The Frazer Lanier Company, Incorporated
Notes to Financial Statements
September 30, 2018

Note 1 - Summary of Significant Accounting Policies

Nature of operations - The Frazer Lanier Company, Incorporated (the Company) is a broker-dealer registered with the Securities and Exchange Commission (SEC) and the Financial Industry Regulatory Authority (FINRA). The Company is engaged in a single line of business as a securities broker-dealer, which comprises several classes of services, including principal transactions, agency transactions, investment banking, and investment advisory and is headquartered in Alabama.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash and cash equivalents - The Company considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Certificates of deposit - The Company invests in negotiable and nonnegotiable certificates of deposit at various banks, with original maturities greater than three months.

Receivables - Receivables are stated at the amount management expects to collect from balances outstanding at year-end. Based on management's assessment of the credit history with customers having outstanding balances and current relationships with them, it has concluded no allowance for doubtful accounts was necessary as of September 30, 2018.

Underwriting transactions - Revenue includes fees, net of syndicate expenses, arising from securities offerings in which the Company acts as an underwriter or agent. Fees are recorded at the time the underwriting is completed and the income is reasonably determinable.

Remarketing fees - Remarketing fees are recognized as earned on a pro rata basis over the term of the contract. Fees received in advance are deferred over the term of the contract.

Income taxes - Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes.

The Company recognizes and measures its unrecognized tax benefits in accordance with the Income Taxes Topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC). Under that guidance, the Company assesses the likelihood, based on technical merit, that tax positions will be sustained upon examination based on the facts, circumstances, and information available at the end of each period. The measurement of unrecognized tax benefits is adjusted when new information is available, or when an event occurs that requires a change. Interest and penalties associated with tax positions are recognized in the statement of income if material.

Property and equipment - Depreciation of furniture and equipment is computed principally on the straight-line basis for financial reporting purposes and by accelerated methods for income tax purposes. Amortization of leasehold improvements is computed by the straight-line method. The estimated useful lives used to compute depreciation and amortization on assets are indicated below.

Leasehold improvements	5 - 31.5 years
Furniture and office equipment	5 - 10 years

The Company considers property and equipment for impairment when events or circumstances indicate the fair value may be less than the carrying value.

The Frazer Lanier Company, Incorporated
Notes to Financial Statements
September 30, 2018

Commitments - In the normal course of business, the Company enters into underwriting commitments. There were no transactions relating to such underwriting commitments that were open at September 30, 2018 and were subsequently settled.

Note 2 - Concentrations of Risk

The Company maintains cash accounts in bank deposit accounts, which at times may exceed federally insured limits. The Company has not experienced any losses in such accounts.

The Company is engaged in various trading and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

The Frazer Lanier Company, Incorporated
Notes to Financial Statements
September 30, 2018

On December 22, 2017, the President of the United States signed into law the Tax Cuts and Jobs Act tax reform legislation. This legislation makes significant changes in U.S. tax law including a reduction in the corporate tax rates, changes to net operating loss (NOL) carryforwards and carrybacks, and a repeal of the corporate alternative minimum tax. The legislation did reduce the U.S. corporate tax rate from the current maximum rate of 34% to 21%. The Company has valued its deferred tax assets at the enacted rate.

Note 10 - Retirement Plan

The Company has a defined contribution retirement plan covering substantially all employees. For 2018 the Company made safe harbor matching contributions totaling \$95,264. Profit sharing contributions to the plan are authorized by the Board of Directors at its discretion and totaled \$69,870 for 2018.

Note 11 - Net Capital Requirement

Pursuant to the net capital provisions of Rule 15c3-1 of the Securities Exchange Act of 1934, the Company is required to maintain a minimum net capital as defined under such provisions. Net capital and the related net capital ratio may fluctuate on a daily basis. The ratio of aggregate indebtedness to net capital may not exceed 1500.00%.

Note 12 – Effect of New Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, *Revenue from Contracts with Customers (Topic 606)*, which supersedes existing revenue recognition guidance under accounting principles generally accepted in the United States of America. Topic 606 outlines a new, single comprehensive model for companies to use in accounting for revenue. In doing so, it is possible more judgment and estimates may be required by management than currently required under accounting principles generally accepted in the United States of America. Topic 606 will be effective for the fiscal year ending September 30, 2020 using one of two methods: retrospective to each reporting period presented in the financial statements; or retrospectively with the cumulative effect recognized at the date of initial application. The application of Topic 606 may result in material differences from current accounting principles generally accepted in the United States of America. The Company is currently evaluating the impact the adoption of this guidance will have on its financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which amended existing guidance that requires lessees recognize the following for all leases (with the exception of short-term leases) at the commencement date (1) A lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and (2) A right of use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. Under the new guidance, lessor accounting is largely unchanged. Certain targeted improvements were made to align, where necessary, lessor accounting with the lessee accounting model and Topic 606, Revenue from Contracts with Customers. This ASU will be effective for the fiscal year ending September 30, 2021. The Company is currently evaluating the impact the adoption of this guidance will have on its financial statements.
