I have audited the accompanying statement of financial condition of WBB Securities, LLC as of December 31, 2018, the related statements of income, changes in member's equity, and cash flows for the year then ended, and the related notes (collectively referred to as the financial statements). Basis for Opinion

These financial statements are the responsibility of WBB Securities, LLC's management. My responsibility is to express an opinion on WBB Securities, LLC's financial statements based on my audit. Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

General

WBB Securities, LLC, (the "Company"), was formed in 2001, in the State of California as a limited liability company. The Company is registered as a broker-dealer with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA") and Securities Investor Protection Corporation ("SIPC"). The Company is authorized to engage in private placements of securities and mergers and acquisitions. The Company does not hold customer funds or safeguard customer securities. The Company clears all security transactions through National Financial Services ("NFS").

Summary of Significant Accounting Policies

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

For purposes relating to the statement of cash flows, the Company considers all highly liquid debt instruments purchased with a maturity of three months or less to be cash equivalents. The Company also includes money markets as cash equivalents.

Property and equipment are stated at cost. Purchases greater than \$1,000 are capitalized. Repairs and maintenance to these assets are charged to expense as incurred; major improvements enhancing the function and/or useful life are capitalized. When items are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gains or losses arising from such transactions are recognized. Property and equipment are depreciated over their estimated useful lives of three (3) to seven (7) years by the straight-line method.

Retirement Plan - The Company maintains a retirement plan in accordance with Section 401(k) of the Internal Revenue Code. Under the terms of this plan, eligible employees make voluntary contributions to the extent allowable by law. The Company made \$10,000 in contributions on behalf of employees to this plan for the year ended December 31, 2018.

The Company, with the consent of its Members, has elected to be a Limited Liability Company. For tax purposes, the Company is treated like a partnership, therefore in lieu of business income taxes, the Members are taxed on the Company's taxable income. Accordingly, no provision or liability for Federal Income Taxes is included in these financial statements. The State of California has similar treatment, although there exists a provision for a minimum Franchise Tax of \$800, plus a fee based upon gross receipts.

Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
Continued

The Company is subject to audit by the taxing agencies for years ending December 31, 2015, 2016, and 2017.

The Company is engaged in various trading and brokerage activities in whose counterparties primarily include broker/dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends upon the creditworthiness of the counterparty or issuer of the instrument. To mitigate the risk of loss, the Company maintains its accounts with credit worthy customers and counterparties.

The management has reviewed the results of operations for the period of time from its year end December 31, 2018 through February 4, 2019 the date the financial statements were available to be issued, and have determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred, the nature of which would require disclosure.

FASB ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritized the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820 are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.

Level 2 inputs are inputs (other than quoted prices included within Level 1) that are observable for the asset or liability, either directly or indirectly.

Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. (The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.)

* There were no levels to measure at December 31, 2018

Changes in Accounting Policy:

The Company adopted Topic 606 "Revenue from Contracts with Customers" with a date of January 1, 2018. As a result, it has changed its accounting policy for revenue recognition as detailed below.

The Company applied Topic 606 using the cumulative effect method – i.e. by recognizing the cumulative effect of initially applying Topic 606 as an adjustment to the opening balance of equity at January 1, 2018. This was immaterial. Therefore, any prior reporting information has not been adjusted and continues to be reported under Topic 606. The details of the significant changes and quantitative impact of the changes are set out below.

The accounting for the Company's proprietary trading operations and lending activities (including securities lending and repurchase obligations) are not considered within the scope of Topic 606.

A retail or institutional customer typically signs one contract with the Company for trade execution and the only fee in such a cancelable contract is contingent on trades being executed (i.e. commission), it is not deemed to meet the contract criteria as it lacks commercial substance until a trade order is placed. ASC 606-10-25-3 explains that when a contract has no fixed duration and can be terminated or modified by either party at any time without penalty, the Company [Firm] should apply the guidance in Topic 606 to the period in which the parties have enforceable rights and obligations. For the Company, the period in which such parties have enforceable rights and obligations may be one day or less and control transfers on trade date.

Advisory services contracts for public and corporate finance activities may contain a variety of promised goods and services. The Company may be engaged to assist its client may promise due diligence services, pre-transaction structuring advice, fairness opinion and finding prospective buyers. The Company will need to determine whether each promised good or service is capable as being distinct and distinct in the context of the contract because they are an input to the combined output of selling the business. The Company will apply significant judgement to identify the performance obligations and different conclusions may be reached based upon the specific terms and conditions of the contract. Many contracts contain variable considerations (e.g. success fees). The amount of

variable consideration the Company can include will be limited to the amount for which it is probable that a significant revenue reversal will not occur when the uncertainties related to the variability are resolved. The Company will recognize the consideration allocated to specific performance obligations when, or as, those performance obligations are satisfied. Retainer fees (nonrefundable), announcement fees and success fees would not be recognized until the performance obligation has been satisfied (such as the close of sale). This may result in a change in the timing of recognition of the retainer fee compared to current practice prior to the adoption of Topic 606.
