NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018

NOTE A – SUMMARY OF ACCOUNTING POLICIES

Accounting principles followed by the Company and the methods of applying those principles which materially affect the determination of financial position, results of operation and cash flows are summarized below:

Organization

Joseph Grace Holdings, Inc., (the “Company”) is a registered broker-dealer with the Securities and Exchange Commission (the “SEC”) and a member of the Financial Industry Regulatory Authority, Inc. (the “FINRA”). The Company is also registered as an investment advisor. The Company primarily trades for its own account, provides institutional and retail execution services and financial and operational consulting to other registered broker-dealers. As an investment advisor the Company acts as a solicitor for various SEC registered investment advisors and other registered market participants.

Description of Business

The Company, located in New York, NY, is a broker and dealer in securities registered with the Securities and Exchange Commission (“SEC”) and is a member of FINRA. The Company is also registered as an investment advisor. The Company operates under SEC Rule 15c3-3(k)(2)(ii), which provides that all funds and securities belonging to the Company’s customers are held by a clearing broker-dealer.

Basis of Accounting

The financial statements of the Company have been prepared on the accrual basis of accounting and accordingly reflect all significant receivables, payables and other liabilities.

Cash and Cash Equivalents

The Company considers as cash all short-term investments with an original maturity of three months or less to be cash equivalents.

Receivables – Recognition of Bad Debt

Referral fee receivables are stated at the amount billed and due quarterly. The Company generally collects these receivables within 30 -60 days. The Company evaluates the collectability of receivables and estimates an allowance based on the historical performance. As of December 31, 2018, all receivables are expected to be fully collectible; accordingly, no allowance for doubtful accounts was recorded.

Accounting Standard Codification (“ASC”) Revenue Recognition

The Company adopted Accounting Standards Codification (“ASC”) Topic 606, Revenue from Contracts with Customers on January 1, 2018, the date the guidance became effective for the Company. The Company adopted the guidance using the modified retrospective method (i.e. applied prospectively effective January 1, 2018), which had no impact on the Company's opening retained earnings. Further, the Company determined that there was no material impact to the Company's recognition of revenue upon adoption of Topic 606.

See Independent Auditors’ Report

JOSEPH GRACE HOLDINGS, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018
(continued)

NOTE A – SUMMARY OF ACCOUNTING POLICIES (Continued)

The guidance requires an entity to follow a five step model to (a) identify the contract(s) with a customer, (b) identify the performance obligations in the contract, (c) determine the transaction price, (d) allocate the transaction price to the performance obligations in the contract, and (e) recognize revenue when (or as) the entity satisfies a performance obligation.

The Company earns revenue from agent solicitation fees, consulting income, and commission income. Refer to Note E for further discussion on revenue recognition. Revenue from Proprietary Trading is accounted for under ASC-940-320 Financial Services-Broker Dealers.

Income taxes

The Company has elected under Subchapter S of the Internal Revenue Code, to not be considered a taxable entity for federal income tax purposes. The state under which the Company is incorporated has similar provisions. Each shareholder is liable for the taxes on their share of the Company's profit or loss. However, the Company is subject to the New York State franchise taxes and New York City General Corporation tax. No provision was required as of December 31, 2018.

The Company has adopted the provisions of ASC 740-10, Accounting for Uncertainty in Income Taxes. Under ASC 740-10, the Company is required to evaluate each of its tax positions to determine if they are more likely than not to be sustained if the taxing authority examines the respective position. The Company has evaluated each of its tax positions and has determined that no provision or liability for income taxes is necessary. The Company records interest and penalties related to unrecognized tax benefits in regulatory fees, when applicable. The Company remains subject to income tax examinations for its federal income taxes generally for 2015 through 2017.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Securities owned are recorded at the fair value in accordance with FASB ACS-820 Fair Value Measurements. ASC 820 defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the assets or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by ASC 820, are used to measure fair value.

See Independent Auditors' Report

JOSEPH GRACE HOLDINGS, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018
(continued)

NOTE A – SUMMARY OF ACCOUNTING POLICIES (Continued)

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on the management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

All securities owned are recorded as level 1 based on fair market values used to value these investments as of December 31, 2018.

Financial instruments that are subject to fair value disclosure requirements are carried in the financial statements at amount that approximate fair value. The Company's financial instruments, including due from brokers, securities owned, referral fee receivable, receivables from shareholders, other assets and accounts payable and accrued expenses, are carried at cost, which approximates their fair value because of the short-term nature of these assets and liabilities. Fair values are based on quoted market prices and assumptions concerning the amount and timing of estimated future cash flows and assumed discount rates reflecting varying degrees of perceived risk.

Concentrations

The Company has revenue concentrations in that most revenues (78%) come from two sources. There is an expense concentration directly derived from the revenue concentration. The Company has an expense concentration in that most expenses (87%) are paid out to producers of the Company.

