

LOWELL & COMPANY, INC.

NOTES TO FINANCIAL STATEMENTS

1. ORGANIZATION AND NATURE OF BUSINESS

Lowell & Company, Inc. (the "Company") was organized as a Texas Corporation on April 18, 1989. The Company is a non-public broker-dealer registered with the Securities and Exchange Commission (SEC) and various states and is a member of the Financial Industry Regulatory Authority, Inc. (FINRA). As an introducing broker-dealer, the Company does not hold customer funds or securities, and clears all customer transactions on a fully disclosed basis through a clearing broker.

The Company also operates as Lowell Asset Management and provides asset management services to institutional and individual clients.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including principal transactions, agency transactions, investment advisory, and institutional private placement of securities throughout the United States.

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Commissions

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur and are paid to employees on a settlement date basis.

Investment Advisory Income

Investment advisory fees for managing clients' accounts and private placement fees are received as compensation monthly or quarterly in arrears, are computed based upon the market value of the assets under management for each account, and are recognized when earned.

Variable Annuity Commissions

Variable annuity commissions are recorded upon execution of a contract by a customer and upon subsequent renewals.

Cash Equivalents

Cash and cash equivalents in the accompanying statement of financial condition represent assets with maturities of 90 days or less for purposes of the statement of cash flows.

Fair Value of Financial Instruments

Cash, accounts receivable, accounts payable and accrued commissions are short-term in nature and accordingly are reported in the statement of financial condition at fair value or carrying amounts that approximate fair value.

Receivables and Credit Policy

Accounts receivable are stated at the amounts management expects to collect. The carrying amounts of accounts receivable are reduced by a valuation allowance, if needed, that reflects management's best estimate of the amounts that will not be collected. Management individually reviews all receivable balances and, based on an assessment of current creditworthiness, estimates the portion of, if any, of the balance that will not be collected. Management provides for probable uncollectable amounts through a charge to earnings and a credit to a valuation allowance based on its assessment of the current status of individual accounts. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to the respective receivable account. In Management's opinion, any potential allowance for uncollectable accounts would not be material to the Financial Statements as of the end of December 31, 2017.

Deposit with Clearing Broker

The Company and the clearing broker attempt to control the risks associated with customer activities by limiting customer accounts to only cash type accounts and monitoring for prompt customer payments in accordance with various regulatory guidelines. The Company maintains a \$25,000 deposit account with the clearing broker to secure its obligation to fund any losses incurred by the clearing broker on customer transactions.

Property

Property is recorded at cost less depreciation and amortization. Depreciation and amortization are primarily accounted for on the straight line method based on estimated useful lives. The amortization of leasehold improvements is based on the shorter of the lease term or the life of the improvement. Betterments and large renewals which extend the life of the asset are capitalized whereas maintenance and repairs and small renewals are expensed as incurred.

Advertising Costs

The Company expenses advertising production costs as they are incurred and advertising communication costs the first time the advertising takes place.

Income Tax

The Company has elected to be taxed as an S-Corporation and is therefore treated as a flow-through entity for income tax purposes, similar to a partnership. As a result, the net taxable income of the Company and any related tax credits, for federal income tax purposes, are deemed to pass to the individual member and are included in the member's personal tax return even though such net taxable income or tax credits may not actually have been distributed. Accordingly, no tax provision has been made in the financial statements since the income tax is a personal obligation of the individual member. The Company is subject to state income tax.

The Company recognizes and measures any unrecognized tax benefits in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, "Income Taxes". Under that guidance the Company assesses the likelihood, based on their technical merit, that tax positions will be sustained upon examination based on the facts, circumstances and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. As of December 31, 2017, the Company believes there are no uncertain tax positions that qualify for either recognition or disclosure in the financial statements.

As of December 31 2017, the years ending December 31, 2014, 2015, 2016 and 2017 remain subject to examination by major tax jurisdictions.

3. NET CAPITAL REQUIREMENTS

The Company is subject to the SEC uniform net capital rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 (and the rule of the "applicable" exchange also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1). At December 31, 2017, the Company had net capital of \$71,818 which was \$71,818, in excess of its required net capital of \$5,000. The Company's net capital ratio was .65 to 1 for December 31, 2017.

4. LIABILITIES SUBORDINATED TO CLAIMS OF GENERAL CREDITORS

During the years ended December 31, 2017, there were no subordinated liabilities to the claims of general creditors. Accordingly, a statement of changes in liabilities subordinated to claims of general creditors has not been included in these financial statements.

5. PROPERTY

As of December 31, 2017, property is comprised of the following:

Computers and Equipment	\$ 43,188
Furniture and Fixtures	18,604
Leasehold Improvements	<u>6,324</u>
Total	<u>68,116</u>
Less:	
Accumulated Depreciation	<u>68,116</u>
Net Property	<u>\$ Nil</u>

6. CONCENTRATION OF CREDIT RISK

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. The Company's financial instruments that are subject to concentrations of credit risk primarily consist of cash and accounts receivable. The Company places its cash with two high credit quality institutions. At times, such cash may be in excess of the FDIC insurance limits. The Company believes that it is not exposed to any significant risk related to cash. Collateral is not required for credit extended to the Company's customers. Major customers are defined as those comprising more than 10% of the company's annual revenue or outstanding accounts receivable balance at the end of the year. At December 31, 2017, the Company had no major customers.

