SESLIA VIRGIN ISLANDS SECURITIES, LLC  
(A Subsidiary of Seslia & Company)

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2017 AND 2016

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Nature of Business**

The Company (a 100% owned subsidiary of Seslia & Company) was organized on April 30, 1992 to engage in and carry on a general securities brokerage, investment, and financial consulting business. The Company is a registered broker-dealer with the Securities and Exchange Commission (SEC), the Financial Industry Regulatory Authority (FINRA), the Municipal Securities Rule Making Board (MSRB) and eleven US states and territories. Effective January 1, 2014, the Company converted from a Corporation to a Limited Liability Company, in a tax free reorganization.

Under SEC financial responsibility rules, the Company is a fully disclosed introducing broker. As such, the customer accounts are maintained by clearing brokers, which are also responsible for collecting the purchase price, commissions, and other fees from the customer. However, the introducing broker generally indemnifies the clearing broker for uncollected amounts from any resulting unsecured accounts of the introducing broker's customers.

Since the beginning of 2013, substantially all the Company's business is within the United States Virgin Islands.

**Commissions and Related Expenses**

The Company's main sources of income arise from its commissions earned on purchase and sale of securities and fees charged to customers. Commissions and related clearing expenses are recorded on a settlement date basis. Fee income is recorded as earned. In both cases, there is persuasive evidence of the existence of an arrangement, service has been rendered, the broker's price to the client is fixed or determinable and collectability is reasonably assured.

General and administrative expenses are charged to operations as incurred.

**Consulting Revenue**

The Company entered into a consulting agreement with the Parent to provide employees to the Parent for consulting services to their clients. This revenue represents an hourly fee for time spent on the consulting and is recorded as earned.

## **Use of Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and related disclosure at the dates of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Because of uncertainties inherent in the estimation process, it is possible that the actual results could differ from those estimates.

## **Concentration of Credit Risk and Other Dependencies**

The Company's cash deposits, including those in restricted funded reserve accounts, are insured by the Federal Deposit Insurance Company up to \$250,000. As of December 31, 2017, bank deposits do not exceed this limit.

The Company also holds cash equivalent deposits with a registered investment company, which balance is protected against broker failure by the Securities Investor Protection Corporation (SIPC), up to \$500,000. Amounts in registered investment companies do not exceed this limit.

Accordingly, management believes that credit risk on cash and cash equivalents, and on investments in marketable securities is not significant.

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to credit risk. The risk of default depends on the credit worthiness of the counterparty or issuer of the instrument. Management believes that the above concentration of credit risk does not represent a material risk, of loss with respect to the Company's financial position as of December 31, 2017.

## **Cash Equivalents**

The Company considers short-term highly liquid investments purchased with an original maturity of three months or less, to be cash equivalents. The carrying amounts of financial instruments not carried at fair value, approximate fair value, due to their short term nature.

## **Restricted Cash and Regulatory Requirements**

The Company has classified as restricted certain cash that is not available for use in its operations. Under the agreement with one carrying and clearing broker, the Company maintains a good faith deposit totaling \$50,000. This is a non-interest bearing account.

As a registered broker-dealer, the Company is subject to the Uniform Net Capital Rule under rule 15c3-1 of the Securities Exchange Act of 1934, which required it to maintain a minimum net capital equal to 6-2/3 percentage of its aggregate indebtedness and requires that the ration of aggregate indebtedness to net capital not exceed 15 to 1. At December 31, 2017 and 2016, the Company's net capital under SEC Rule 15c3-1 was \$12,385 and \$28,995 respectively, and the ration of aggregate indebtedness to net capital was 323% and 103%, respectively.

Advances to affiliates, repayment of borrowing, dividend payments and other equity withdrawals are subject to certain notifications and other provisions of Rule 15c3-1 and other regulatory bodies.

## Advertising

Advertising is charged to expense as incurred. However, during 2017 and 2016 the Company incurred no advertising expense.

## Income Taxes

Under the Limited Liability Company structure, the Company's income tax liability, if any, will be passed to its member. As a pass through entity, since January 2014, the effects, if any, of uncertain tax positions is assumed by its sole member. The Company's income tax returns are subject to audit for a three year period after filing. Currently the Company is not subject to an income tax investigation.

## Recently Issued and Adopted Accounting Standards

The Financial Accounting Standard Board has recently issued various Accounting Standard Updates, most of which do not apply to the Company. However, those that were applied as of December 31, 2017, did not affect significantly the result of operations or financial position of the Company.

Accounting Standards Update (ASU) 2014-09 Revenue from Contracts with Customers which is effective January 1, 2018 may require the company to recognize some revenue on a quarterly/monthly basis rather than when invoiced. It is anticipated that this change will not significantly impact the result of operations or financial position of the Company. The company will be required to defer the recognition of some income for a maximum of two months which is not expected to have a significant impact on net capital requirement.

## Subsequent Events

Subsequent events have been evaluated through the date of March 7, 2018, date these financial statements were available for release. There were no significant subsequent events.

## 2. RELATED PARTIES

The most significant transactions with related parties consist of the following:

	<u>2017</u>	<u>2016</u>
Allocation of rent expense Parent	\$15,000	\$15,000
Consulting revenue from services provided to customers of Parent	\$81,005	\$123,986

## 3. EMPLOYEE BENEFIT PLANS

The Company maintains a defined contribution pension plan covering substantially all employees meeting minimum eligibility requirements. The pension contribution is determined using a specified formula applied to each eligible employee's contribution. Pension expense for the years ended December 31, 2017 and 2016 amounted to \$3,802 and \$4,685, respectively.

#### **4. REGULATORY AUDIT**

The Company Regulatory Authorities did not conduct an audit of the Company during 2017 and 2016.

#### **5. COMMITMENTS AND CONTINGENCIES**

Under a verbal agreement with Parent, the Company leases its office facilities. Rent expense for the years ended December 31, 2017 and 2016 amounted to \$15,000 and \$15,000.

There are no named claims against the Company from customers or any other party that we are aware of as of the audit date.

#### **6. CLEARING AGREEMENTS**

The existing clearing agreement requires the Company to maintain a \$50,000 deposit, which is returnable within 30 days of termination of the agreement. Either party can terminate the agreement after 30 days written notice of their intention to terminate the agreement, without an early termination fee. The deposit was made in January 2015, upon the request of the clearing broker. Furthermore, the agreement provides for a monthly minimum clearance fee of \$2,000. The minimum net capital requirement is reduced because the agreement is considered a "Type B" clearing arrangement, where the Company does not handle funds of the customer.

#### **7. MANAGEMENT'S PLANS**

Since 2009, the Company has been reporting losses and negative cash flows from operations. Actions taken since 2009 have translated into reducing expenses. During 2017 and 2016, however, revenue decreased and losses increased. During these years, the Company received significant revenue from consulting to clients of the parent company. It is anticipated that this will continue in 2018, but at a reduced rate from prior years. During 2017 and 2016, the Company also received support from its parent, Seslia & Company, which will continue as necessary in 2018. In addition, the Company has agreed with employees to only pay salaries if there are resources available. Management is not certain when the Company will return to self-sufficiency, however, parent is committed to continue funding the cash shortfalls during the foreseeable future.
