STANCORP EQUITIES, INC.

NOTES TO FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED DECEMBER 31, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

StanCorp Equities, Inc. (the “Company”) is a wholly-owned subsidiary of StanCorp Financial Group, Inc. (“StanCorp”). The Company is registered with the Securities and Exchange Commission (“SEC”) as a broker-dealer. The Company’s activities are limited to wholesaling an unregistered group annuity contract and a mutual fund trust platform for retirement plans, which are administered by Standard Retirement Services, Inc. (“Standard Retirement Services”). As a wholesaler, the Company solicits and supports third-party broker-dealers and investment advisers that offer or advise their retirement plan clients on using an unregistered group annuity contract or a mutual fund trust platform. The unregistered group annuity contract is issued by Standard Insurance Company (“Standard”). Standard, Standard Retirement Services and the Company have entered into an Administrative Services and Treasury Agreement, which provides for the allocation of expenses between the three companies. Standard and Standard Retirement Services are both wholly-owned subsidiaries of StanCorp. The Company engages in numerous transactions with Standard and Standard Retirement Services, which are affiliates of the Company. Pursuant to the Administrative Services and Treasury Agreements, certain expenses incurred by the Company are allocated at cost to the affiliates. These allocated costs may not be comparable to those that would be exchanged between unrelated parties.

Basis of Presentation — The accompanying financial statements have been prepared on the basis of accounting principles generally accepted in the United States of America (“GAAP”).

Cash and Cash Equivalents — Cash and cash equivalents include cash and money market funds with maturities of three months or less as of the date of acquisition.

Commissions Payable — Commissions payable are due to external brokers and registered representatives of the Company for Standard and Standard Retirement Services’ business sold or serviced.

Due to and from Affiliates — Amounts due from affiliates were \$358,529 as of December 31, 2017. Amounts due to affiliates were \$415,349 as of December 31, 2017.

Prepaid Expenses — Prepaid expenses are amounts paid to vendors in advance of when services are provided.

Other Assets — Other assets primarily consists of renewal deposits with the Financial Industry Regulatory Authority, Inc. (“FINRA”).

Property and Equipment — Property and equipment are stated at cost less accumulated depreciation. The Company depreciates property and equipment on a straight-line basis using a half-year convention. As of December 31, 2017, the Company had \$3,955 of property and equipment, net of accumulated depreciation. Accumulated depreciation was \$14,705 as of December 31, 2017. Useful lives are determined using StanCorp’s asset life schedule. The current estimated weighted-average remaining useful life of fixed assets was 2.4 years as of December 31, 2017.

Payroll Related and Other Payables — Payroll related and other payables include payroll related expenses and other accrued operating expenses incurred in generating revenue.

Other Liabilities — Other liabilities include accounts payable amounts subject to state escheat reporting and sales taxes payable.

Commission Income and Commission Expense — Commission expense represents commission payments to external brokers for Standard business sold or serviced. Commission expense also includes incentive compensation paid to the Company's representatives. Commission income is collected from Standard, which pays the Company an amount equal to these payments pursuant to the Underwriting and Service Agreement between the Company and Standard.

Personnel Expense — Personnel expense represents salaries and benefits paid to the Company's personnel.

Sales and Travel Expense — Sales and travel expense represents expenses incurred for sales conferences and promotions for the Company's services and Standard's products.

Occupancy Expense — Occupancy expense represents rent payments for the Company's offices.

Service and Administration Fees — Service and administration fees represent fees paid to external vendors for bank fees and fund administration fees.

Telephone Expense — Telephone expense includes all phone service fees and long distance services.

Printing and Postage Expense — Printing and postage includes educational and marketing materials used in the Company's retirement plan business.

Variable Allocated Expenses — Variable allocated expenses consists of allocated overhead costs from Standard which include, but are not limited to, information technology expenses, human resources, accounting and legal expenses.

Other Expenses — Other expenses include office supplies, data processing software, professional fees, regulatory fees, equipment expense, insurance, depreciation expense and other miscellaneous operating expenses.

Operating Expense Offset for Services Provided to Affiliates — Related Party — Pursuant to the Administrative Services and Treasury Agreements with Standard and Standard Retirement Services, non-commission expenses, including income taxes, are allocated to these affiliates by an operating expense offset as these costs are incurred in conjunction with the compliance and licensing services, sales and client services and miscellaneous services that the Company provides to support the operations of Standard and Standard Retirement Services.

