IBS HOLDING CORPORATION
DBA I-BANKERS SECURITIES, INC
NOTES TO FINANCIAL STATEMENTS
December 31, 2017

NOTE A — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Description of Business: IBS Holding Corporation, (“the Company”) is a registered broker dealer that began business in 1996. The Company is registered with the Securities and Exchange Commission, the Financial Industry Regulatory Authority and the securities commissions of appropriate states.

The Company operates under the provisions of paragraph (k)(2)(ii) of Rule 15c3-3 of the Securities Exchange Act of 1934 and, accordingly, is exempt from the remaining provisions of that rule. The requirements of paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully disclosed basis with a clearing broker-dealer. The clearing broker-dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker-dealer.

A summary of the Company’s significant accounting policies are as follows:

Accounting policies: The Company follows generally accepted accounting principles (GAAP), as established by the Financial Accounting Standards Board (the FASB) to ensure consistent reporting of financial condition, results of operations, and cash flows.

Cash and Cash Equivalents: The Company considers all cash and money market instruments with a maturity of ninety days or less to be cash and cash equivalents.

The Company maintains its demand deposits in a high credit quality financial institution. Balances at times may exceed federally insured limits.

Property and Equipment: Property and equipment are recorded at cost. Depreciation is provided by use of straight-line methods over the estimated useful lives of the respective assets. Maintenance and repairs are charged to expense as incurred; major renewals and betterments are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in the results of operations. Depreciation expense for 2017 was \$2057.

Income Taxes: The Company utilizes the asset and liability method of accounting for income taxes, as prescribed by Accounting Standards Codification 740 – Income Taxes (“ASC 740”). Under this method, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases.

DBA I-BANKERS SECURITIES, INC
NOTES TO FINANCIAL STATEMENTS
December 31, 2017

NOTE A — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes (Continued): This method prescribes a more-likely-than-not threshold for financial statement recognition and measurement of a tax position taken by the Company. As of December 31, 2017, the Company determined that it had no uncertain tax positions which affected its financial position, its results of operations or its cash flows and will continue to evaluate for uncertain tax positions in the future. The federal and state income tax returns of the Company are subject to examination by the IRS, generally for three years after they were filed. Tax expense for year 2017 is estimated at \$123,098.

Estimates: Management uses estimates and assumptions in preparing financial statements in accordance with GAAP. Those estimates and assumptions affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting period. Actual results could vary from the estimates that were assumed in preparing the financial statements.

Revenue Recognition: Commission revenues and clearing expenses are recorded on a settlement-date basis. Profit or loss arising from all securities transactions entered into for the account and risk of the Company are recorded on a settlement-date basis. Transactions recorded on a settlement-date were not materially different from the trade-date basis.

Securities Transactions: Principal transactions and related revenues and expenses are recorded at fair value on a trade-date basis (as if they had settled). Profit and loss arising from all securities transactions entered into for the account and risk of the Company are recorded in trading revenue in the statement of operations. Amounts receivable and payable for securities transactions that have not reached their contractual settlement date are recorded net as receivable from clearing broker on the statement of financial condition.

Date of Management's Review: Subsequent events were evaluated through February 28, 2018, the date which the financial statements were available to be issued.

NOTE B — NET CAPITAL

The Company, as a registered broker dealer is subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2017, the Company had net capital of \$1,678,305, which was \$1,578,305 in excess of its required net capital of \$100,000 and its ratio of aggregate indebtedness to net capital was 0.395 to 1.0.

NOTES TO FINANCIAL STATEMENTS
December 31, 2017

NOTE C — LEASES

The Company leases its office facilities under lease agreements. Rent expense for the year ended December 31, 2017 was approximately \$127,913. The Company had no lease commitments extending beyond one year.

NOTE D – FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET CREDIT RISK

As a securities broker, the Company is engaged in buying and selling securities for a diverse group of individuals and other entities. The Company's transactions are collateralized and are executed with and on behalf of its customers, including other brokers and dealers and other financial institutions.

The Company introduces all customer transactions in securities traded on U.S. securities markets to another firm on a fully disclosed basis. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to non-performance by customers or counter parties. The Company monitors clearance and settlement of all customer transactions on a daily basis.

The Company's exposure to credit risk associated with the non-performance of customers and counter parties in fulfilling their contractual obligations pursuant to these securities transactions can be directly impacted by volatile trading markets which may impair the customer's or counter party's ability to satisfy their obligations to the Company. In the event of non-performance the Company may be required to purchase or sell financial instruments at unfavorable market prices resulting in a loss to the Company. The Company does not anticipate non-performance by customers and counter parties in the above situations.

In the normal course of business, the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet-risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

IBS HOLDING CORPORATION
DBA I-BANKERS SECURITIES, INC
NOTES TO FINANCIAL STATEMENTS
December 31, 2017

NOTE E – FAIR VALUE

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market.

Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability.

The availability of observable inputs can vary from instrument to instrument and is affected by a wide variety of factors, including, for example, the type of instrument, whether the instrument is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the instrument. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the instrument.

