To the Shareholder

DORIC CORPORATION
NOTES TO STATEMENT OF FINANCIAL CONDITION
FOR THE YEAR ENDED SEPTEMBER 30, 2018

1. ORGANIZATION AND NATURE OF BUSINESS

Doric Corporation (the "Company") is an investment advisory firm and a Delaware Corporation, which was organized on March 28, 2005 and is registered with the Securities and Exchange Commission and the Financial Industry Regulatory Authority ("FINRA") as a broker-dealer. The Company is a wholly-owned subsidiary of Doric GmbH, formerly Doric Asset Finance & Verwaltungs GmbH (the "Parent"), in Offenbach am Main, Germany, which arranges structures, manages and administers closed end funds issued – amongst others - in Germany. The Company, via a service agreement, fully supports the business of Doric Asset Finance GmbH & Co. KG (DAF KG). The Company is registered as a broker-dealer so that it may conduct private placement of securities.

2. REVENUE RECOGNITION

The Company generates revenue from its service agreements and recognizes revenue ratably over the term of the related agreements as services are provided. Any service fees received in advance of services being provided are recorded as deferred revenue on the balance sheet until services are provided, at which time revenue is recognized.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

3. CASH AND CASH EQUIVALENTS

The Company maintains cash with financial institutions. Funds deposited with a single bank are insured up to \$250,000 in the aggregate by the Federal Deposit Insurance Corporation ("FDIC"). The Company considers all highly liquid instruments purchased with a maturity date of three months or less when purchased to be cash equivalents.

At times, cash balances may exceed FDIC insured limits. The company has not experienced any losses in such amounts.

DORIC CORPORATION

NOTES TO STATEMENT OF FINANCIAL CONDITION (continued)

FOR THE YEAR ENDED SEPTEMBER 30, 2018

4. PROVISION FOR INCOME TAXES

The Company is classified as a "C" Corporation for income tax. The current provision for Federal and State income taxes for the period ended September 30, 2018 is \$12,282.

The provision for income taxes for the period ended September 30, 2018 differs from the amount obtained by applying the U.S. federal income tax rate to pretax income due to federal graduated rates and state income taxes.

Deferred taxes are provided on a liability method whereby deferred tax assets are recognized for deductible temporary differences and operating loss and tax credit carryforwards and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. There were no deferred assets or liabilities at September 30, 2018.

FASB provides guidance for how uncertain tax positions should be recognized, measured, disclosed and presented in the financial statements. This requires the evaluation of tax positions taken or expected to be taken in the course of preparing the company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained "when challenged" or "when examined" by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense and liability in the current year. For the period ended September 30, 2018 management has determined that there are no material uncertain income tax positions.

5. PROPERTY AND EQUIPMENT

Property and equipment is stated at cost. Depreciation is computed by the straight-line method over an estimated useful life of 3 years.

6. CONCENTRATION OF CREDIT RISK

Financial instruments, which potentially subject the Company to concentrations of credit risk, consist principally of temporary cash investments. The Company places its temporary cash investments in high credit financial institutions. However, a portion of temporary cash investments exceed FDIC insured levels from time to time.

7. PROFIT SHARING PLAN

The Company offers a 401 (k) profit sharing plan that covers employees who have completed at least 1,000 hours of service and attained the age of 21. Contributions by the employer are discretionary depending on profitability and are not to exceed the amount allowed for federal income tax purposes. The Company did not make any contributions for the period ended September 30, 2018.

8. RELATED PARTY TRANSACTIONS

The Company has a service agreement with DAF KG providing for service fee revenue equal to budgeted costs plus a 6% margin for which monthly advance payments were made. For the year ended September 30, 2018, the Company recognized \$832,058, in service fees under this agreement. Of this amount, \$65,990 is a receivable at September 30, 2019.

9. COMMITMENTS
