Notes to the Financial Statement

December 31, 2018

1. Organization and Nature of Business

Touchstone Securities, Inc. (the Company) is a wholly-owned subsidiary of IFS Financial Services, Inc., which is a wholly-owned subsidiary of Western-Southern Life Assurance Company (WSLAC), which is a wholly-owned subsidiary of The Western and Southern Life Insurance Company (WSLIC). The Company is registered as a broker-dealer in securities under the Securities Exchange Act of 1934. The Company is a member of the Financial Industry Regulatory Authority (FINRA) and the Securities Investors Protection Corporation (SIPC). The Company distributes the Touchstone Family of Mutual Funds (the Touchstone Funds), a related party, variable annuities of its affiliates through affiliated sales representatives, and serves as placement agent for affiliated private equity fund limited partnership interests. The Company generates substantially all of its revenue from transactions with affiliates. The Company operates in one business segment that serves as distributor and underwriter for affiliates. The Company's determination that it has one operating segment is based on the fact that the officers review the Company's financial performance on an aggregate level.

2. Significant Accounting Policies

Cash and Cash Equivalents

Cash and cash equivalents include all cash balances and highly-liquid investments with a maturity of three months or less at the date of purchase, including investments in money market funds, which are valued at net asset value. Investments in money market funds are considered level 1 investments in the fair value hierarchy under ASC 820. Level 1 securities are unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. The Company held an investment of \$15,358,415 in the money market fund, which serves as a sweep account for the cash accounts that comprise the remaining balance in cash and cash equivalents.

Deferred Commission Costs

The Company pays commissions to brokers who sell \$1 million or more of class A shares and on all sales of class C shares of the Touchstone Funds. If the shares are redeemed within a year of their purchase, a contingent deferred sales charge ("CDSC") of up to 1.00% will be charged to the shareholder on the redemption, therefore, the commission costs incurred by the Company are capitalized and amortized over the 12 month CDSC period. As of December 31, 2018, the Company had deferred commission costs of \$183,888.

2. Significant Accounting Policies (continued)

Leases

In February 2016, the FASB issued ASU 2016-02, “Leases (Topic 842)”, as modified by ASUs 2018-01, 2018-10 and 2018-11 (collectively, ASU 2016-02). Under ASU 2016-02, an entity will be required to recognize assets and liabilities for the rights and obligations created by leases on the entity’s balance sheet for both finance and operating leases. The Company has concluded that upon adoption of ASU 2016-02 on January 1, 2019, there will be no impact to the financial statements.

Income Taxes

The Company is included in the consolidated federal income tax return with WSLIC. ASC 740, *Income Taxes*, requires a systematic and rational allocation of tax expense to members of the consolidated group. Accordingly, the Company records a provision for income taxes under the separate return method as permitted under ASC 740. The benefit from losses of the Company is available to offset income of others within the consolidated group or the Company’s future taxable income within the period of limitations, in accordance with the Company’s tax sharing agreement.

The gross amount of deferred tax assets recorded at December 31, 2018 is \$4,201. The Company had no gross deferred tax liabilities at December 31, 2018. The deferred tax assets are primarily attributable to certain accruals not currently deductible. Differences between the effective tax rate and the federal income tax rate are due to adjustments for state income taxes, meals and entertainment and remeasurement of net deferred tax assets. There was no valuation allowance as of December 31, 2018 and no changes from prior year. The amount of taxes currently receivable from WSLIC as of December 31, 2018 was \$1,364,564.

The Company recognizes the tax benefits of uncertain tax positions only when the position is more likely than not to be sustained under examination by the appropriate taxing authority. The Company has reviewed its tax positions taken on federal income tax returns for all open tax years (tax years ended December 31, 2014 through 2018) and has determined that no provisions for uncertain tax positions is required in the financial statements.

The eligible full-time employees of the Company are covered under the Western-Southern Affiliated Company Employee Retirement 401(k) Savings Plan (the Savings Plan), which is a contributory plan. Employees of the Company can contribute an amount not less than 1% of their periodic compensation up to the maximum annual contribution allowed by current law.

Employee contributions become eligible for Company match beginning the first month following the first 12-month period during which the employee worked a minimum of 1,000 hours. In years where WSLIC exceeds its business expectations, the Company's matching contribution could increase to as much as half of eligible contributions up to 6%. The Company matched one half of eligible contributions up to a maximum match of 6% in 2018. The Savings Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Touchstone Securities, Inc.

Notes to the Financial Statement (continued)

6. Going Concern (continued)

to evaluate the entity's ability to continue as a going concern within one year after the date that the financial statements are issued. Management has considered conditions, specifically historical operating losses, that could raise substantial doubt about the Company's ability to continue as a going concern. Management has implemented a plan that includes a funding commitment through capital contributions from affiliate WSLAC, which mitigates the conditions that raise substantial doubt. As such, management has concluded that the Company has the ability to continue as a going concern within one year of the date that these financial statements are issued.

7. Subsequent Events

Management has evaluated the impact of all subsequent events on the Company through the date the financial condition were issued and has determined that there were no subsequent events requiring recognition or disclosure in the financial conditional.

8. Regulatory Requirements

The Company is subject to the Securities and Exchange Commission's Uniform Net Capital Rule 15c3-1 (the Rule), which requires that the Company maintain a minimum net capital level of the greater of \$5,000 or 6 2/3% of aggregate indebtedness, and a ratio of aggregate indebtedness to net capital not to exceed 15 to 1, as those terms are defined by the Rule. At December 31, 2018, the Company's net capital, as defined, was \$8,299,343, which was \$7,845,727 in excess of required net capital, and its ratio of aggregate indebtedness to net capital was 0.82 to 1.