New Accounting Pronouncement

In February 2016, the FASB issued ASU No.2016-02, Leases ("ASU 2016-02"). This update requires all leases with a term greater than 12 months to be recognized on the balance sheet through the right of use asset and a lease liability and the disclosure of key information pertaining to leasing arrangements. This new guidance is effective for years beginning after December 15, 2018. The Company expects to adopt the provisions of this guidance on January 1, 2019. The Company is continuing to monitor potential changes to accounting pronouncements and will assess any necessary changes to the implementation process as the guidance is updated.

See Independent Auditors' Report

JOSEPH GRACE HOLDINGS, INC.
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2018
(continued)

NOTE A – SUMMARY OF ACCOUNTING POLICIES (Continued)

In June 2016, the FASB issued ASU No. 2016-13, Financial Instruments – Credit losses (Topic 326) (“ASU 2016-13”), which requires the immediate recognition of the management’s estimates of current expected credit loss. ASU 2016-13 is effective for the fiscal years and interim reporting periods within those years beginning after December 15, 2019. Early adoption is permitted after fiscal years beginning December 15, 2018. The Company is currently evaluating the potential impact of adopting this guidance on our financial statements.

In August 2018, the FASB issued ASU No. 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement. The amendments in this update modify the disclosure requirements on the fair value measurements in Topic 820. The ASU is effective for the Registrants for fiscal years beginning after December 15, 2019 and the interim periods therein. Early adoption is permitted. The Company is currently assessing the impact of this standard on our financial statements.

The Company does not believe the adoption of any recent issues, but not yet effective, accounting standard will have a material effect on its financial position and results of operations.

NOTE B – NET CAPITAL REQUIREMENTS

Pursuant to the net capital provisions of Rule 15c3-3 of the Securities and Exchange Act of 1934, the Company is required to maintain a minimum net capital, as defined under such provisions. Net capital and the related net capital ratio may fluctuate daily. There were no material inadequacies in the amount reported as Net Capital in the audited Computation of Net Capital and the broker-dealer’s corresponding Part IIA of the FOCUS report required under Rule 15c3-1.

NOTE C – POSSESSION OR CONTROL REQUIREMENTS

The Company does not have any possession or control of customer’s funds or securities. There were no material inadequacies in the procedures followed in adhering to the exceptive provisions of SEC Rule 15c-3-3(k)(2)(ii) by promptly transmitting all customer funds or securities to the clearing broker who carries the customer accounts.

NOTE D – OTHER COMMITMENTS AND CONTINGENCIES

The Company has a cancelable operating lease on its New York Office space. As part of the lease, the Company pays for its share of telephone usage and other sundry services, as invoices by the building owner. The amount of rent for the year ending December 31, 2018 was \$51,542.

DECEMBER 31, 2018
(continued)

NOTE E – REVENUE RECOGNITION

Solicitation fees, consulting income and commission income are recorded in accordance with ASC 606, which is recognized when: (i) a contract with a client has been identified, (ii) the performance obligation(s) in the contract have been identified, (iii) the transaction price has been determined, (iv) the transaction price has been allocated to each performance obligation in the contract, and (v) the Company has satisfied the applicable performance obligation over time. The Company has contracts with its customers, other registered investment advisors and other registered market participants, and its performance obligation is the solicitation of new clients for those advisors. Fees are fixed rate based on the contract terms. December 2018 referral fee receivables are expected to be collected in full during the first quarter of 2019. The Company also provides solicitation and consulting services to its customers. The benefits of the Company's services are generally transferred to the Company's customers over time as the customers simultaneously receive and consume the benefits as the Company performs the services. The Company's contracts are usually cancellable by either party at any time and the considerations are collected quarterly. Fees are generally fixed rate based on the contract terms and charged to the customer on a quarterly basis, recognized and accrued monthly in which the services are performed. Adjustments are made on a quarterly basis to properly adjust for any differences. As of December 31, 2018, and 2017, receivables relate to this revenue from customers was \$1,314,909 and \$1,018,676. The expenses that are directly related to such transactions are recorded as incurred and presented within operating expenses. These revenues have an accrued commission liability associated with it due to the registered representatives' contracts of Joseph Grace. These liabilities are recorded when earned and are aligned with the Company's revenue recognition policy.

NOTE F – RELATED PARTY TRANSACTIONS

As of December 31, 2018, the Company had a balance of \$1,191,967 for its receivables from shareholders. During the year ended December 31, 2018, the Company distributed approximately \$1,100,000 of these receivables.

NOTE G – SUBSEQUENT EVENT

The Company has evaluated events subsequent to the balance sheet date for items requiring recording or disclosure in the financial statements. The evaluation was performed through February 25, 2019, which is the date the financial statement was available to be issued. Based upon this review, the Company has determined that there were no events which took place that would have a material impact on its financial statements.

We have reviewed management's statements, included in the accompanying Exemption Report, in which (1) Joseph Grace Holdings, Inc.