As discussed in Note 1, certain of the Company's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers of the Company and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

7. COMMITMENTS AND CONTINGENCIES

Operating Leases

The Parent Company leases office space in Lubbock, Texas and vehicles under non-cancelable lease agreements. The terms of the lease generally require the Parent Company to provide liability insurance and cover certain general operating expenses with a provision for escalations. At December 31, 2017, future minimum lease payments under the lease were as follows:

Year Ending December 31,	Office	Vehicles
2018	\$ 103,130	\$ 9,320
2019	60,560	
Total	\$ 163,690	\$ 9,320

Rent expense for Parent Company approximated \$95,866 for the years ended December 31, 2017.

Litigation

As of December 31, 2017, the Company is involved in a FINRA arbitration whereas a Claimant alleges that Lowell & Company, Inc. is liable for gross negligence, breach of fiduciary duty, and violation of the Texas State Securities Act and Texas Consumer Protection Act for hiring and failing to supervise a registered representative. This matter is in the early stages of litigation. The Claim is expected to be contested. There is not sufficient information to evaluate the likelihood of an unfavorable outcome or to estimate a range of any potential loss. The Company maintains E&O insurance and has a deductible of \$150,000 for these matters. To date, the Company has incurred approximately \$3,044 in legal fees related to this matter.

8. RELATED PARTY TRANSACTIONS

The Company and its Parent are under common control and the existence of that control creates a financial position and operating results significantly different than if the companies were autonomous.

Under a Management Agreement (the "Agreement") effective January 01, 2014, the Parent provides the Company with consulting & general administrative services. Standard minimum monthly fees for such services are \$100,000 but the Agreement allows the Parent to waive any such portion of the monthly fees in order for the Company to remain in compliance with the minimum net capital requirements (See Note 3). The Agreement states that all monthly fees waived are not to be payable, and may not be added to future assessments. The total management fees incurred and paid under this agreement during 2017 totaled \$719,254. The Agreement was not consummated on terms equivalent to arms-length transactions.

9. COMPUTATION FOR DETERMINATION OF RESERVE REQUIREMENTS AND INFORMATION RELATING TO POSSESSION OR CONTROL REQUIREMENTS PURSUANT TO RULE 15c3-3

The Company operates pursuant to section (k)(2)(ii) exemptive provisions of Rule 15c3-3 of the Securities Exchange Act of 1934, in which all customer transactions are cleared on a fully disclosed basis through a clearing broker/dealer. Under these exemptive provisions, the Computation for Determination of Reserve Requirements and the disclosure of Information Relating to Possession or Control Requirements are not required.

During the years ended December 31, 2017, in the opinion of management, the Company has maintained compliance with the conditions for the exemption specified in paragraph (k)(2)(ii) of Rule 15c3-3.

10. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09-Revenue from Contracts with Customers (Topic 606) ("ASU 2014-09"). ASU 2014-09 requires entities to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity will apply five steps, Step 1: Identify the contract(s) with a customer; Step 2: Identify the performance obligations in the contract; Step 3: Determine the transaction price; Step 4: Allocate the transaction price to the performance obligations in the contract, and Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation. The amendments in this Update help clarify the principles for recognizing revenue and develop commonalities with International Financial Reporting Standards (IFRS). The effective date of this standard was deferred by FASB ASU 2015-14-Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, and is effective for annual reporting periods beginning after December 15, 2018 and interim reporting periods within annual reporting periods beginning after December 15, 2019. The guidance may be applied as of an annual reporting period beginning after December 15, 2016, including interim reporting periods within that reporting period. The Firm plans to adopt this standard on January 1, 2019. The Company does not expect the adoption of ASU 2014-09 and ASU2015-14 to have a material impact on the Company's results of operations or financial condition.

11. SUBSEQUENT EVENTS

Upon evaluation, the Company notes that there were no material subsequent events between the date of the financial statements and February 27, 2018 that the financial statements were issued or available to be issued.

SCHEDULE II
COMPUTATION FOR DETERMINATION OF RESERVE REQUIREMENTS
UNDER RULE 15c3-1 OF THE SECURITIES AND EXCHANGE COMMISSION
AS OF DECEMBER 31, 2017

EXEMPTIVE PROVISIONS

The Company has claimed an exemption from Rule 15c3-3 under section (k)(2)(ii), in which all customers transactions are cleared through another broker-dealer on a fully disclosed basis and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that all customer transactions are cleared on a fully disclosed basis through a clearing broker/dealer. During the year ended December 31, 2017, in the opinion of management, the Company has maintained compliance with the conditions for the exemption specified in paragraph (k)(2)(ii) of Rule 15c3-3. There were no transactions during the year that required a reserve computation to be made. No facts came to our attention to indicate that the exemption had not been complied with during the period since the last examination.