IBS HOLDING CORPORATION
DBA I-BANKERS SECURITIES, INC
NOTES TO FINANCIAL STATEMENTS
December 31, 2017

NOTE E – FAIR VALUE (CONTINUED)

Fair value of investments securities available for sale are determined by obtaining quoted prices on nationally recognized securities exchanges when available. If quoted prices are not available, fair value is determined using matrix pricing, which is a mathematical technique used widely in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities.

State and municipal government obligations which include U.S. Government securities and Government-sponsored enterprises are stated at fair value based on third-party dealer quotes. These financial instruments are classified in Level 2 of the fair value hierarchy.

The Company assesses the levels of the instruments at each measurement date, and transfers between levels are recognized on the actual date of the event or change in circumstances that caused the transfer in accordance with the Company's accounting policy regarding the recognition of transfers between levels of the fair value hierarchy. For the year ended December 31, 2017, there were no transfers of securities between levels. Positions held by the company at year end were classified as level 1. The total value of the stock at year end was \$32,932.

NOTE F – CLEARING BROKER AND CLEARANCE AGREEMENT

The Company has an agreement with a clearing broker to execute and clear, on a fully disclosed basis, customer accounts of the Company. In accordance with this agreement, the Company is required to maintain a deposit in cash or securities. The deposit with its clearing broker is refundable but, subject to offsets, if and when the Company ceases doing business with the clearing broker.

Amounts receivable from its clearing organization at December 31, 2017 consist of commissions receivable and funds on deposit in various accounts. The receivable is considered fully collectible and no allowance is required.

Amounts payable to the clearing broker dealer at December 31, 2017 consists of margin debt collateralized by securities owned. The margin debt bears interest at December 31, 2017 at 3.04%, the federal funds rate plus 2.5%.

NOTE G – CONTINGENCIES

The Company is subject to litigation in the normal course of business. The Company has no litigation in progress at December 31, 2017.

**IBS HOLDING CORPORATION
DBA I-BANKERS SECURITIES, INC
NOTES TO FINANCIAL STATEMENTS
December 31, 2017**

NOTE H – INDEMNIFICATIONS

In the normal course of business, the Company enters into contracts that contain a variety of representations and warranties that provide indemnifications under certain circumstances. The Company's maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Company that have not yet occurred. The Company expects the risk of future obligation under these indemnifications to be remote.

NOTE I – RELATED PARTY

An entity I-Bankers Direct, LLC is affiliated through common ownership and management. Contributions to the affiliated entity totaled \$36,285, during the year ended December 31, 2017.

NOTE J – CONCENTRATIONS

The Company maintains its demand deposits in a high credit quality financial institution. Balances at times may exceed federally insured limits. Generally, these deposits may be redeemed upon demand and, therefore, bear minimal risk.

To the Shareholders of IBS Holding Corporation DBA I-Bankers Securities, Inc.

We have reviewed management's statements, included in the accompanying Company's Exemption Report in which (1) Company identified the following provisions of 17 C.F.R. §15c3-3(k) under which Company claimed an exemption from 17 C.F.R. §240.15c3-3: (k)(2)(ii) (the "exemption provision") and (2) Company, stated that it met the identified exemption provision throughout the most recent fiscal year of 2017. Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and accordingly, included inquiries and other required procedures to obtain evidence about Company's compliance with the exemption provision. Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the provisions set forth in paragraph (k)(2)(ii) of Rule 15c3-3 under the Securities Exchange Act of 1934.

We have performed the procedures included in Rule 17a-5(e)(4) under the Securities Exchange Act of 1934 and in the Securities Investor Protection Corporation (SIPC) Series 600 Rules, which are enumerated below, and were agreed to by IBS Holding Corporation (Company) and the SIPC, solely to assist you and the SIPC in evaluating the Company's compliance with the applicable instructions of the General Assessment Reconciliation (Form SIPC-7) for the year ended December 31, 2017. Management of the Company is responsible for its Form SIPC-7 and for its compliance with those requirements. This agreed-upon procedures engagement was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of these procedures is solely the responsibility of those parties specified in this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures we performed, and our findings are as follows:

1. Compared the listed assessment payments in Form SIPC-7 with respective cash disbursement records entries noting no differences;
2. Compared the Total Revenue amounts reported on the Annual Audited Report Form X-17A-5 Part III for the year ended December 31, 2017, with the Total Revenue amounts reported in Form SIPC-7 for the year ended December 31, 2017 noting no differences;
3. Compared any adjustments reported in Form SIPC-7 with supporting schedules and working papers noting no differences;
4. Recalculated the arithmetical accuracy of the calculations reflected in Form SIPC-7 and in the related schedules and working papers supporting the adjustments noting no differences; and
5. Compared the amount of any overpayment applied to the current assessment with the Form SIPC-7 on which it was originally computed noting no differences.

We were not engaged to, and did not conduct an examination or a review, the objective of which would be the expression of an opinion or conclusion, respectively, on the Company's compliance with the applicable instructions of the Form SIPC-7 for the year ended December 31, 2017. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Company and the SIPC and is not intended to be and should not be used by anyone other than these specified parties.
