CAPITAL MANAGEMENT SECURITIES, INC.

NOTES TO FINANCIAL STATEMENTS
YEARS ENDED DECEMBER 31, 2017 AND 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. Organization – The Company was organized in April 1975 as a Corporation under the laws of Minnesota.
- B. Nature of Operations – Capital Management Securities, Inc. (the Company) is a licensed broker-dealer under the jurisdiction of the Financial Industry Regulatory Authority (FINRA). The Company buys and sells listed and unlisted securities; municipal, corporate and government bonds; mutual fund shares; and provides other financial services. The Company, as an introducing broker-dealer, clears all transactions with and for customers on a fully disclosed basis with a clearing broker-dealer and promptly transmits all customer funds and securities to the clearing broker-dealer which carries all the accounts of such customers.
- C. Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- D. Cash Equivalents – The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.
- E. Clearing Agreement – The Company uses a clearing agent in their business transactions. The agent requires the maintenance of a clearing account deposit. The amount of restricted cash in the clearing deposit account at December 31, 2017 and 2016 was \$15,088.74.
- F. Accounts Receivable and Allowance for Doubtful Accounts – An allowance for doubtful accounts has not been established as of December 31, 2017 and 2016. Based upon management's analysis of outstanding accounts receivable as of December 31, 2017 and 2016 and the Company's past collection experience, an allowance is not considered necessary by management.
- G. Property and Equipment – Property and equipment is carried at cost. Depreciation of property and equipment is computed by the straight-line method based on useful lives of three to ten years.

Depreciation and amortization expense was \$11,544 and \$11,829 for the years ended December 31, 2017 and 2016.

Maintenance and repairs of property and equipment are charged to operations, and major improvements are capitalized. Upon retirement, sale or other disposition of property and equipment, the cost and accumulated depreciation are eliminated from the accounts, and any resulting gain or loss is included in operations.

The Company reviews its property and equipment for impairment whenever events indicate that the carrying amount of the asset may not be recoverable. An impairment loss is recorded when the sum of the future cash flows is less than the carrying amount of the asset. The amount of the loss is determined by comparing the fair market values of the asset to the carrying amount of the asset.

- H. Recognition of Revenue – Commission income from sales of securities is recorded on the trade date.
- I. Income Taxes – Deferred tax assets and liabilities are recognized for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets, including tax loss and credit carryforwards, and liabilities are measured using enacted tax rates expected to apply to taxable income in the years which those temporary differences are expected to be recovered or settled. The effect of a change in tax rates on deferred tax assets and liabilities is recognized in operations in the period that includes the enactment date. Deferred income tax expense represents the change during the period in

period that includes the enactment date. Deferred income tax expense represents the change during the period in

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

the deferred tax assets and deferred tax liabilities. The components of the deferred tax assets and liabilities, which consist of book depreciation versus tax depreciation differences, and differences associated with cash basis reporting versus accrual basis reporting are individually classified as current and noncurrent based on their characteristics. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. The management is of the view that there are no significant tax positions that may be challenged.

The Company is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods. The Company believes it is no longer subject to income tax examinations for the years prior to 2014.

- J. Concentrations of Risk – The Company maintains its cash in accounts with federally insured banks. At times, the balances in these accounts may be in excess of the federally insured limit of \$250,000. The Company believes that there is no significant risk with respect to these deposits.

The Company is engaged in various brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The Company feels the risk at this time is minimal and they review the credit standing of their counterparties on a regular basis.

- K. Date of Management – Management has evaluated subsequent events through February 12, 2018 which the financial statements were available to be issued.
- L. Advertising – The Company expenses advertising costs as they are incurred. Advertising and promotion expense for the years ended December 31, 2017 and 2016 was \$0.00 and \$196.80, respectively.
- M. Reclassifications – Certain accounts in the prior year financial statements have been reclassified for comparative purposes to conform to the presentation in the current year financial statements.

NOTE 2 – COMMITMENTS AND CONTINGENCIES

The Company has a lease agreement for office space expiring December 31, 2019. Monthly base rent ranges from \$0 to \$4,991 over the term of the lease. Terms of the lease also require the Company to pay its share of taxes and operating expenses. Facility rent expense for the years ended December 31, 2017 and 2016 was \$35,736 and \$56,578 respectively.

The Company has also entered into various operating leases for equipment that expire through 2018. Equipment rent expense for the years ended December 31, 2017 and 2016 was \$6,194 and \$13,572, respectively. The equipment lease commitment includes a lease that is reimbursed by sales representatives.

Minimum future lease payments as of December 31, 2017 under non-cancelable operating leases are:

NOTE 3 – RELATED PARTY TRANSACTIONS

The Company shares its facilities and expenses with a sister company. Expenses are allocated between the two entities based on gross revenues. During 2017 and 2016 approximately \$235,428 and \$364,649 or 30% and 46% of common expenses were allocated to the Company's sister company, respectively. The majority of the expenses are paid by the Company, and the sister company reimburses the Company for its share of the expenses monthly. Amounts due from related parties totaled \$0 as of December 31, 2017 and 2016.

NOTE 4 – INCOME TAXES

The Company files a consolidated income tax return as part of a controlled group with common ownership. Deferred income taxes and income tax expense are computed using the Company's proportionate share.

The Company's net deferred tax asset (liability) at December 31, 2017 and 2016 consisted of:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
December 31, 2017	\$(8,725)	\$(6,075)	\$(14,800)
December 31, 2016	\$(8,725)	\$(6,075)	\$(14,800)

The components for the provision for income taxes for the years ended December 31, 2017 and 2016 are as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
Year Ended December 31, 2017:			
Deferred Income Tax	\$4,800	\$3,400	\$8,200
Current Income Tax			
Income Tax Expense	<u>\$4,800</u>	<u>\$3,400</u>	<u>\$8,200</u>
Year Ended December 31, 2016:			
Deferred Income Tax	\$4,582	\$3,435	\$8,017
Current Income Tax			
Income Tax Expense	<u>\$ 5,582</u>	<u>\$3,435</u>	<u>\$8,017</u>

The amount of federal income tax expense attributable to continuing operations differs from the amount of expense that would result from applying domestic federal statutory rates to pretax income from continuing operations primarily due to permanent differences of nondeductible expenses and the effect of state minimum fees.