Income Taxes — For income tax purposes, the Company's operations are included in a consolidated income tax return filed by StanCorp; however, in accordance with StanCorp's policy, the Company computes the provision for income taxes as if it were filing a separate income tax return for financial statement purposes. Throughout 2017 the Company did not have any material uncertain tax positions. Years currently open for audit by the Internal Revenue Service are 2014 through 2017. As of December 31, 2017 the Company had a net deferred tax asset of \$529,764. Included in the provision for income tax expense was \$33,232 of deferred tax expense for 2017. Total income taxes may differ from the amount computed by applying the federal corporate tax rate of 35% because of the net result of

permanent differences and the inclusion of state and local income taxes. Valuation allowances are established when it is determined that it is more likely than not that the deferred tax asset will not be fully realized. No valuation allowance is needed as of December 31, 2017, as it is more likely than not that the deferred tax asset will be fully realized. The combined federal and state effective tax rate was 100% for 2017. The primary cause for the difference in the effective tax rate was due to the allocation of expenses to Standard and Standard Retirement Services via an operating expense offset. See “Operating Expense Offset for Services Provided to Affiliates” for more information. The effective tax rate also included prior year federal, state, and local net tax expense adjustments of \$343,965. Due to tax reform legislation enacted on December 22, 2017, deferred tax assets and liabilities were re-measured as of the date of enactment, at the 21% corporate tax rate that becomes effective on January 1, 2018 and the impact of the change in the tax rate was recognized through the current year income statement. This resulted in further differences between current year income tax expense and taxes computed at the current corporate tax rate of 35%. It is the Company’s accounting policy to record interest paid on income tax liabilities as interest expense. Income tax penalties incurred are recorded as an operating expense. The Company did not incur any interest or penalties related to income tax during 2017.

Credit Risk Concentration — Over the course of 2017 the Company had cash balances in excess of the federally insured \$250,000 limit at a single financial institution.

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Accounting Pronouncements

Accounting Standards Update (“ASU”) No. 2014-09, *Revenue from Contracts with Customers*— In May 2014, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2014-09, *Revenue from Contracts with Customers*. The main objective of ASU No. 2014-09 is to provide a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The core principle of the revenue model is that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled to in exchange for those goods or services. For public business entities, ASU No. 2014-09 is effective for annual reporting periods and interim reporting periods within those annual reporting periods beginning after December 15, 2017. The Company plans to adopt ASU No. 2014-09 on January 1, 2018. The Company’s revenues are primarily from soliciting third-party broker dealers and are treated as a single performance obligation. Revenue is currently recognized on a monthly basis after the performance obligation is completed within each reporting period. The current accounting is appropriate within the new ASC No. 606 framework; therefore, the Company does not expect any changes to the amount or timing of revenue recognized after adoption of this ASU.

Subsequent Events—The Company has evaluated subsequent events through the date these financial statements were available to be issued, February 26, 2018, and concluded that there are no material subsequent events, which would require further disclosure.

2. COMMITMENTS AND CONTINGENCIES

Standard leases certain buildings and equipment and allocates a portion of this expense to the Company under an intercompany service agreement. This agreement is cancellable with a 180 day written notice.

3. NET CAPITAL REQUIREMENTS

The Company is subject to the Uniform Net Capital Rule adopted by the SEC, which requires the maintenance of minimum net capital of the greater of six and two-thirds percent (6-2/3%) of aggregate indebtedness or \$5,000. The Company had net capital, as defined, of \$1,234,124 as of December 31, 2017, which was \$1,049,387 in excess of the net capital requirement. The Company's ratio of aggregate indebtedness to the net capital requirement was 2.25 to 1 as of December 31, 2017.

The declaration and payment of dividends or return of capital to StanCorp is subject to the discretion of the Company's Board of Directors depending on financial condition, cash requirements, future prospects, net capital requirements and approval from FINRA. The Company declared no dividends during 2017.

We have reviewed management's statements, included in the accompanying StanCorp Equities, Inc. Exemption Report (the Exemption Report), in which (1) StanCorp Equities, Inc. (the Company) identified the following provisions of 17 C.F.R. § 15c3-3 (k) under which the Company claimed an exemption from 17 C.F.R. § 240.15c3-3 (k)(2)(i) (the exemption provisions); and (2) the Company stated that it met the identified exemption provisions throughout the year ended December 31, 2017 without exception.
